PEACE BEFORE CHRISTMAS.

A. German delegation to conclude an armistice and take up peace negotiations has left for the western front .- Official Berlin dispatch.

EVELOPMENTS run swiftly to a climax Development are convinced that the coming Christmas, not much more than a month distant, will see the return of an era of peace on earth, good-will toward men. A world set free from the bondage of militarism will sing the anthems of the Yuletide not with the mechanical chant of phonographs, but with the glad voice of angels. With unbared heads the people may stand and send their abundant thankfulness to the heavens.

The peacemakers of the earth, the warriors who struck in the spirit of freedom, shall be praised by millions of men, women and children.

Exultant, the victors shall ascend from the darkest valleys into which humanity ever journeyed, and beside them shall march the spirits of those in the great world-war. Men of calm judg-

Germany will remain as a vast, destroyed temple of evil, the symbol of the conquering power of right as decreed by liberty-loving mankind. As a warning to other nations that dream dreams of world conquest, her shattered ideals the sum of \$50,000 to clothe refugees in France and Belgium.

With Wilhelm every other ay has an "abdication" all its own. He has abdicated" at grand quarters, Brussels, Bingenn-the-Rhine, and Munich, where the beer comes om. Compared to him Constantine and Ferdinnd are pikers. The best they could do was a litary abdication. Wilhelm, however, will have dozen to his credit—count them—a dozen when takes his place on the penitent bench alongde his brother-in-law and the Fox. But that air may feel peevish at the stealing of their own ecialty and refuse to push over. Or again they ay consider it no joke to make of royal self erifice a commonplace habit like shaking down

e furnace, gargling or changing one's socks. Posterity will not accord any glory to this ecious trio for relinquishing their crowns "for e good of their subjects." There have been dications sincerely made to the end that a tion should benefit. The word and act we have sociated with a certain selflessness and generity. Nothing of this applies to Constantine, erdinand or the kaiser, should the war-lord ally step down. For "abdicate" read "fired" "bounced" or "kicked out." Not one of the rty lot considered abdication until a high exosive bomb was placed beneath the throne. If e supreme secondrel finally lays down his out it. One drops a hot poker because it! isters, and the act usually raises a laugh. The ussian braggart and poseur will not have even satisfaction of making an impressive exit.
