the top of the bottle, and when you seal make giein ve't. Johnnie. Come here. sure that the top of the bottle is well covered. BRIDGETOWN. Johnnie obeyed, and, much to his aston that not a pin hole is left for microbes to ishment and disgust, was subjected to a enter. Where you expect to use large vigorous shaking from the strong arms of the quantities at once, quart bottles may be used parent, at the conclusion of which he was but, as a rule, pint bottles are the safest. laid down with the remark : Keep it in a dark, cool place. Some use less " There, my laddie, that'll dae. It should sugar, as little as two pounds, and some more. be gey weel mixed up noo, I'm thinkin', but It is purely a matter of taste. don't let me forget again." The easiest way to seal is to melt your Johnnie promised. - Pearson's Weekly. sealing wax in a tin cup and dip the heads

of the bottles into it. - Montreal Witness.

Only Marked It Out

A lovelorn youth had quarreled with his -Plants from the open ground and not in ladvlove, and with bitter, angry words they pots.which you wish to save must be taken parted, and he decided that life was no longer up and potted without delay. We have had one slight frost and no one can tell when the worth living. Abruptly turning into a barber's, he sat in a vacant chair and calmly renext will come. Of course any plants which quested the barber to cut his threat are out when the frost comes can be saved

The barber acquiesced, and, tucking the by covering them up for the night, but this cloth round his neck, fixed the head rest so is not the wisest plan. Should you not be prepared with covering, a good way of saving that the customer's chin was well elevated. Then drawing a stout pin from the corner of plants from early or late frosts is to water his waistcoat and holding it firmly between his finger and thumb, he drow the pin quickly the plants overhead, after the sun has gone down. Give them a good spraying ; do not across the neck of the man. half do it. Let the ground be well dampened

Immediately, with a scream worthy of a all round where the plants are, and the frost red Indian, the despairing one leaped from will not injure the plants. That is, a sligh the chair, shouting : frost. If you are determined to save some

"Surely, surely you have not done it ?" of the geraniums which have been growing "Oh, no, sir !" said the barber. "Sit outside all summer lift them at once and have down again, sir. I've only marked it out !" them potted. When you lift them the first thing for you to do is to cut them down to

-"Can you build a bridge over this washwithin six inches of the ground, or there out strong enough to take a train over," asked the conductor, looking at his watch, about. Cut away all the large leaves and the longest of the roots ; this will enable the "in two hours ?" plant to have a storage of sap, and little de

"I can, sir," replied the section boss. mand on the same before the new roots take " Then go ahead." hold upon the soil in the pot. Then the buds

will open out, and new branches will be sent It was then two o'clock. At four the conductor went down to inspect the work. out, and a new growth all along the branches "How's this?" he demanded. "Didn't giving you a plant which will flower in early you say you could build a bridge in two hours spring; but if you try to pot the plants as that I could run this train over ?" they generally are done by cottagers you can-

not be successful. I have seen people plant "No, sir," responded the section boss. "I said I could build a bridge you could run large geraniums without cutting down, and the train over in two hours. It ain't none almost every one of them died soon after, of my business what you want to run so the cause being that the leaves being left on thundering slow for, but I'm making the the plants, drew the sap up from the roots. leaving no nourishment for the roots to live bridge all right. It'll be done by to morrow mornin'."

on, the roots having no communication with the soil, die, and this rot goes on from the Neighbors. roots upward, the top of the plants dying Mrs. Blink-Mrs. Klink ! Mrs. Klink ! last. But when cut down geraniums will do splendidly in the way shown above. Do not Your little boy is in our yard stoning our put into large pots. Put the plants thus chickens ! Mrs. Klink-Horrors ! He'll get his feet lifted into the smallest pots into which you can get the roots without cramping them up wet in your big, ugly, damp grass. I don't see why you can't keep your lawn mowed, Mrs. Blink.

An eminent physician has discovered s -"What is Willie crying about ?" asked new disease : or rather, a new name for an Mrs. B, of Bridget, who had the care old affection, which he calls "house nerves." of the little boy for the afternoon. "Shure, ma'am, he wanted to go across the street to Tommy Brown's ?" The disease is confined to those who rema indoors, in the house, office or store, and is "Well, why didn't you let him go?" due largely to an absence of outdoor air and "They were havin' charades, he said, exercise, to the terrible wear and tear of modern life, and also to a lack of proper nerve
