STOCK MARKETS.

NEW YORK.

H. C. Becher, broker, Bank of Commerce building, received the following by private wire from Bartlett, Frazier & Carrington today:

New York, Sept. 2—Noon.—Consistent strength has been manifested since the opening, but lack of activity prevents better results in the market in the ma St. Paul stocks, and used them as levers to try and put prices up. Both stocks developed a good tone, but made no material gains. Pennsylvania was inclined to weakness. The construction placed on its report of earnings was not favorable. The Steel stocks were strong, presumably on Carnegie's bullish talk. It is to be hoped that Mr. Carnegie knows whereaks. Motrowolitan was

whereof he speaks. Metropolitan was weak. Amalgamated Copper, preferred, showed some support, but little inherent strength. Consolidated Gas sold down rather sharply. There is no hope to be held out of increased activity, but the nature of sentiment is somewhat more cheerful. Sales to noon, 110,000 shares. TORONTO.
