BEAUMONT

(By our own correspondent.)

Conspicuous among the Beaumont people who entertained at the very successful "At-Home" given by the Foresters in their new hall on Thursday last were Mr. T. Dobble, the young captain of the A. O. F. football team, in a Scottish ballad, and "Wes" Macleure, of Victoria, and one of the most realistic of our Harry Lauder imitations on the American stage.

**Pleasing Concert.** A very pleasing concert was given on Tuesday evening at the sailors' and soldiers' home, Esquamit, by the Triumph Lodge No. 16. Many popular artists came from Victoria and kindly assisted the local talent.

**A Surprise Party.** A most enjoyable surprise party was given Miss Phyllis Kemp at Derravagat, Esquamit road, Tuesday afternoon, on the occasion of her eleventh birthday. The tables were prettily decorated with chrysanthemums and autumn leaves and grapes. The blinds were drawn and the lights were turned on, giving a night effect, which was much appreciated by the little ones. Among the small guests were the Misses Claudia Campbell, Jean Robertson, Violet Sortwell, Muriel Kemp, Eunice Campbell, and Misses Donald Campbell, Clifford Mack, Stuart Campbell, Eddie Pauline, F. and A. Simpson, and many others.

**Off Hunting.** Messrs. S. and J. Doran have gone on a hunting and trapping expedition into the interior of the island. They expect to be gone several months and will not do much return with rich spoils.

**Captures Fine Buck.** Mr. Fred Ellis, Admirals road, brought one of the finest bucks he has been shot in years, after a day's hunt on Sunday. Its graceful antlers decorated the hall of the cosy little bungalow.

**Toronto Visitors Pleased.** Mr. Robert Mowat, of "The Boreen," Esquamit road, has as guests his brothers, Mr. J. and K. Mowat, who are from Toronto, and express themselves as delighted with Victoria and the vicinity.

**Residents Like Car.** The residents of Beaumont appreciate very much their new cushioned car which has been placed on the Esquamit line.

**OAK BAY**

(By Our Own Correspondent.)

The first sou'-easter of this fall blew over the Bay on Sunday, Monday and Tuesday. Mr. Hill's motor launch broke her moorings on Saturday night, and was washed up on the Towlows Beach. Fortunately she was refloated before any damage had been done. In the height of the storm on Monday, a small rowboat was sighted drifting bottom upwards past Mary Todd Island. It was, so far as could be seen, dashed to pieces off Cattle Point. No man or wreckage has been picked up.

**Snow on Olympics.** The Olympics are now beginning to receive their winter covering of snow. This is early, to be exact, about four weeks before their usual time. Also the smaller brook that flows round about Mount Baker, on the mainland, now shows up finely, their white mantles, sparkling with the sun, and one glint of light where the sun strikes them.

**Work Improves Avenue.** Now that the work is finished, no one will deny that the straightening of the road through Mr. Rattenbury's grounds, has greatly improved Mount Baker avenue, or as the road is there known as, Beach Drive. And while this work is being done, it is being thought of, what is the correct name of this road running along the water-front. At either end it seems to be known as Beach Drive, while in the centre everyone calls it Mount Baker avenue. Would it be asking too much that the municipality put up a few street names here and there.

**About Dogs.** Many of the householders out here seem to think that the ownership of dog carries no responsibilities. Of course, this is not the case, the owner being held liable by law for all damages his dog does. While no one wishes to see a dog on the chain all day, it is hardly neighbourly to let one run loose over other people's gardens, destroying their chickens.

**Building New Home.** Mr. Floyd, the clerk of the municipality, is building on Monterey avenue, and expects to move into his new house early in the new year. He and his family will be greatly missed by their neighbors along the waterfront.

**Local Artist Successful.** Miss Edith Reade, who has been on a visit to friends in Vancouver, returned to Oak Bay shortly. We understand that this gifted lady has made quite a hit with her pictures of raccoons and other sporting scenes, having at least one picture exhibited and greatly praised in Vancouver City.

**A Charming Garden.** Mr. Fernie's garden, on Oak Bay avenue, still excites the comment of all newcomers and visitors to the Bay. It has been said of it that the weeds get tired of growing there, and grow in it, and go away and die broken-hearted. We believe that in a competition open to the whole of Victoria, Mr. Fernie's garden would easily win the first prize. Might not this be acted upon by the right authorities?

**Popular Camp Unsurpassed.** Willows Beach, long known as the best camping ground near the city, is now becoming quite suburban in appearance. Among the new houses either just finished or still being built in this locality, are the following: those of Messrs. Rhodes, Hillis, and Wing, while Mr. Turner's dainty little cottages have also been much admired. We are glad to see this district surely one of the best residential in these parts, at last coming into its own.

Municipal Improvements.

We understand that the municipality intends this winter to attend to Beach Drive, Mount Baker avenue, and indeed the whole waterfront, right round past the golf links, to the City Boundary. This work will not be taken up too soon, as the powers that be have their eyes in that direction, why should they not be induced to put down granite sidewalks, walks along Mount Baker avenue, say between San Carlos and the entrance to the Golf Links?

**Do Seals Eat Duck?** Do seals eat duck? That is not a conundrum, but a straight question. It was only last Tuesday evening that a couple of neighbors out here had a long and heated argument about this matter. One gentleman stated that he had that day while out duck shooting seen a seal come up under a duck and gulp him down. The other laughed long and humorously, asking to see how much was left in the first speaker's hunting flask. The matter was beaten black and blue, but neither would give way. Can any nimbler or naturalist among your readers speak with authority on the subject, and having removed the bone of contention, bring two old friends together again?

**Street Lighting Bad.** There is one matter to which the municipal council should immediately turn its attention. The street lighting in Oak Bay is bad. Surely we have now passed from that state of rural blissfulness when it is necessary for every man to carry a lantern. Yet this is what our house holders have to do if they venture out after dark. It is little things like that, that make progress or otherwise.

**Mr. Macleure's Garden.** Mr. Macleure, the well-known architect, is certainly to be complimented on the beautiful garden he has made round his home on Mount Baker avenue. As the drivers of the tally-ho's are delighted to point out, his garden is a good example of what can be made out of our rock-broken land. Mr. Macleure's efforts have been equalled in another way by Mr. S. Newton, on a rocky knoll, jutting into the sea.

**Persons.** Mr. J. W. Coburn, the president of the Ladies' Aid of St. Andrew's, left on Monday morning on a business trip to Winnipeg and other eastern points. Mrs. M. H. H. will give an at-home on Monday, the 9th.

**Miss North, of Skelton, Yorks,** arrived in town this week and is staying with Mrs. J. J. Friesland. Mrs. A. McEwan, after spending a few weeks with her daughter in Victoria, arrived home on Tuesday. Miss Macleure, of Vancouver, is visiting her parents, Mr. and Mrs. H. Macleure, of Alberni.

**Mr. and Mrs. William Cornfield** left town on Wednesday for Princeton, where in future they will reside.

**Miss Morris, the head nurse** of the hospital, is leaving to be married. She was surprised by Mr. S. Newton last night, and received a handsome gold watch and fob and showers of good wishes.

**A Hartley, the former custodian** of the Ladysmith football club, and who is well known in Victoria soccer circles, arrived in town on Monday evening from Kamloops, going on to the smelter city the next morning.

**Miss Williams, of Newcastle** town, came back from Vancouver on Tuesday, where she had been paying a visit to her friends.

**Mr. J. J. Grant, the manager** of the Vancouver-Nanaimo Coal company's mine at East Wellington, returned from a business trip to Vancouver on Thursday.

**Judge Young, of Atlin, a former** resident of this city, is paying a visit to his friends in the city.

**Mr. George Colton, of Cedar** District, with whom we are usually acquainted, is now in the city, having just returned from a business trip to the interior.

**Mr. George Colton, of Cedar** District, with whom we are usually acquainted, is now in the city, having just returned from a business trip to the interior.

**Mr. George Colton, of Cedar** District, with whom we are usually acquainted, is now in the city, having just returned from a business trip to the interior.

Amending License Bylaw.

The new license bylaw which came into operation some two or three months ago is being amended. It has been found that according to the regulations as they are a license holder is first of all fined for selling liquor during prohibited hours, and that next the same offence entails the cancellation of his license. Rather than have any trouble in the enforcement of the law an amendment has been introduced to the council which will remove this objection.

**Unique Marine Record.** Henry Egense, the rental master of the S. S. Thor, has rather a unique record to his credit in Pacific navigation. It was in March of last year, as captain of the S. S. Titania, he took his first cargo of coal to San Francisco. When he takes over the Thor on his present trip it will make the 200th cargo that he has taken down to the Golden Gate. The S. S. Titania 187 times, and this voyage being the 17th time for the S. S. Thor. Calculated on the basis of cargo of each trip at 8,000 tons, Captain Egense has taken 1,600,000 tons of cargo from the local port to San Francisco.

**Social Events.** The social events of the week have been the Halloween party given by the Ladies of the Maccabees of Monday evening, which was most interesting and a great success. On Wednesday night the Ladies' Hockey club gave a dance in the Fraser Hotel, which was also a great success. There were over 80 couples present, and with Dr. L. Davidson playing the piano, music, and a good floor and a prettily decorated hall, the dancers had a merry time.

**Inspected New Road.** H. C. Rayson, government agent, went on Tuesday to Clayoquot on Thursday, Oct. 28, to inspect the fine new road now in course of construction. He returned by the steamer boat on Saturday.

**Ducks and geese** are exceedingly plentiful in a neighborhood near the hood and afford good sport and food to many.

**Return From West Coast.** T. Maker, J. MacNeil, Robert Ericson and Percy Tills have returned from the West Coast trail.

**Mr. Brewster in Town.** Mr. Brewster, M. P., arrived from Clayoquot on Friday, and had conferences with his supporters and arranged for the ensuing electoral campaign.

**Mr. J. W. Coburn, the president** of the Ladies' Aid of St. Andrew's, left on Monday morning on a business trip to Winnipeg and other eastern points. Mrs. M. H. H. will give an at-home on Monday, the 9th.

LIBERAL POLITICS AS PLACED IN VANCOUVER

Trick of Daily World to Prevent Premier McBride Being Heard by Electors Succeeds on Technicality

VANCOUVER, Nov. 6.—Mr. Justice Clement decided yesterday, after argument lasting several hours, that Premier McBride must forsake his political tour up-country and attend to an application by E. V. Bodwell, K. C., Green vs. The World Newspaper. Mr. Justice Clement gave this decision on the ground that the Premier was to set aside the recent subpoena served on Hon. Mr. McBride by the defendants in the case, which is set down for November 10th.

In the course of his argument, Mr. Bodwell asked the first time, the supreme court was brought into the political arena, and its processes being used in order to make effective an election dodge.

Mr. Justice Clement: "Perhaps Premier McBride will wait until some motion is made to attach him for failing to obey the subpoena in this case."

Mr. Bodwell: "Why, my lord, this highly painful journal would come out with great headlines, with letters a foot in length, upbraiding the Premier for his open contempt for the law of the land."

The name of Geo. H. Cowan, M. P., entered into the forensic debate just before the close of the first time, the supreme court was brought into the political arena, and its processes being used in order to make effective an election dodge.

ALBERNI

(By our own Correspondent.)

The Ladies' Aid of St. Andrew's Presbyterian church held their annual Halloween sale of work on Friday afternoon. It was followed by a capital supper. Many beautiful and useful articles were exhibited for sale at moderate prices. Mrs. Glasgow and Miss Marcus' embroideries being specially well executed and designed.

The "grab" was an usual and immense source of amusement to the youngsters, and home-made candies were likewise made and sold. Afternoon tea was served from 3 to 5, and at 6 a number of the principal guests were present. The supper was a success, and the proceeds were used for the purchase of a new altar cloth.

**Horse Stealing Popular.** For some time now a practice of entering private stables and helping himself to a horse. In some cases the horse was returned to the stable, and in other cases was allowed to find its way home alone. In every instance, however, the animals were, in some way, injured or having been hard-driven. The police have been on the outlook to catch these horse-thieves but with no success. The other night they did get close to the man, but so far that is all that can be said. Whoever it was had three horses with him when the policeman tackled him, but the man got a good start and in spite of all commands and emphasized with revolver shots he refused to stop and succeeded in getting away. The amount realized by payment of arrears and costs having been met by the respective owners. There were several disappointed prospective purchasers, who had put in an appearance, it being generally realized that some very valuable and such as the "Hayes" mines, the "Sunshine" group and others, might be picked up cheaply.

**Football Match.** A well-attended football match was played on Thanksgiving Day, between the Old and New Town clubs. The victory was won by the Old Town club, the score being 3 to 0. The match was an interesting time in watching a well-played game.

**The New Town won by 3 goals to 0.** The teams were as follows: Old Town, H. J. McNeilson, E. M. Whyte, H. Bishop, R. Ericson, G. Ward (captain), W. Ericson, D. Lougham, W. Green, J. Hillis, A. Drinkwater.

**May Be Warratah Wreckage** CAPE TOWN, Nov. 6.—A quantity of charred wreckage has been washed ashore near Port Alfred, on the southern coast of Cape Colony. There are some indications that the wreckage is from the British steamer Warratah, which was wrecked in 1882. The wreckage is of metal and coal and has never been heard from since she sailed from Port Natal on July 6 for London.
