About ten years ago a gentleman came into my office on crutches. The doctors pronounced his trouble to be Consumption, which is known better new as Tuberculosis. He had coughed until he wasted away to a living skeleton, as he was only skin and bones. He had spent \$700 traveling in the west to get dry air, \$300 with specialists in New York City without relief; he was sent to get my remedies, called B'Well and Rheumaticide, by a gentleman whose leg was saved from amputation by using Rheumaticide. He purchased them, and using Rheumaticide on the chest externally and taking B'Well, he was entirely cured in about two weeks, and I think everyone in his neighborhood bought medicine from me. I am told the gentleman is still alive and weighs over 200 pounds. This is only one of many that B'Well and Rheumaticide have cured, who were pronounced to have Consumption.

B'Well is composed of Roots and Herbs, Nature's Remedy for disease. Cannot possibly do you any harm. It cures Catarrh of the Nasal Passage, Catarrh of the Stomach, Bowels and Bladder. It is a life-saver; it is a blessing from the Most High to man in his weak condition, as it brings relief to the sufferer, and health and pleasure are sure to follow. You say it is a cure-all. I say no. If you know you have Tape Worm my remedy is sure. In that case you would require my World's Famous Tape Worm Remedy that has saved thousands of people from a life of misery and an early grave. There is only one way you can learn the value of B'Well—that is to try it.

The names and testimonials of people who have used it are sufficient evidence to convince the most skeptical. It would take up too much valuable space to publish them, but all who are interested can see the letters from those who have used B'Well and have been benefited; yes, restored to health and happiness, who do not hesitate to speak words of praise for what it has done for them, and no one can read them without being convinced it is a Valuable Remedy and part to Tuseday. Counsel Makes Apology.

There was quite a bit of excitement at the conclusion of the trial of Robert Brown when Crown Counsel Du Vernet arose to address his lordship, and made application to the court for a ruling of the judge, calling upon the defendant's counsel to show cause in writing or otherwise, why he should not be committed for contempt of court, regarding a statement alleged to have been made to the press that the jury was ignorant. Mr. Du Vernet suggested to his lordship that the lawyer referred to be given until next Wednesday to make an apology or give his reasons for not only making charges against his lordship, but against the jury also.
