Holloway's Cintment.

ERYSIPELAS of eight years cured ! Copy of a Letter from Geo. Sinclair, Esq of Paris, Canada, dated the 18th Ju'y

To Professor Holloway, Sir I feel a pleasure and a pride in bearing witness to the wonderful benefit ! have derived by the use of your inestina ble Ointment and Pills. For eight years I suffered ungeasingly from attacks of crysip e as; large purple blotches came all over my body; in addition to the unpleasant feeling of nehing and burning, which affected me both night and day, rendering lite a misery to me, as well as to all around
-so severe was the ettack | | used several reputed remedies without deriving the least cessation to my mysery. At last I determined to try your Ointment and Pills; after taking them f r a few weeks, a visible improvement took place, and I feel considerably better :- in three months, by continuing with your medicines, I was com-pletely cured, and now enjoy the best of health. The ruth of this statement is well known here, hence there is no necessity for me to request secrecy,

I am, Sir, yours respectfully,

LCERS in the Leg Remarkable Cure! Copy of a Letter from Mr. Edward Tomkinsoc, of Cape Breton, Nova Sco ia, dated the 4th May, 1851,

To Preferent Holloway, Sir,—My sister, Miss Jane Tomkinson suffered for a great number of years from a bad leg a in which there were several deeply seated and old wounds, defying the skil of some of the most eminent of the medical faculty, a variety of remedies were also used ansuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured: A length, she had recourse to your Outment and pills, and af er using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection toubese facts being published, if you feet disposed to make them known.

I remain, Sir, your most oldt. Sert (Signed) EDWD, TOMKINSON

A BAD BREAST CURED WHEN AT DEATH'S DOOR!!
Copy of a Letter from Mr. Henry Malden
of Three Rivers, Canada West, dated

July 9th, 1854.

To Profession Holloway,
Sir,-My wife suffered most severely after the birth of our last child with a had breast There were several holes in it, one as large as a hand; all the devices and stratagems I tried would not heal them, but assumed an aspect, more frightful than before, and horrible to behold. As a last resource I trad your ointment and pills, which she persevered with for seven weeks at the voiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure effect

I am, Sir year-truly. (Signed) 4 HENRY MALDEN.

such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together massich asfiliater as to fisure the best results. This system of composition for medicines has been found in the Cherry Fectoral and Pills both, to produce a more efficient renedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or loss of acrimonious and injurious qualifies; by this, each individual virtue only that 2s desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Fills a surer, more powerful atticle to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, 2nd as he could not proposition. I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, however would be taken if their composition was known!

Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open the sall men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicino before its effects were known. Many channel Physicians have declared the same thing of my Pills, and even more considerably, and are willing to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by cornecting wherever they exist such derangements as are the fifst origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
