

**Does a College Education Pay?**

In the estimable book called "Who's Who in America," are the names of 11,551 persons who have obtained leadership or success in various ways. Of these 5,775 attended some institution of college rank, and 4,810 were graduates, and only 2,000 had no education. Hence it is found that

though there is only one college man for every one hundred of population, three-fourths of those who achieved success had the advantages of a college education. These figures offer a striking proof of the value of an education, and as time advances the keen competition in business makes it almost impossible for a man to succeed unless he is well informed.
