Indificates of cures performed by the application In J. Ball & Co.'s Patent Ivory and Lignum fike Eye Cups :-

CLAYSVILLE, Washington County, Pa., Sept. 29th, 1871.

B. J. Ball & Co.—Gentlemen :- I have now tho-Da.J. Ball & Co.—tremmen:—I have now tho-gely tested and proved the Patent Eye Cu st are the ne plus ultra of all treatments of impair-ity are the new plus ultra of all treatments of impair-dision, from advanced life or other causes, and are disson, none actioned the or other causes, and are sinariable cure of Myopia and Near Sight. I win the last few days entirely cured several both of scute and what is called the both of acute and what is called chronic in-These had tried every known and missile species of treatment without the slightest missile, but on the contrary detrimental, and great

arease.

If mother, an old lady of sixty-four years, is an interest advocate of the Cups. Three months and the could not read a letter, or letters as large where thinh, as she sometime expresses herself. retain it is, that her eyes were unusually old, and on beyond her age to such an extent that she and not read the hending of the New York Tribune, filled her glasses. You may judge, therefore the get of the Cups, when I inform you that she can getorme oups, which I morn you that she can now read even posterior of the Trionne, even the small diamond type, without her glasses. She now isbitually reads her Testament, ordinary print, shouther glasses. You can imagine her pleasure. The business is beinning to assume something the form and shape. I have inquiries from all diactions, and often great distances, in regard to the anchous, and once good distances, in regard to the sature of the Cups. Wherever I go with them, they create intense excitement. But a few words are necessary to enlist an attentive audience anywhere the people can be found. I was at our fair last Tuesday, 27th inst., and I can safely say that I my elf, or other the Eye Cups, were no mean portion of the attactions of the occasion. I sold and effected uncesales liberally. They wili make money, and make it fast, too. No small catok-penny affair, but aspell, No. 1, tip-top business, that promises, so tres I can see, to be life-long.

I am, very truly yours,
HORACE B. DURANT, M.D.

FENTON, MICH., July 17, 1871.

B. J. Ball & Co .- Gentlemen :- It is with pleasure that I am able to inform you of my success with the Patent Eye Cups. I have been slow in my operafiers, but work on a sure plan. People are afraid often humbugged, but I have convinced them of rally. The Patent Eye Cups are a perfect success. The have restored my son's Eye Sight who was lind in his right Eye since he was a lad, the obtic after using them for over 20 years. Yours, &c. times he can read with that eye unassisted. He can shoot as many birds from the cherry tree, with his icht eye that was blind, as any other person.

They mainple in construction, and could not possibly think, be more suitably adapted for the Eyes, besides king Harmless, Painless and Pleasant. I speak with all due deference of the Faculty, but at the same time, I cannot divest myself of the fact that represent treatment, in the cases of Myopia, or Near Schiedness, Dimness of Vision, Cataract, Partial or lital Blindness, is a failure in ninetoen cases out of menty when they resort to the knife, and am in to say I know cases that have ended in total indness, which cannot possibly occur in using the Patent Ivory Eye Cups.

and now in conclusion, I beg to return you my there thanks for the inexpressible benefit received Wing your Patent Ivory Eye Cups.

Yours faithfully, REV. J. FLETCHER.

CANBORO, C. W., June 13th, 1871.

Dr. J. Ball & Co.—Gentlemen :—It has been a long the since I wrote to you. I have waited to see that effect the Patent Eye Cups that you sent me he effect produced upon my eyes. I can tenly McGee's History of Ireland, blete using the Eye Cups, a printed sheet was like a like using the Eye Cups, a printed sheet was like that blank paper to my naked eyes, but now I can see to read without glasses any print with apparent the glasses I was compelled to use before I will be be compared to the Eye Cups were of the greatest magnifying power to enable me to read or write, but now I will be said and can read diamond wrint. we laid them aside and can read diamond print, and write without them. My sight is restored as in

Ayoung lady, the daughter of my tenant, which have on my place, was affected very badly with One Plough, One Plough, One Irish Poplin Dress, Special Research Property of the Plants of the Plough on by inflammation. came to me to have the Eye Cups applied to her eges, and, strange to say, after a few applications, for reading) the book was removed from six inches lons to nine inches focus, and she can see objects it a distance in the state of the it a distance distinctly, a thing she could not do

The Patent Eye Cups are the greatest invention of the

years, for the benefit you may confer on suffering ACADEMY OF THE SACRED HEART,

NEAR BOONE FURNACE, Greenup Co., Ky., \ February 8, 1872. DR. J. BALL & Co. Gentlemen: This is to certify that, having been

afflicted with sore eyes for several years, to such an extent that my sight was almost gone-could not see to walk about—having tried almost everything known in the Materia Medica, I was constrained to try Dr. Ball's celebrated Eye Cups, with happy results. My eyes are entirely cured, and my sight is ully restored. After such results, one of my neighbors, who had been entirely blind for three years, commenced using the Eye Cups, and now he can see to do any kind of work, and is restored to his full eye-sight. To those suffering from such afflictions, try Dr. J. Ball & Co.'s Eye Cups, and you will never regret the cost. Yours respectfully, Sworn before E. G. HOLBROOK.

Sworn before J. R. Thompson, Justice of Peace.

DEMORESTVILLE, C.W., Feb. 2, 1872.

Dr. J. Ball & Co. Gentlemen: When I obtained your Patent Eye Cups from you I was suffering very much from inflammation, dimness of vision, and weak eyes; I have been so bad for several weeks that my sight became so affected that I could not distinguish a man from a woman eight rods off. I applied your Patent Eye Cups a few times, as per your special directions, and to my great delight, they have perfeetly and permanently restored my sight, cured all inflammation and weakness of my eyes. I am now able to see a bird, where I could not see a man at the same distance.

I will also state my friend's case, who applied your Patent Eye Cups. I returned this morning from visiting an old lady that was almost totally blind in one eye, and could see no person standing before her with the other eye. After I made an application with the Patent Ivory Eye Cups of two and one-half minutes, she could see her hand and fingers with her eye that was totally blind, and the other was greatly improved. Your Eye Cups are simple, can do no harm to any eye, and far surpass any invention of the present age. I remain,

Very respectfully yours,

RÉV. JOHN HILL.

> UNIVERSAL EXHIBITION OF 1855 FIRST-CLASS MEDAL ALF. LABARRAQUE AND Co

OUINIUM LABARRAQUE Approved by the Imperial Academy of Medicine

The Quinium Labarraque is an eminently tonic and febrifuge Wine, destined to replace all the other preparations of Peruvian Bark The Bark Wines usually employed inmedicine are prepared from Barks which vary considerably in the degree to which they possess the desired properties. Besides, owing to the manner in which they are prepared, these Wines contain scarcely more than the traces of active principles, and

these always in variable proportions. The Quinium Labarraque, approved by the Academy of Medicine, constitutes, on the contrary, a medecine of determined compo-sition, rich in active principles, and on wich

Physicians and Patients can always rely. The Quinium Labarraque is prescribed with great success for persons of weak contitution, or for those debilitated by various exhausting causes or past sickness; for youths fatigued by too rapid growth; for young girls whose development takes place with difficulty; for women in childbirth; and for aged persons enfeebled by years or illness.

It is the best preservative against Fevers. In cases of Chlorosis, Anemia, or Greensikness, this Wine is a powerful auxiliary of the ferruginous preparations. In conjunction, for example, with Valler's Pills, the rapidity of its action is really marvellous.
