The Weekly Monitor.

WEDNESDAY, NOV. 21st, 1883.

— That many a good ship is sent to the bottom for the sake of the insurance placed upon her and on a fictitious cargo, is a well-known fact, but at the same time the offender is seldom apprehended. Occasionally one is brought to justice, but the offence is one difficult to discover, and those who are disposed to reap unholy gains in this way, have exceptionally good opportunities. The worst features of this crime is that in very many cases the life of human beings is not allowed to stand in the way. In view of these facts, it is gratifying to find that the matter is receiving attention in a powerful quarter, as witness the following taken from the London despatches of the 15th inst.:

"Some very significant utterances were made last evening by Rt. Hon. Joseph Chamberlain, President of the Board of Trade, in the course of a speech at a banquet. "Loss of life at sea," he said, "had recently increased to a terrible extent and could have been prevented in a majority of instances if the law had been made sufficiently stringent or even if the existing laws had been vigorously enforced." He appealed all respectable ship owners to assist in the suppression of the infamous system of deliberate wreckage for the sake of the insurance money, which had grown to proportions of a frightful crime and a national disgrace. He announced that the Government intended to introduce and strenuously urge the passage of certain amendments to the existing laws, governing marine insurance with a view of making future wrecking of ships as unprofitable as it was infamous."

Mr. Chamberlain has been led to undertake these reforms by a study of wreck statistics. The number of British steamers lost in 1883 is alarmingly in excess of 1882. Too many are undoubtedly planned in cold blood by shipowners for the sake of pocketing the profits of over insurance. Others again are due to careless construction and the use of cheap material. As long as shippers have no interest in saving ships, so long, argues Mr. Chamberlain, will wrecks continue to increase. Statistics show that great steamship companies like these in the Atlantic service, and others which do not insure their vessels or insure below value, lose least by wrecks. The proposed bill will probably forbid shippers insuring in excess of value by means of what are called "honor policies," and, in that event, false declarations will absolve underwriters from all responsibility.

The Attendance at Our Schools.

Since the commencement of the present term, the attendance in both the Primary and the Advanced department has been unusually large—so much so in the latter, that the accommodations in regard to seats have proved insufficient. The principal thus far, after having disposed of a limited amount of work each day, has been obliged to dismiss a certain number. Under such circumstances a teacher must find it very inconvenient, not only in regard to the daily changes in the location of pupils in general, and the mixed condition of affairs, but a difficulty in awakening and retaining an interest with those who are not provided for physically in the school room.

A meeting of the ratepayers of the section will take place on Monday evening, 26th inst., as noticed in our last, when we hope the matter will be taken into consideration, and immediate steps be taken to provide ample accommodations for the pupils who are in attendance.

We may briefly state that the additional department to the school would cost the section but a trifling amount, as the chief and almost the only expense would be the fitting up of a room, as each department of a school receives $12.50 grant per term; the assistant teacher would also receive full pay, instead of two-thirds as now; and the section could estimate on, at least, $30 per term directly from outside scholars, and about $1 per head indirectly from the County Grant for the outside attendance. Thus it will be seen the cost of the third department would be small, while the advantage would be great. A full attendance should be present at the meeting on Monday night, that a full discussion may be had.

— At a recent meeting of the St. John Board of Trade a motion was carried to memoralize the Dominion Government to provide a daily mail service between St. John, Digby and Annapolis from the 1st of April to the 1st of December, and a tri-weekly service for the balance of the year. We hope the prayer of the memoralists may be granted, for additional service is urgently needed and would be hailed with great pleasure by every business man in these Western counties.

— We hope our Government will see its way clear to reduce the letter postage from three to two cents at its next session. The receipts of the Washington U.S. post office have been $5000 greater last month than October a year ago. Judging by this, our republican neighbors will not lose much by the reform, and we cannot see why it should not work equally well in the Dominion.

THE PRETTIEST GIRL IN NOVA SCOTIA.—The marriage of Miss Letitia Spongle, of Liverpool, said to be the prettiest girl in Nova Scotia, to A. W. Perot, a Bermuda millionaire, will shortly take place.—*News.*

If Miss Spongale is the prettiest girl in Nova Scotia, Mrs. Langtry, the Jersey Lily, would stand no chance whatever in a comparison of beauty.

THE NICTAUX AND ATLANTIC RAILWAY.—Work on the line is proceeding briskly forward. A large number of claims have been paid. Numbers of people in and around Middleton and Nictaux have been made happy by the receipt of money which they had almost given up hopes of ever receiving. The circulation of this amount of money in the eastern part of the County, together with what will accrue to laborers and contractors on the road, will go far to offset the somewhat depressed state of trade proceeding from the short crop of the past season.

— Letters patent of incorporation have been issued to the Dominion Combination Sleeping and Parlor Car Company of Halifax, with a capital of $10,000, for the purpose of dealing in patents for Combination Cars.

—Scandal will rub out like dirt when it is dry.

Bear River.

SHIPPING DISASTERS.—The shipping of this port has suffered during the late gales. On the night of the 7th inst., the schr. Lorne, Chute master, and Wm. Reed, Esq., owner, went on shore near Digby light, and became a total wreck. No insurance on vessel or cargo. Cargo was also owned by Mr. Reed. But although he has lost heavily, yet it is understood that Mr. R. with his usual pluck, has decided to build another immediately to replace her.

To-day the wires flash us the news that the Brigt. Addie Benson is wrecked at Cow Bay. The Addie was owned by J. H. Benson and others of this place, was a very fine brigt., and is now advertised in your paper to load at Annapolis for Demerara, about the 25th inst.

— Bear River has organized a Brass Band, and has bright prospects for a Pulp Mill.

Paradise Items.

THEFT.—During the storm of Friday night, the 9th inst., some ill designing hand, after raising the pantry window, stole from Avard Longley, Esq., a large cheese. This cheese was made at the celebrated Paradise cheese factory, and tempting from its quality, yet there is no excuse for the theft. We hope justice will pursue the offender.

—A. Longley, Esq., of Paradise, who has been severely afflicted in the almost total loss of his sight, went a few days since to Boston, and consulted Dr. Derby, a very celebrated oculist of that city. We are glad to learn that a successful operation has been performed, and hopes are entertained that his sight will be fully and permanently restored.

— The ladies of Paradise had their courage tested on the 13th inst., by the high wind and cold of that day, yet equal to the occasion, they held their social. Proceeds $21.19. Thanking their friends for the patronage given, they take pleasure in informing them that they anticipate having at no distant day a meat supper, and shall be glad to welcome all.

Local and Other Matter.

—War is said to be inevitable between France and China.

—Sch. A. M. Holt, Graves, cld. yesterday for St. John.

—Mr. Thomas Kelly of this town, has assigned for the benefit of his creditors, Albert Morse, Esq., is assignee.

— The brilliant December number of Harper's Magazine is to hand. Further notice in our next.

— Total value of exports from the port of Annapolis Royal last week was $7,139.

—Rev. R. D Ross of Wolfville, will hold service in the Presbyterian Church of this town on Saturday next.

RAPID GROWTH.—156 new buildings have been erected at Spring Hill Mines during the present year.

— The Champion Ear Protectors, which met with such universal favor last season, may be again had at J. W. Beckwith's. Call and get a pair. 1i.

— Montreal is going to have another ice carnival during the coming winter. A committee of arrangements has already been formed, and preparations for the event are under way.

— Mr. Shippy Spurr, of Melvern Square sold a fine looking dark bay Live Oak mare to Mr. George J. Hoyt, of Weymouth, last week.

— A Quadrille Assembly will be held in Victoria Hall on Wednesday evening, 28th inst., under the usual management. All are invited. Dancing to commence at sharp 8.

— Thanks are due to Messrs. James J. Foster of Manitoba, Silas Morse of Boston, and Henry Hoyt of New York, for weekly fyles of papers from their respective localities.

—There are 120 students—90 females and 21 males—in attendance at the Provincial Normal School this term which opened on the 14th inst. Only two are from this County, viz:—Isaac Crommie and Annie E. Anderson.

PERSONAL.—Hon. Judge Johnstone, of Dartmouth, mentioned in a late issue as having gone to the States to consult oculists in reference to failing eyesight has had a successful operation performed at the Bellevue Hospital, New York.

— Maine forests suffered to the extent of hundreds of thousands of dollars by the blowing down of trees during the gale of the early part of last week. Acres upon acres of valuable timber growth have been laid waste.

THE ORIGIN OF FIRES.—An exchange after detailing the circumstances of a recent fire, remarked that it was probably caused by a $400 insurance policy coming in contact with a $100 house. A great many conflagrations originate in this way.

— The advertisement in regard to the N. S. S. Co., on our outside is incorrect, and will be changed in our next issue. On Tuesday last a new arrangement came into force, the fine steamer Cleopatra leaves Boston for Yarmouth and Annapolis every Tuesday at noon, and returning will leave Annapolis for Boston via Digby every Saturday, p. m.

— The initial number of *The Biographical Magazine*, an illustrated monthly, is to hand from the Pictorial Associated Press, P. O. Box, 3295, New York, U. S. The publication contains a large number of consisely written and interesting biographies of leading people of both sexes, each illustrated with a portrait of the subject. It should recommend itself everywhere. Terms only $1.00 per year.

OBITUARY.—It is with deep regret we learn of the death of the wife of our esteemed former townsman, Mr. James Hillis, now of Halifax. Mrs. Hillis was always in the enjoyment of fairly good health, but some few weeks ago she was stricken with slow fever, which on Monday afternoon last terminated fatally. During the time of their residence here, both Mr. and Mrs. Hillis made a host of friends, and the sad news that we chronicle will be received with feelings of earnest regret for the loss of one with whom were associated so many pleasant memories, and with the liveliest sympathy for those who are called upon to mourn the loss of wife and mother. The deceased lady was the mother of seven children of whom five are living.

— The following gentlemen constitute the committee chosen by ticket holders, to superintend the distribution of cash in the Exhibition of 1882 Enterprise:

John Daley, Digby.
Charles Dillmars, Clementsport.
Leslie Hardwick, Annapolis.
George Whitman, Round Hill.
John P. Murdoch, Bridgetown.
A. S. Ruggles, Annapolis.
W. E. Roscoe, Kentville.
A. C. VanBuskirk, Kingston.
E. S. Crawley, Wolfville.
H. W. Weatherspoon, Granville Ferry.

This enterprise is instituted, in order to liquidate the debt of the District No. 2 Exhibition, 1882, which is about $625. We are informed that the distribution will take place at an early date. Only a few tickets yet remain to be disposed of. This scheme seems to be about the only feasible one to pay off the debt, and should be patronized by all agriculturists, and friends of agriculture in the county.

— Halifax imported raw sugar to the value of over $225,000 during October.

— Parliament will be summoned for the transaction of business on Thursday, the 17th of January.

— The Hudon Cotton Mill will be opened next month with only a few operatives.

— A hotel servant in Winnipeg has been proved to be the heir of $100,000 left him by a distant relative.

— On Saturday and Sunday last we had quite fair sleighing on our streets. This is a few days earlier than last year, when the first sleighing was had on the 21st.

— An Order-in-Council has been passed placing recovered rubber, and rubber substitute on the free list.

PARRSBORO'S SENSATION.—Quite a sensation has been caused by a man named McCabe laying a complaint before Magistrates Seamen and McGilvary of Parrsboro, against one of the stipendiary magistrates for a criminal assault on McCabe's wife. McCabe is to prosecute the matter to the fullest degree.

CANADA'S MILITIA.—With the view of maintaining the active militia in a state of efficiency, lieut-colonels who attain the age of 50 years, majors the age of 55, captains the age of 50, and lieut's the age of 45 may be placed on the retired list. The regulation will apply also to regimental staff officers according to their relative rank.

THE ST. JOHN BRIDGE.—About seventy men are at work on the St. John railway bridge and the extension of the line into Portland. In the spring 300 men will be employed to push the work ahead, and the engineer is confident of having the bridge ready for traffic within the specified time, Aug. 15, 1884.

—Charlie Ross, the boy who was so mysteriously abducted from New York some years ago, and about whom there was so much excitement, is now said to have been drowned in Newark, soon after his abduction. A man giving his name as Charles Clark, is the authority for this information.

— The man Mitchell who was arrested on a charge of attempting the double crime of murder and rape of Mrs. McCann of Petticodiac, and who was identified as the man by Mrs. McCann herself at the preliminary investigation, is said to be able to fully prove an alibi. He has, however, been committed for trial.

UNFORTUNATE.—The schr. Adah, Foster, master, has been unfortunate lately. In going down the river last week, owing to the high wind she went ashore on the bank once or twice and finally struck on the rocks in the river near the Granville side above the lower narrows, and inflicted some slight damage to the hull, but just how much, we could not ascertain. She was, however, got off without much difficulty and was met by an inbound vessel on her way up the basin. She reported O. K.

—The Baptist Sunday School of Clarence, held its anniversary concert on Thursday evening, Nov. 15th. A large number of children, and many parents were present. It was apparent to all that the school was well conducted, and full of interest. Much praise is due to the practical superintendent, S. N. Jackson, Esq., and his faithful staff of teachers. Miss Anna Marshall presided at the organ with grace and precision—and to her belongs the credit of training the children to sing. The music furnished was creditable to all. The exercises were well arranged, and the recitations admirable—the underlaying thought in all was that of the motto on the wall "Work for the Lord." Such exercises must be beneficial and very stimulating. They ought to be more frequently engaged in.—*Com.*

SAD OCCURRENCE.—Mr. Edward Whitman, son of Mrs. E. F. Whitman, a widow, of Lawrencetown, was found lying dead in his barn on Monday night last. He was a strong, well-built and more than ordinarily healthy young man, and an hour or two before the sad event was discovered, came into the house, having been out trimming a grape vine and told his mother he would go to the barn and cut some hay for his horse. He did not come back at tea time, but his mother thought nothing of this, took her own tea, and went out to make a call on a neighbor, but returned an hour or so afterwards. On finding that her son had not come in, she immediately went up to the barn, fearing something was wrong, and there she met with the heart-rending sight of her son, lying on his back dead, in the hay near the hay cutter. Dr. Primrose was immediately summoned, but to no purpose. Life was pronounced extinct for some time. It is supposed the exercise of working the hay cutter, caused the rupture of a blood vessel in some way. The deceased was a young man well esteemed by all who knew him, and his sudden death has excited the most universal sympathy for the mother in her sad bereavement.

A RASH SPECULATION.—The Sonora Silver Mining Company has collapsed, and as, unfortunately, a large amount of the stock was held in this and King's Counties—over $150,000 in all, it is said—the collapse is of considerable moment to many in this valley. Several parties in this town are said to be losers. These far away speculations—nine times out of ten—prove unprofitable. How much better would it have been, had this large sum of money been placed in some one of the manufacturing enterprises our valley is so well fitted for. The money even if lost then to the direct investors, could not fail to do the country good somewhere: now where is it? We are not sufficiently well acquainted with the facts at present to have much to say in reference to the matter; but when further developements come up, will refer to it again.

A Wolfville correspondent of the St. John *Telegraph* writes: "The collapse of the Sonora Silver Mining Company created quite a sensation in this place and the neighboring county. The representations of agents caused the stock to sell rapidly, and many invested their surplus cash, the hard earnings of years, while several farmers even mortgaged their farms to raise money to invest."

The Halifax *Recorder* refers to it as follows: We note that a large portion of the stock is said to have been sold by Professor Tufts of Wolfville, who claims to be one of the heaviest losers by the collapse. It appears to have been an old mine which new parties got hold of and re-worked. One of the directors of the enterprise was Mr. Tufts, formerly a Baptist minister in Iowa, and a brother of Prof. Tufts. Among others said to be interested were Dr. Sawyer, Dr. Schurman, Dr. Welton, J. W. Bigelow, Prof. Coldwell, F. H. Eaton and Dr. Hall (of the Normal school) Miss Graves, (Wolfville), Dr. Rand, Dr. Cogswell, A. J. Denton, W. P. Shaffner, E. M. Chesley, (Yarmouth), and Rev. Dr. Armstrong."

Did She Die?

"No; she lingered and suffered along,
"pining away all the time for years, the
"doctors doing her no good; and at last
"was cured by this Hop Bitters the papers
"say so much about. Indeed! indeed!
"how thankful we should be for that me-
"dicine.

☞No family in this broad land should undertake to keep house without *Johnson's Anodyne Liniment*, many have tried to but failed. It is worth more to a family than a whole medicine chest.

— A nugget of gold, weighing 20 ozs. valued at $360, has been taken out of River Gilbert at Beauce, Quebec.

— The storm of Monday last was most disastrous to shipping over a large area of this Continent. From all directions have come in news of wrecks and in many instances, loss of life. Our Bear River correspondent gives notice of the loss of two vessels. Yarmouth people have also suffered. The A. Fred Archer was wrecked in sight of land. Owned by Mr. George Crosby. Crew saved. Along the Bay Shore line of this County we have not heard of any wrecks, but the tides are said to have been the highest ever known, and during Monday the fierce northeast gale caused the surf to rise so high as to destroy numbers of fish houses at Hampton, St. Croix and Young's and Phinney's Coves. The very highest tide was on Friday last, but the wind was in another quarter and moderate. We are informed that Capt. Weaver, of the schr. ——— of Port George sent a telegram home stating that he made port at Booth's bay during Monday's gale. As he was running into the harbor he noticed two vessels bottom up some distance out at sea.

Sporting Notes.

New York, Nov. 16.—The best double team record at 2.10¾ made by H. B. Winship and mate at Providence recently was lowered 2½ seconds at Prospect Park yesterday by Keenan's Frank and mate of Boston, who covered the track in 2.08½. Frank never lost his feet once in the heat, which is a marvellous performance.

An exchange says: "It is a significant fact that the king and queen of the trotting turf, Jay-Eye-See and Maud S., are bred just alike. Their sires are Hambletonians, their dams by Pilot, Jr., and their grand dams by thoroughbred Lexington. Does this show anything?' We think it shows that the blood of the thoroughbred is patent to make a fast and lasting trotter. This fact is exemplified in many other fast trotters beside Maud S. and Jay-Eye-See.

Kindly Words.

"The Bridgetown, N. S., MONITOR is far ahead of its Nova Scotia contemporaries as a newspaper, and as such deserves praise." — *Maple Leaf, Albert, Albert Co. N. B.*

The *Maple Leaf* is one of our most valued country exchanges, and the ability displayed in its management, makes its encouraging reference to ourselves the more appreciated.

BURGLARY.—The store of Mr. J. W. Beckwith was broken open last evening, and a considerable quantity of ready-made clothing, etc., extracted. Entrance was effected by boring out the panel of the front door. The brace and bit was obtained by breaking out a window in Palfrey's carriage shop, reaching in and taking them off a nail near the window. The alarm was given by a young man returning from a party at 3, a.m., but the rascals had flown. The burglary was committed between 12, and 3, as we did not close up our office located opposite until after midnight last evening, and nothing wrong was then suspected. Everything points to the fact that the work was done by persons who had made themselves well acquainted with the premises. That they were old hands it is evident, by the coolness they displayed by trying to suit themselves as to the fit of overcoats, and the right number of shoes.

And all Kinds of Amunition.

B. STARRATT.

Paradise, Oct. 20th, 1883.

CAUTION.

I HEREBY caution all persons against negotiating or purchasing two promissory Notes, given by me, on Monday Oct. 29, viz:—One payable one month from that date, and the other payable in ten months from date, for the sum of twenty-four dollars and twenty-five cents each, as I have received no value from said notes, and shall resist payment. ENOCH WOODWORTH.

Clarence, 31st Oct., '83. 5i36

COAL! COAL!

Schooner Atwood.

Expected here in a few days, with part cargo of Coals. Parties wanting same, please leave their orders with the undersigned at once, as only enough to fill them will be brought here. Vessel sails from this place to Boston. Has most of her cargo engaged, will take a small lot of freight if applied for immediately, otherwise fills up with wood. For further information, apply to
