DOIN' A THING OR TWO. favor of state-owned cables, and urged on the Canadian Government to follow with a declaration to that effect. Withto the extent of reducing the cable rates for deferred messages. That was something accomplished, and perhaps Mr. Maclean can claim a little of the his belief in the idea, and we had an English M. P. here yesterday talking

Last week Mr. Maclean managed to get the house to agree to an expansion and extension of the parcel post sys-

right on the marriage question.

For the first time, Mr. Maclean also is, that the railway rates should be the same in Manitoba, Ontario and British Columbia, drrespective of the cost of the Dominion. He did not divide the discussion of the question in the house ers in regard to this issue was about to be taken.

But he got little or no support whatever from the dear newspapers on with the hook!

In Winnipeg, Mr. R. L. Richardson, who professes to be a champion of compatible with the existence of the public rights and especially the cham- highest types to-day, and does not appion of the people in regard to railway pear to have been, at any stage in the in his newspaper, The Winnipeg Tri- come down to us. bune, all the fine things that the Towest in parliament, what else can they expect but neglect in parliament? But one detter like the following from a western man shows that the Richardsons are not the only people in the day.

I think possibly, all things considered, it was better to adjourn the cussion than to force the motion to a defeat in the house. The government, I think, however, would

And no one But who is vice-president of the Re-knows what the farmers of the west public of China?—Albany Journal.

will say about him when he goes them after seeding!

GETTING THINGS DONE. When business men form a partne hip in which they expect to succeed the first thing they realize as a necessity is unanimity of action. A bank, a railway, a store, in which half the parters wanted to do one thing, and the other half something else, so that they oncluded the year's affairs without dong anything but what the clerks and nderlings did out of their comp sense, would be an interesting spec overnment presents eight million dolars spent by men who have opinion bout what might be done, but never definitely know, altho they have all the expert knowledge of the continen at their disposal. If they were running yould be regarded as crazy or incom-

treasurer, always knows the best thing to be done, but what is even more to the purpose, he does it-if he be permitted. It is his business to do things, not to procrastinate and postpone in the hope that some one else may do someit is better to do nothing.

We believe the public would not at all object, and we are inclined to think that public business would be expeditauthority on cables, is preparing an We do not believe in secret conclaves tem, which, if properly enforced, must able and sensible business policy for the bring about a great reduction in excity. They can get all the advice they want before hand from experts, rewill lose no jot of the criticism that is always ready in any event. But we introduced in parliament the question believe they might at least get some-

is declared by geologists, from its position under the boulder drift and clay, to general expectations, Sir Wilfrid to be that of a man who lived 100,000 Laurier did not go to the country in years ago. This may seem a staggering the staggering that the contract heavy made to the country that the contract heavy made to the country that the contract heavy made to the country of the contract heavy made to the country of the c that of an ordinary Briton. The man of science in this instance has to taken may and shall, preserving always a dose of his own medicine, and learn the proportions in the said contract

had determined it should be. A more impressive scale of evolution could be exemplified by specimens from existing any of these questions. Most were out races of men, than from the pre-historic remains that have been discovered. The existence of the lowest types is not inquestions, went so far as to republish past, of which traces or traditions have

The emergence of a new type may yet ronto papers saw fit to hurl at Mr. be found to be due to the operation of Maclean on this topic; not one word of a law as simple as that which enables approval for the man who brought up us to understand that the flowers of the government was to "implem

If there were no other result from the pathetic incidents at Niagara last Sunday, it has been a gain to the whole and the railway company at the time continent to learn what bravery and made no claim that the government continent to learn what bravery and continent to learn what bravery and courage, in the face of inevitable death, lament of Canada is equality in railway rates, subject to local adjustments. It would be quite proper for a parliament of Canada to lay down that broad general principle, and then to call upon the failway commission to apply it. I think, in that case, we could rely upon Index Mohae and women, and the part of th on Judge Mabee to enforce his structions. Things being left as on the rope let down from the bridges years and with the road almost completed these bonds and are structions. hey are, I am not so sure that we might have been sufficient to ensure the Dominion of Canada would be a drag escape of the victims. recall the history of the Grand Trun Pacific deal. That deal came before lament in 1903. It provided for a way from Moncton, N. B., to the fife Coast, which railway was did Pacific Coast, which railway was divided into two divisions, the Eastern and the Western. The Eastern division was to extend from Moncton to Winnipeg and was to be built by the government of Canada and afterwards leased to the Grand Trunk Pacific Railway Co. The Western division, from Winnipeg to Tidewater, was to be constructed by the G. T. P. Railway Co. This division was, for the pur-Co. This division was, for the purpose of the agreement, divided into the pose of the agreement, divided into the prairie section and the mountain section. By the contract of 1903, the bonds of the railway company were to be guaranteed by the government to the amount of three-fourths of the cost of the road, with this limitation, however, that the bond agreement. however, that the bond guarantee on the prairie section should not exceed \$13,000 per mile and on the mountain section should not exceed \$30,000 per mile. The government was also to pay the interest for the first seven years on the bonds covering the mountain section.

Where "Joker' Comes Inof science is the fact that the present ment, the one recently interpreted, read

provided as between the prairie and mountain sections of the western division, implement for the purpose and subject otherwise to the provisions of the said contract, its guarantee of the bonds of the said company to be issued for the cost of pany to be issued, for the cost of construction of the said western division in such manner as may be agreed upon, so as to make the proceeds of the said bonds so to be guaranteed a sum equal to 75 per-centum of the cost of construction of the western division ascertained as provided in the said contract but not exceeding in respect of the prairie section \$13,000 per mile."

How It Worked.

That is to say stripped of all verbiage the question for the first time in par-liament, and who had to get a seconder for his motion on the other side of the house. If the newspapers of the west will not even say a good word for any-one who tries to say a word for the

ommons between the government and the opposition was that the opposition CAPTAINS OF THEIR SOULS. strued as it has been construed by the

sence of mind in advance.

The training of millions of boys in loss of the government to date is four million, nine, hundred thousand dolars, and he estimates that the government was partially thru the action of Mr.
Maclean in the railway committee that that body decided to ask the Onproposed renewal of the company's charter giving them the whole of the waterpowers on the Ottawa River! primitive conditions still to continue an value of the bonds from the govern-

was made by influential deputations before the railway committee yesterday to the renewal of the Ottawa, Montreal

Hon. Adam Beck and G. Lynch-Hon. Adam Beck and G. Lynch-Staunton, K.C., represented the Ontario Government; J. P. Turcotte, ex.M. P., the Quebec Government: Mayor Hopewell and Controller Parent, the City of Ottawa, and Ald. Lapointe, M. P., the City of Montreal. The conservation commission wrote suggesting an amendment that no works shall be started by the company till authorized by the government, and any rates charged for power shall be subject to the railway commission.

the railway commission.

J. G. Turriff advocated the construction of the canal as a government work.

J. A. Ritchie, K.C., claimed the company had expended half a million dollars on surveys alone. The company had no expropriation powers and it was absurd to think the company would expend a hundred million dollars merely to develon water powers.

fore the privy council, and nothing should be done which might be preju-

A million horsepower would be developed by the scheme. The hydroelectric commission was supplying power at \$25 per horsepower less than private companies. It would be apparent, therefore, what an immense value was attached to the company's charter. "If the canal is built by the government," said Hon. Mr. Beck, "we will develop the water powers.

matter."

George Lynch-Staunton, K.C., said Ontario did not object to the canal, but to its rights to water powers being encroached upon. The Dominion had no right to authorize other people to take the property of the province. In doing so it would stultify itself and be guilty of dishonorable conduct and a breach of treaty. The Dominion, he admitted, could authorize the canal, but under the cloak of a canal scheme it could not six and court in the process of the court of the sum of \$43.65, and that an order of the canal scheme it could not six and the court of the court

Miller, 130 W.R., 422, and that she be cloak of a canal scheme it could not give away provincial rights to powers. The provisions in the bill were as wide and ruinous as the powers in the Conmee bill last session. Under its powers they could go as far as Labrador or they could go as far as Labrador or Mr. Lynch-Staunton: As a private transaction not a man on the committee would pass the bill.

Messrs, German, Fripp and Hon. John Haggart made comments favorable to the project.

"Build the canal as soon as you like, but maintain our powers," answered Mr. Lynch-Staunton, "I have been coming here several years," he declared, "and have found the government very liberal in giving away rights of the people."
