The Toronion at Last Meet More Than Their Match - Victory for the Mon-

Notwithstanding the variety of amuse ments going on simultaneously yesterday afternoon, a very large crowd of spectators assembled to see the Rugby football match between the Montrealers and Terontos for the championship of the dominion. They were by no means disappointer; for al-though the visiting team carried off the honors of the day by so large a figure as 30 points to rothing, wet the greater part of the same nor more through stiffness.

though the visiting team carried off the honors of the day by b large a figure as 30 points to rothing, yet the greater part of the game was very holy contested. The ball travers d every part of the field, and at no time could the play be characterised as one-sided. The game was begun by McLennan kick-ing off for Toronto. The superiority of the Montrealers soon showed itself in the fact that the ball was kept well down by the goal of the home team, and that this latter had to touch down behind their own goal line. They rallied, however, and the contest was soon confined to the centre of goal line. They railed, however, and the contest was soon confined to the centre of the field, but not before an excel-ient kick from Sterling scured a goal for Montreal. To cut matters short, it

street in what is now East Hamilton. The old track saw some great contests from the time the officers of the garrison rode in the breakneck steeplechases to the days of Melton and Mazzepa. Many a famous herse was speeded here. Here Dexter trotted the only time in Canada. Here, too, the great brown horse Terror ran his last race, and when he was collared at the three quarter pole he three wup his tail, quit like most of his blood at any distance near a mile, and was beaten home by Storm and John Bell.
A couple of old-time races, a reference to which will be of interest though they were not run over the old track, were the Hamilton steeplechases at Wm. Mr. Warrington, who acted as con-ductor, sang "Rolling in Foaming Billows" (Creation) in a descriptive and careful manner, and added to the favorable im-pression he has made. Masters A. Hods-don, F.
