About a year ago this fellow succeeding in passing off. \$30,000 in forged notes on the Bank of Pratisville, \$20,000 on the Bank of Catskil, \$3,000 on the Bank of Kingston, \$12,000 on the Delaware Bank, beside \$12,000 in notes on several mercantile firms, making in all upward of \$80,000. Shortly after forging the note on the Prattsville Bank, Scudder fled to Ohio, where he was arrested by a sheriff, who instantly started off with the prisoner to deliver him up to the authorities of Prattsville. The accused is the same fellow for whom the police of this and the neighbouring cities so scoured this section of the country some time ago .- Tribune.

QUICK WORK .- A message was received at New York, on Saturday, 7th instra over the telegraphic wires, from Montreal, which was delivered, answered. and receipt acknowledged, in the short space of

THE TELEGRAPHIC WIRES .- The repairer of the line, between Boston and Worcester, discovered a day or two since that the wire had been tampered of the same general appearance had been fixed so that it could be looped into the place, which would instantly destroy the communication, and at the same time evade discovery from the repairer. When the end required was effected, the wire was replaced.

PRINCE EDWARD ISLAND .-- A petition praying that Her Majesty would be graciously pleased to continue Sir Henry V. Huntley for some time longer in the Government of the Island, having been sent home—a counter petition was prepared on the 27th ult., praying that Her Majesty would not sanction the longer continuance of Sir H. V. Huntley in the government. The last petition has been entrusted to the speaker of Assembly, the Hon. Edward Palmer, and Andrew Duncan, Esq., who are to proceed to London to present it, and a subscription amounting to £400 has been made to defray their expenses.

—Halifax Times.

His Excellency's New Baunswick Tour.-His Excellency the Lieutenant Covernor met with a cordial reception from the people of New Bruns wick during his tour of military inspection in that Province. The inhabitants of Fredericton, at a general meeting, presented him with an address flattering alike to his station both of Lightenant Governor and Commander in Chief .- Halifax Times.

GREAT WESTERS RAILROAD .- It is with very great pleasure we refer our readers to an advertise ment in another column, in which the Great Wes tern Railroad Company advertise for Tempens for the Grading and Mesonry of that part of the route lying between London and Windsor, and also for the branch to Port Sarnia. This is a very gratifying state of things, that notwithstanding all the interested efforts made to injure the prospects of this Company, it is rapidly advancing in all the preliminaries of this important work. We have to congratulate the Inhabitants of the Province on the near commencement of the work. Much activity prevails in preparing the remaining portions of the roste for contract .- Hamilton Gozette.

BANK OF BRIT. N. AMERICA.-We are glad to observe that the erection of a building for the accommodation of the Hamilton Branch of the Bank of British North America has been commenced in this city. The site selected is a very favourable one, on the south side of King Street, at the widest end of the Gore.

The architect has also to superintend the erection of similar buildings at Bytown, Quebec, and at St. Johns, N. B., which he will put in as great a state of forwardness as possible before the winter. When finished, this building will be unsurpassed in the city, and will certainly be one of its greatest ornaments .-

Hamilton Gazette. QUEENSTON, 2ND AUGUST .- Our village was, vesterday, the scene of one of the most destructive fires it has ever witnessed. About half-past 1, P. M., a house belonging to Mr. C. Wadsworth, and occupied by his son, D. Wadsworth, accidentally took fire, and before the flames could be subdued, the fire communicated to an adjoining building, which was unoccupied, and from thence to the building occupied by Mr. Stayner as a dwelling and Post Office. By the aid of one of Armstrong's hand engines, one other dwelling was saved from destruction, as were also Mr. D. Wadsworth's barn, and that of Mr. Stayner. Loss, as near as can be ascertained, is as follows :- Mr. Wadsworth's frame building, three chests carpenter's tools and some finished cabinet work, total \$1000. Entirely uninsured. Mr. Francis Doric's one frame building, lors about \$1,200, no insurance. Mr. Wadsworth's in clothing, furniture, &c., about \$200. Mr. Stayner, Postmaster, states that he knows of nothing at present, the loss of which can exceed a few dollars the Post Office papers and everything belonging to the department were saved. It is but just to state that every one present did all in their power to save the property, and but for the untiring exertions of those in charge of the hand engine, the

element .- Toronto Globe.

the last four and twenty hours, 32. DUKEDOM OF TARENTUM, with large revenue attached thereto.—This dignity, originally created by Napoleon in favour of his brave Marshal Mc Donald, has unexpectedly descended upon a gentleman of that name and family resident at Montreal. Lord Elgin had the pleasure of announcing to him his . high elevation, and also, it is said, of advancing to the new Duke the funds to enable him to make a suitable entry upon his estates-situated in Italy. P.S .- Unfortunately for Mr. McDenald of Mon-

treal, the report turns out to be a hoax. TEMPERANCE .- On Wednesday, the 11th instant, the Juvenile Tectotalers held their annual celebration, [at Montreal] on the grounds fronting McGill

College.
The singing of the Children was very good, and the address excellent, but nothing could exceed the enthusiastic zeal with which the children received His Excellency the Governor General; indeed it was almost impossible to obtain silence, during the reading of the address. His Excellency's reply was replete with the most exalted sentiments, impressing on the minds of the children their duty to eschew the evil of intemperance, and not that only, but all other evils, in order that they might become good men and women. The irrepressible feeling of the children obliged His Excellency to speak very loud, so that all might hear, and this he did with such good effect, that we have no doubt but all present heard his highly salutary counsels. His Excellency was attended by one of his Aides-de-Camp, and was received at the entrance to the grounds by the Com-

mittee of the Adult Society.
We are quite certain the children and their friends met on the occasion will never forget the anniversary of 1847 .- Montreal Gazette.

THE ARMY.—The Baron de Rottenburg has been | and the public health, has again become warm General of the Forces, in Western Canada, Vice Col. McKenzie Faser, who, some months ago, was made Deputy-Quarter-Muster General.

TROOPS AT THE RED RIVER SUFFLEMENT. Governor Sir George Simpson arrived at the Hadson's Bay House, Lachine, yesterday morning, from the interior. He was accompanied on his journey from Red River, by Lieut. Colonel Croiton, of the Star General, and Canon Dean of the chapter of 6th Foot, late Commandant of the garrison at that place. It may be remembered that Major Griffiths, the Cathedral of Montreal, died on the 13th instant, of the Laugrant fever. Also, of the same disease from Red River, by Lieut.-Colonel Crotton, of the thirty minutes. It came by the way of Toronto who relieved Col. Crofton, accompanied Sir George on his journey to the Hudson's Bay Territory. We are informed that the presence of Her Majesty's troops, at the Red River settlement, has had the most happy effects, in strengthening the loyalty of with in the following manner: a short piece of the the inhabitants-proving to them that, however dis-wire had been broken off, and a piece of silk cord tant and comparatively unimportant to the great Empire, of which their country forms one of the out-posts, their happiness and welfare is not forgotten or neglected by the Central Government. garrison, consisting of 300 men, including Artillery and Engineers, were, when Sir George's party left Red River, in a state of health and comfort, and descreedly very popular with the inhabitants.— Montreal Herold.

On Tuesday the head-quarters and right wing of and the remainder of the regiment yesterday. The this garrison by the 77th Regiment (The East Middlesex ) - Montreal Courier, last week.

at the Splinter Proof, and partly at the Jesuits' Bar-

LARD Sr. PRIER.—A letter from the Secretary of season under an impression that her own life would the Board of Public Works to the Secretary of the be the forfeit." Montreal Board of Trade, states, for the information of the Board, that "from an examination and Report made last week, by order of the commissioners, by Mr. Rubridge, one of the engineers to this Department, it is deemed advisable to excavate a Channe through the Flats to deep water this season, of such width as time and the amount remaining of the appropriation will enable the Department to accomplish. This will test the effect of the current passing through the straight channel in preventing

deposit taking place." CRIMINAL TERM.—August 1847. The Convic-tions on this occasion were four: Henry Gadsden, of manslaughter; 3 years penitentiary at hard labour ;- François Dupolean, alias Dorval, of malicishooting at a person; 14 years penitentiary at hard labour ;-Wm. Caldwell and Ignace Marquis, of larceny in a dwelling-house, the immates being put in fear; 7 years penitentiary at hard labour ;-Joseph Blenny, of larceny ; 6 months house of correction at hard labour.

The Grand Jury, in their presentment, upor which we offered some remarks in our last, spoke highly of the zeal and efficiency of the Police-re marked upon the temporary burying ground for Roman Catholics at the Marine Hospital, "the nature of its soil, its contracted area, and close contiguity to the sheds, rendering it most unsuitable for a place of interment. Its occupation as a comptery moreover curtails the already too limited space ellotted fir the exercise and recreation of convalencent patients." Great satisfaction is expressed with the Assylum for Lunatics at Beautort: 6 they found the inmates Ayong men of the name of Lauriau, 17 years cheerful, and enjoying every advantage their on-bappy condition will admit of. They are well from a plank in going on board the John Munn. the benevolent and watchful superintendent and praise is due to Mr. Muclaten and his assistants for the order observable in every department, the result ditto, in ditto, of strict and well digested regulations." -- The pre- William Foster Coffin and Hew Ramsay, Esqrs. sentment concludes with one appropriate learners to be Members of the Royal Institution for the Adupon the care laborito taken by the Government of vancement of Learning. the numerous sick and destitute lumigrants; and upon the daty of zealous co-operation on the part of the citizens with reference but to the precent, and to "the proceedings which will no doubt immediately he taken to provide suitable reception for these strangers during the fast approaching winterwell for the thousand now at the Quarantine Station, as for the many ill-lodged and ill-provided immigrants at present in the city."

We are informed that a lot of ground has at length been purchased, as a binial-place to be used instead of that at the Marine Hespital, against which such just complaint has been made. The new place of interment, which is four arpents in extent, is situated at La Cana, dière, on the south side of the road leading to Beauport .- Chronicle.

MUNICIPAL .- The City Council have authorized the Mayor to borrow a sum not exceeding £1250. for 3 months, in anticipation of the revenue of the current year; to be repaid out of the first funds in the hands of the Treasurer, on or after the 15th of October next.

The time fixed for depositing the Assessment Books and for advertizing the same was extended from the 16th inst., to the 1st of September.

Fire:-Last Thursday night, about 10 o'clock, in Mr. Bourgeois' grocery-store, corner of St. Paul's and St. Nicholas Streets. It was confined to the cellar, and was soon extinguished by the prompt attendance and exertions of the Fire Companies.

We are happy to learn that Mr. A. Hawkins, has been appointed Shipping Master for the port of Quebec, under the Act for regulating the shipping of seamen, passed at the last session of the Legislature .- Chronicle.

ELECTRIC TELEGRAPH.-The line is now complete, indeed, from Montreal via Toronto to New York, but the privilege of using it is subject to some contest; Tuesday's Chronicle contains the following from its Montreal Correspondent:

"The proprietors of newspapers in Toronto have refused to allow the branch of the Telegraph at that place to send the New York news received, until the day following. Our newspapers here have therefore been unable to make any arrangements for receiving the news, for the last few days."

The wires of the line of Electric Telegraph to be established between Quebec and Montreal, are now established between Quivee and The steamer John Munn brought down, this morning, a large quantity of wire for the completion of the work. be a station, we are informed, at Three Rivers.

Great exertions, we learn, are being used in erec ting the posts for the line between Quebec and Hal-ifax.—Chronicle.
