## Whotesate Department Discontinued.

The best plan for accumulating a stock of stamps is by exchanging, because the most pructicule and chrupect. We Instance the case of the late Henry Gremmel who bullt up his business by impoltations made prinerpally by exchanging. To a deater who is unacquainted with the exceedngly ricin opportumites for buying stamps at Low pirfeds in a country like Peru (where there is no oppusituon or consequence) by our metnous, the iaEsulis Will de surpirising. For example, we pald 31.25 (i) sti.) for luw Peru pat up in wundes of lou, when, upon shasequent examination, we round to contain anout 100
 yellow, and the valance was well worth $\$ 20$ to any dealer. 'Ihis was exceptonal, wht the more ordmary varteties are generally well mixed in average lots.

Dealeas deshing ro enlarge their stocks at a minimum outlay, cunnet co bltter t.win nave aregular supplyto exchange with local deaters and those in other parts, bestdes tate question of wholesale and retall cas/e sales. As a desmable country Peru fills all requirinents, Luc...use or the great zurziy and beciuse these is aut an duadance on the market (except su.charged, or whin the remanues panerpally consisted), mote especially or late issued, as whll be seen by glancing barough the majority or pitce-hists. fintacrinurt, we a.c bunainy Peluvan stamps, and, with the issue or our cat.legue and a monihly pandatile journal, there will be a great dumand fo: them.

Ou: stamp business-on which we are not in the leist dependent-is reaching such large proportions that it is absolutely nec.s. sary ior us to discontinue wholesamin-occupying as it does the bulk of our sp are time for soit.ng, etc.-and to conilne our attention to retail and commission sales, whica are much less wrounle and so wetter serve the purpose of enlarging our collections.
Fur thas reason we have decided to offer our servaces for the purchase or Peruv.an st..mps in quantity, at 10 per cent. cominlss:on, to any persun who will place the necessay $y$ purchasins money with us, to the amount of not less than S60 (£12) annually. The common Peru we can buy at the rate of 60c. to $\equiv$ per poso; and the vetter ussortments-good mixtures of common \& scarce, including unpard, onlicial, old and new tssues and high values, in bundles as they come, unsorted-at 51 to S2 per luw, the scale reckoned by cost. After veing p:operly sorted and classifted, these inixtures can easily be disposed or for cush at several t.uts cost. This we can GUARANMEE jrom our actual experience.
