**THE AETNA LIFE'S RECORD.**

Under the heading of "POLICY-HOLDERS' BALANCE SHEET," the last number of the *Spectator*, the leading insurance journal of New York, publishes a carefully compiled and valuable table, embracing the statistics of 26 American Life Insurance Companies for 17 years past, showing that more money has been paid out to, or saved up for, their policy-holders, by most of the companies, than has been received in Premiums from them during the 17 years from 1868 to 1885. This result has been attained, of course, through a careful investment of the assets, combined with economy in working expenses.

The *Spectator* says:—"The old and reliable Life insurance companies of this country have been able to make liberal returns to their policy-holders, whereby the cost of their insurance has been reduced to a minimum. \* \* \* If they were to divide their assets among them, it would be found that the sum added to that already paid them would show that policy-holders have realized large profits on their investments. That is to say:—Payments to policy-holders and accumulated assets owned by policy-holders together show a large gain to them over premiums paid. To illustrate the point in detail we have prepared the accompanying table, or Policy-holders' Balance Sheet, &c."

The following portion of the *Spectator's* table relates to the American companies doing business in Canada on the Mutual Principle:—

DESCRIPTION.	AETNA, Hartford.	N. Y. LIFE, New York.	EQUITABLE, New York.	U. STATES, New York.	U. MUTUAL, Portland.

" per cent. .... 8.	17.9	7.7	2.0	—1.7	—0.3

The superior result shown in favor of the AETNA by this Seventeen Years' Balance Sheet is only what was to have been expected, from its well-known care in the investment of funds, and its superior economy in management expenses.

According to the *Spectator's* "POLICY-HOLDERS' POCKET INDEX," which is a standard of reference, the Aetna's expenses, during the past five years, have averaged less than 10 per cent. of its income. Those of the other four companies, taken together, have averaged 21.13 per cent., and one of them as high as 28 per cent.

"The public cannot be misled if, when seeking an office in which to effect an insurance, they select one which transacts its business at a small percentage of working cost."—*British Board of Trade Report.*
