Mean.....	85	80 $\frac{1}{2}$	76	81 $\frac{1}{2}$	80	76	82 $\frac{1}{2}$	79	76	85 $\frac{1}{2}$	79	72 $\frac{1}{2}$	87	82	77	83 $\frac{1}{2}$	80	76 $\frac{1}{2}$	87	81	75	86	79	73	85 $\frac{1}{2}$	81	76 $\frac{1}{2}$	

The mortality in the West India command appears to be about six times higher than in the United Kingdom, though the extent of sickness, shown by the admissions into hospital, has only been twice as great. Previous to the year 1814 the average mortality amounted to 138 per 1000; since that period the salubrity has much improved, particularly in Barbadoes, Trinidad and Antigua.

The following table exhibits the several diseases by which the mortality was produced :
