

THE CANADIAN Brown & Carver Cutter . .

BEST IN
THE WORLD.

IN simplicity of mechanism, accuracy of work, speed, ease of handling, and elegance of design the Canadian Brown & Carver cutter is unequalled.

The compact arrangement of parts, solidity of frame, noiselessness of operation, and the uniformly positive stroke of knife, determined by a crank motion, are its distinguishing features.

Interlocking clamp and back gauge allow work to be cut to one-half inch.

Removable plate under clamp for fine work.

Clamp is balanced to run entire distance up or down with one spin of wheel.

Grooved table keeps sheets from wedging under gauge. Smooth table to order.

Screw and wheel divided to sixteenths for moving back gauge.

Simple and quick adjustment of knife by a turn of the connecting rods outside.

Back gauge in two parts on stock machines ; in three parts to order.

Cut gears, friction clutch, steel shafts, brass rule, case-hardened bolts.

All machines subjected to a running test before leaving the works, and guaranteed on every kind of work, from tar-board to the finest lithograph or label work.

SPECIFICATIONS.

SIZE OF MACHINE.	APPROXIMATE SHIPPING WEIGHTS.	PULLEY DIA.	BELT WIDTH.	SPEED OF PULLEYS.	FLOOR SPACE.		PRICE OF KNIVES.
