

Private Bills—Divorce

eration to standing item 384 over to be considered at the time we are considering items 397 and 399?

Mr. Fleming (Eglinton): Mr. Chairman, this question was asked by the hon. member for Ottawa West. Frankly, I do not see the point. I wish to be reasonable about this. We have to deal with this item on skelp at some point, and it is part of resolution No. 3 on iron and steel products.

Mr. McIlraith: Mr. Chairman, may we dispose of the point before five o'clock. The suggestion is made to prevent duplication. The item must inevitably be referred to in the discussion of the items having to do with pipes and tubes and if we discuss this item now we must discuss pipes and tubes, and then discuss them again when we come to the item on pipes and tubes. I think we can eliminate that duplication of discussion by having the full discussion on pipes and tubes.

The Deputy Chairman: Order. It being five o'clock, it is my duty, pursuant to standing order 15, to leave the chair in order to allow the house to proceed to the consideration of private and public bills.

Progress reported.

Mr. Speaker: Order. It being five o'clock the house will now proceed to the consideration of private and public bills, the former having precedence, pursuant to standing order 15 (3).

PRIVATE BILLS

Mr. Speaker: Before the assistant clerk reads the first order, I have been informed that the house will consider giving consent to dealing with some of the items on the order paper which can be handled expeditiously before dealing with other items that may be contentious. If that is the case, may I suggest that we proceed with the second readings of divorce bills. As hon. members will note, there are four series of second readings of divorce bills on the order paper. Is the house agreed that we proceed with these second readings?

Some hon. Members: Agreed.
