## To Our Customers Examine Your Collars and Cuffs

NOTICE the absence of the former BRITLNESS which caused the work to BREAK SO RAPIDLY.

We have just put in, at great expense, a wonderful machine, heated by steam, work only passing through the rollers once, the result—work is elastic, will not break, and will last much longer than when ironed by the old method, heated by gas, which has to pass through the rollers eight times. Degrees of heat of gas machine, 600 degrees of heat of steam machine, 400 P. S. —We have also added a newly invented Machine to iron the edges of Collars and Cuffs.

FAIRBAIRN, The Tailor

Opposite City Hall Richmond Street.

'Tis almost second nature for an actor to relate stories, even of a funeral nature, in as entertaining a manner as possible.

Mr. Goodwin is accredited with talking about it the other day.

"For instance," said he, "what's the use of going into all the harrowing details. Leave something to the imagination. Now, take for example, suppose you read something like this in the paper:

"To Boston the other day, a man thought he could cross the track in advance of a locomotive. The services at the grave were very impressive." Or

"A man in Maryland ate fifty raw oysters on a wager. The silver trimmings on his coffin cost \$12.50." Or

"A Chicago man warned his wife not to light the fire with kerosene. She did not heed the warning. Her clothes fit his second wife admirably well." Or

"A Londoner got tired of buying his coal haphazard, because it was cheap, and now buys it from Cameron. As a result the doctor never calls, and he and his family are happy all the time." 'Tis brief, but really all-sufficient. Office, Hiscor Building Yard, Burwell Street, at G. T. R.
