

minds of our Philadelphia brethren. But, even if a fairly acceptable arrangement could be effected, I cannot see that it would be wise for us to give up our present promising business. It would be most unwise, if we can plant our own literature on a firm financial basis, which is now well nigh demonstrated. It would be unworthy of our name as a Canadian Church to be dependent on the press and brains of our neighbors for the nutriment of our children. When we were much smaller and weaker than we are now, our own Colleges were set up, our own Church papers were started, and we declined to take the proffered gifts of excellent institutions to the south of us, if our young men would go there for their training; and most of our people much prefer to get the Ecclesiastical news from our own religious press. Tell me why it should be otherwise, with regard to the helps needed by our Sabbath Schools?

5. With Mr. Drysdale I heartily agree when he mourns over the burden borne by the convener of the S.S. Committee. Surely he will be relieved this year by the Church. But I do not think Mr. Drysdale's way of relief is fair to the convener, any more than it is honorable to the Church. Surely after the hard labor he has endured for the Church's interests, it would not be the grateful thing, now that victory is all but achieved, for the Church to turn round and say we thank you for showing us what distribution good S.S. literature is capable of, but we prefer to hand over the result with its profits, to our sister Church to the South. We hold that when a man shows, to use an expressive vulgarism, that he "can cut his own fodder," while tilling our field and giving us the best of the fruitage, the right thing—the only decent thing—is to say to him, go ahead, and we will help you to the utmost of our sympathy and support.—P. M. Morrison.

SAVED HER LIFE.

The Narrow Escape of a Fergus Merchant's Daughter.

Had Been Weak and Sickly From Infancy—Neither Doctor Nor Friends Thought She Would Survive—Dr. Williams' Pink Pills Saved Her Life—Advice to Parents.

From the Fergus News Record.

Mr. O. M. Post, fruit and confectionary dealer, St. Andrew street, Fergus, last week related to a representative of the News Record the sad story of the terrible suffering and sickness of his little daughter Elle, his only child, now a strong and healthy little maiden of ten years of age. At the time of the child's illness Mr. Post was a resident of Hamilton. His story is substantially as follows:—"My daughter had been very delicate from childhood until about three years ago, and the money it cost me for doctor bills made me poor as it was seldom she was without a doctor's care, and at times we have had as many as three doctors in attendance and hope of saving her despaired of. The doctors succeeded in keeping her alive, but she was gradually growing worse and we all thought she was going to die. Our regular physician had given up hope of saving her life and remarked that if it were only warm weather, (it was then winter) there might be a chance. But seven summers had passed since her birth and she had gradually become feebler, and my wife and I thought it was just a matter of time until the child would be called to a better home. About this time Dr. Williams' Pink Pills were prominently brought to our notice through a cure they wrought in a neighbor's child. I thought I would give them a trial and so informed the doctor, but he only laughed at the idea of them helping her. However I bought a box of the Pink Pills, and began giving them to her, half a pill at a time. After a short treatment there was such an improvement that neither her mother nor I could doubt that Dr. Williams' Pink Pills were helping her, and I decided to abandon the doctor's services altogether. The Pink Pill treatment was

continued and although the progress towards health and strength was necessarily slow, it was none the less certain, and it was continued until she is as well and strong as you see her to-day, and I am thankful to say she has had no occasion for medical treatment since. I am a strong believer in the efficacy of Dr. Williams' Pink Pills, for weak and delicate children, and I firmly believe it was this medicine that saved my child."

Dr. Williams' Pink Pills are an all round medicine and are quite as efficacious in the case of children as in adults. They restore to the blood its lacking constituents and make it rich, red and pure. In this way they strengthen the system and drive out disease. There are many cases like the above in which this wonderful medicine has restored health and strength after the best medical advice had failed. The Genuine Pink Pills are sold in boxes, the wrapper round which bears the full trade mark, "Dr. Williams' Pink Pills for Pale People." There are other pills colored pink, but they are base imitations offered only because they give the dealer a greater profit. They should always be refused.

PRESBYTERY OF KAMLOOPS.

The Presbytery met at Kamloops, on the 3rd inst., at 10 a.m., and was constituted with devotional exercises. There were present: Messrs. T. S. Glassford, moderator, Thos. Paton, Geo. A. Wilson, J. C. Stewart and T. Geo. MacLeod, ministers; and Messrs. D. McNair, D. H. Campbell and D. Matheson, elders; and Mr. A. G. Hutton, student.

Mr T. Geo. MacLeod was appointed Presbytery Clerk, and the hearty thanks of the Presbytery were tendered to Mr. Wilson for the manner in which he had discharged the duties of that office.

A request from Mr. A. McKinnon, for certification to college, was read. As Mr. McKinnon failed to give the year's continuous service agreed upon at the time of his appointment to a mission field within the bounds, the Presbytery declined to grant the certificate applied for.

The following were appointed commissioners to the General Assembly, which meets in Winnipeg in June: Messrs. Geo. Murray and Thos. Paton, ministers; and Messrs. D. McNair and D. Matheson, representative elders.

Permission was given the congregation of Rossland to purchase a suitable church site now being offered, and the selection made was approved. Mr. Paton was appointed moderator of Rossland session during the vacancy and given leave to moderate in a call.

The site selected by the congregation of Salmon Arm was approved, and the Clerk instructed to write to Mr. Fraser thanking him for his gift of that site.

Attention having been called to the illness of Rev. Geo. Murray, of Nicola and his family, a minute was adopted expressive of the sympathy of the Presbytery.

The claims upon the Home Mission Fund for the past six months, were considered, and grants passed aggregating \$2,225.90. A number of special grants were also recommended.

The condition of the various fields was then considered and the required grants asked for the coming year.

A considerable number of the members of Kamloops congregation were present on Wednesday evening, when the reports on Young Peoples Societies and Sabbath Schools were received and discussed.

Practical forms of work for the Societies were pointed out, and the use of the Shorter Catechism in all our Sabbath Schools and homes strongly advocated.

Requests were received from the Vernon and Spallumcheen fields, asking to be placed on the list of Augmented congregations. These requests were recommended to the General Assembly's Augmentation Committee, and the required grants asked. Messrs. Geo. A. Wilson and T. Geo. MacLeod then placed their resignations in the hands of the Presbytery. These were accepted; the former, to take effect at the end of the present month; the latter, whenever the status of the field is changed. Leave was also given each of these con-

FREE! We direct special attention to the following remarkable statements
A Deaf Man's Slate.

I was almost totally deaf 25 years; could not hear a steam whistle; had to carry a slate so that people could "talk" to me. In one week after commencing Aerial Medication, surprised my friends by discarding the slate. I steadily improved, and now can hear the slightest noise and can understand conversation and public speaking perfectly.

EDW. E. WILLIAMS, Lead, S. D.

Five years ago I had measles which caused two gatherings, one in the frontal cavity and one in my ears, which was the beginning of catarrh. Since have twice had lagrippe, which aggravated the matter had dullness and pain in my head the result of closing my throat was annoying to myself and neighbors, and the least singing would produce hoarseness. Since using Aerial Medication seldom have trouble with head or throat, can sing all I wish, and preach twice every Sunday without inconvenience. I believe this treatment is all that is claimed for it and do not hesitate to recommend it.

(Rev. C. B. Szalay, Kirkland, Wash.)

I had fetid catarrh in its worst form, the discharge from my head was profuse and very offensive, health very much impaired; a bad cough, loss of strength and weight caused my family and friends to believe I had consumption. Used Aerial Medication in 1887. It cured me, and for nine years I have been entirely free from Catarrh, and my health is fully restored.

A. G. FREEMAN, Parker's Lake, Ky.

Medicine for 3 Months' Treatment Free.

To introduce this treatment and prove beyond doubt that Aerial Medication will cure Deafness, Catarrh, Throat and Lung Diseases, I will, for a short time, send medicines for three months' treatment free. Address, J. H. Moore, M.D., Dept. H. 6., Cincinnati, O.

greg "ams to moderate in a call, should the desired change be effected, and Messrs. J. C. Stewart and T. Geo. MacLeod, were appointed moderators, respectively, of the Spallumcheen and Vernon sessions, during vacancy.

The General Assembly was overtured to authorize a division of the Presbytery of Kamloops, and the erection of a new Presbytery in the territory lying along the line of the projected railway through the Crow's Nest Pass, the same to be known as the Presbytery of Kootenay.

Presbytery adjourned to meet at End. rby. on the first Tuesday of Sept at 10.30 a.m., and the moderator pronounced the benediction—T. Geo. MacLeod, Pres. Clerk.

Rich, Red Blood

Is absolutely essential to health. It is impossible to get it from so-called "nerve tonics" and opiate compounds. They have temporary, sleeping effects, but do not CURE. To have pure blood and good health, take Hood's Sarsaparilla, which has first, last, and all the time, been advertised as just what it is—the best medicine for the blood ever produced. In fact.

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. \$1. Hood's Pills assist Digestion, cure Constipation. 25 cents.
