MONTREAL.

Mercantile Summary.

A MOVEMENT is being made in Montreal to establish a Hardware Exchange.

THE daily production of petroleum in the Pennsylvania Oil Regions, is estimated at 30,000 barrels, while the consumption of petroleum per day is about 40,000 barrels.

A MEETING was held in Toronto a few days ago, at which a company was projected to develop the "Snowden Iron Mines." The proposed capital is \$200,000, about half of which it is intended to issue to the public for the purpose of obtaining capital with which to erect works.

IN ORDER to counteract what is termed "the despotism" of Trades Unions, in England a Society was organized in December last, in that country, to be known as "The National Federation of Associated Employers of Labor." It is said that the masters who have given in their adhesion to the scheme employ 2,000,000 workmen.

COTTON goods are now being adulterated with wax as a substitute for "size," the former has the advantage that it will not mildew. The wax is so applied as to materially improve, to the inexperienced eye, the appearance of the cloth; and it is alleged that these waxed goods have been largely exported from Great Britain to China.
