

- 3.1.2. For the implementation of this Procedure, the Parties agree that the demonstration of capability of a design organisation to assume its responsibilities is sufficiently controlled by either Party, to satisfy any difference in specific requirements of the other Party.
- 3.1.3. An application for a design approval shall be made to the Importing Party through the Exporting Party, where appropriate.
- 3.1.4. The bodies responsible for the implementation of this section 3 relative to design approvals shall be the Technical Agents.
- 3.2. Certification Basis
- 3.2.1. For the purpose of issuing a Type Certificate, the Importing Party shall use the applicable standards for a similar product of its own that were in effect when the application for the original Type Certificate was submitted to the Exporting Party.
- 3.2.2. Subject to subparagraph 3.2.5 and for the purpose of approving a design change or repair design, the Importing Party shall specify a change to the certification basis established under subparagraph 3.2.1. when it considers such change appropriate for the design change or repair design.
- 3.2.3. Subject to subparagraph 3.2.5., the Importing Party shall specify any special condition applied or intended to be applied to novel or unusual features not covered by the applicable airworthiness and environmental standards.
- 3.2.4. Subject to subparagraph 3.2.5., the Importing Party shall specify any exemption to or deviation from the applicable standards.
- 3.2.5. When specifying special conditions, exemptions, deviations or changes to the certification basis, the Importing Party shall give due consideration to those of the Exporting Party and shall not be more demanding for the products of the Exporting Party than it would be for similar products of its own. The Importing Party shall notify the Exporting Party of any such special condition, exemption deviation or change to the certification basis.
