AMERICAN WHEAT MARKETS TAKE ANOTHER PLUNGE.

The Weekly Bank Statement-Toron and Montreal Stock Exchanges-Grain and Flour-Produce and Provisions-Beerbohm's Report—Oswego Barley

SATURDAY EVENING, May 16.

The banks in St. Thomas, Ont., have been in the habit of receiving American silver at par and shipping it to the other side. Recently the American banks refused to accept their own money at par and now the St. Thomas banks will take it from their customers no longer.

The weekly statement of New York associated beings was a big surprise. Those who professed to be judges predicted a decrease of three or four millions in the reserve, while according to the official declaration thore is an increase. These are the pariations: Reserve, increase §148, 200; loans, Jorease §4,442,200; specie, decrease \$4,75,10°, legals, increase \$2,646,200; deposits, decrease \$5,111,200; circulation, decrease \$43,000.

present prices are much to the first to the cost futures. The weather therefore being more favorable for growing crops outweighed all other considerations. Corn and oats lost \$4c and \$6c respectively to-day in heavy selling by holders, shorts covered freely, but pressure to sell continued to the close. Hog products having received the recent rally from purchase made by short sellers influenced by strength in grain resumed their downward course to-day under pressure of heavy stocks. Speculative buying of provisions is getting less fashionable and holders steadily pressing sales.

rany in quotations our renewer Conflicted in quarters where for some time past there has been doubt and apprehension. Unfortunately, this bank statement may not be all that it appears to be on the surface. There is some reason to believe that the gains by the banks have been to a greater or less extent, the result of special "paiding" processes. It is intimated by peopie who have more or less opportunities for observation that certain banks in the clearing house have been large gainers by means of drafts upon the big trust companies of the city. One estimate has it that not less than four million have been transferred from customs to banks in order to make the current bank statement good. If this paiculation be true the situation is not by any means agrous as upon the surface it appears to be. Bankers generally agree that the gold shipments are going to ontinue and run into big figures. There is a general agreement that we have already paid trade balances, and that shipments from this time on represent loans by us to Europe, making us absolutely a creditor nation. There seems little likelihood, though, that the public will rush in pellmell to buy stocks after recent expeniences. The market will have to harden and advance materially before the outafter recent expeniences. The market will hav to harden and advance materially before the out side contingent is apt to play much of a figure i Wall-street activity again.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and sutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundrods of subtle maladies are floating around us ready to attack wherever there is a week point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette. is intended to leave OWEN SOUND every Monday, Thursday and Saturday on arrival of the Steamship Express leaving To-ronto at 11.20 a.m. for Fort William and Port Arthur direct (calling at Sault Ste. Marie, Mich., only), making close connection with the through trains of the Canadian Pacific Railway for Winnipeg, British Columbia and all points in the Northwest and Pacific Coast. W. C. VAN HORNE,

PEAT MOSS HOOF STUFFING of PEAT MOSS HOOF STUFFING of New York is an article that seems to be destined to have a place on the list of requisites for every well kept stable. The purpose of this preparation is to keep the hoof soft and pliable and to promote free growth of the horny shell. Owners and managers of large stables testify to the soothing as well as vitalizing qualities of the stuffing, and give it most excellent recommendation as a preventive of fever and other resultant diseased conditions of the foot. The stuffing has also the great advantage of being a clean has also the great advantage of being a clean article, ready for use, readily applied, doing away with the often troublesome operation of soaking, or the need of making a home-
