THE OUTLAW'S CHRISTMAS.

Jack Foster, the outlaw, E. A. Turner, Kate Foster, his wife, Gertrude Dion Magill, Ruby Foster, Gertrude's daughter, Belle Jeanette, Horace Harper, a gambler, Waldemar Burkhardt, Anna Robinson, in love with Jack Foster, Virginia Howell, Leonard Brevall, a painter, Margaret Quinn, a child, Morton Porges, Edward White, a painter, Faber, a policeman, Daniel Higgins, One Royal Jimmy, a professional crook, Harry Scott, Charles Nelson, a professional crook, Joseph Lewis, Black Pete, a bad man, M. F. Ryan, Asbestos Hill, an outlaw, William Willis, Smiling Bob, a miser.

Judging by the two large audiences which witnessed the first presentation of "The Outlaw's Christmas" at the Majestic Theatre yesterday, the comedy drama with thrills and sentimental incidents is still a favorite with a large section of Toronto theatregoers. While the play was presented here last season, the cast and scenic equipment of the present production are more complete and the telling of the story as a consequence is more interesting. E. A. Turner, as Jack Foster, the outlaw, and Virginia Howell, as Anna Robinson, portrayed the western characters true to life, their work indicating an ability to present more pretentious roles. Belle Jeanette, a clever little actress, presented the character of Ruby Foster, in a manner that captivated the audience, her singing specialty in the third act, imitating Anna Held in "I Cannot Make My Eyes Behave" calling for several encores. The production altogether is an especially good one, and at the scale of prices at the Majestic should prove a strong drawing bill for the ensuing week. As usual, a matinee will be given every day.

At Shea's.

Sadie Jansell, late of "Fascinating Flora" fame, gives the clearest event on Shea's program this week. Her stunt is imitations. She does Eddy Foy into a smile. She is a little more like Held than Anna is and does the wild and woolly Eva Tanguay in a way to please and amuse even the friends of the parties. Then she closes with a sort of 37 varieties of how some of the big ones would sing, say or shout a little song. In this her presentation of the languid glide and converse of the

INSPECTOR BLAMES ENGINEER

Says That He Protested in Vain Against Poor Pavement.

The board of control will investigate the statements made by William Millicamp, who lately resigned his position as civic paving inspector, after nine years' service, because of the outcry against the manner in which the paving of Castle Frank-avenue with bitulithic had been carried out. In an open letter to the city engineer, Mr. Millicamp asks an investigation by the county judge and asserts that in allowing defective paving to be laid he merely bowed to the orders of G. G. Powell, civic roadway engineer. Mr. Powell said last night that he expected to make a written report to the controllers, in which he would explain his own position satisfactorily. "I am not at all alarmed about it," he added. "The statements in the letter show that I am responsible for no mistake, and the fact that he allowed the work to go on shows that he was a little lax."

Mr. Millicamp's letter concludes: "It is all very well for Mr. Rust to make me the scapegoat. In the name of common sense, does anyone believe I could override the roadway engineer's latest order, no matter what order I had previously received? In spite of my letters of July 14 and Aug. 1, the engineers allowed the contractors to cover about 250 yards of concrete with concrete with the bitulithic top coat, having been fully aware of all the facts."

FOR HER HUSBAND'S SAKE.

Judge Morgan Frees Woman, Who Mustn't Err Again.

"I'm letting you go for your husband's sake," said Judge Morgan to Mrs. Mabel Taylor yesterday. "But just as sure as you ever transgress again I'll send for you and you'll get no six months, but two years. If I die I will leave the message behind me."

SIX FOR A DOLLAR TICKETS.

Only two weeks more remain for the sale of the six-for-a-dollar tickets. Up to the present between three thousand and four thousand dollars more have been sold than at the corresponding date last year, and as there have been \$5000 less printed, it is fair to calculate that, altogether, there are \$10,000 less to be sold at this rate than there was last year.

REAR-ADMIRAL SPERRY RECEIVES WARM WELCOME

Official Ceremonies at Auckland—Immense Crowds Through the Streets.

AUCKLAND, Aug. 10.—Cloudy weather greeted the landing of Admiral Sperry, commander-in-chief of the United States fleet, and his officers to receive official welcome to Australian waters at the hands of Prime Minister Sir George Ward, for the government. Grouped about the prime minister were the members of the cabinet and various towns, boros and district representatives of the Dominion.

In his address Sir George eulogized President Roosevelt as representing the best traditions of the common blood of civilization. He then presented to Admiral Sperry for President Roosevelt a decorated gold and silver album, suitably inscribed, commemorating the visit of the fleet to New Zealand. Admiral Sperry was given a beautifully illuminated address of welcome, and with an inland cover, having designs emblematic of New Zealand.

The American commander-in-chief in replying to the prime minister said that no greeting would appear more strongly to President Roosevelt than that coming from the most eminent number but great in achievements. The reception of the United States fleet, the admiral continued, showed the ties of blood and friendship.

The government gave a banquet to Rear Admiral Sperry and the officers of the fleet to-night. There were 750 persons in attendance and the affair was carried out on a magnificent scale. The prime minister proposed a toast to King Edward and President Roosevelt, during the course of which he said: "Each is a born ruler, richly endowed with common sense and a great ardent lover of his country and people. Each is a peace-maker. The American navy is one of the most efficient forces in the world. We are proud of Admiral Sperry's visit and no fleet save a British one is so welcome."

When Rear Admiral Sperry rose to reply to the prime minister's toast he received a tremendous ovation. He said he could safely say there was nothing nearer to the heart of President Roosevelt than the cordial welcome extended by New Zealanders to the fleet and he was confident that it was also agreeable to the King.

The Christchurch Press, in an article on the subject of the visit of the fleet, declares that the conclusion of the Anglo-Japanese alliance was only "a temporary expedient to secure peace and professes to see in the future a struggle for mastery in the Pacific in which the United States and Great Britain will be natural allies against the far eastern forces."

TOKYO, Aug. 10.—In the course of an address delivered at an informal meeting of the members of the Yokohama City Assembly, mayor Mitsuhashi dealt with the forthcoming visit of the American fleet in terms of cordiality. Among all the treaty powers holding relations with Japan, he declared he declared his heart towards this nation an unique position.

RESIDENTS OF STRIP ARE READY FOR ANNEXATION

World's Map and Explanation of Situation Has Helped Men With Petition.

Residents of the 400 foot strip north of Danforth-avenue are practically unanimous for annexation to the city. John Fallon and George Farrier have been circulating the statutory petition and every resident signed who was approached excepting some ten, who have yet to be seen.

Those who circulated the petition found the World's map and article of Aug. 7 of great value in making the position of affairs clear and a copy of the paper was taken along. As a result several who had previously signed a petition opposing the application signed this time for annexation. Two or three abettor men, known to be opposed, have not been approached, but otherwise the petition is practically unanimous. The petition will be forwarded to the Ontario Railway and Municipal Board to-day.

Closing Canary Entries.

The canary men are reminded that the entries for the big show at Exhibition Park close on the 12th inst. This year the canaries, cage birds and pet stock will be housed in the ground floor of the old press building, which is in rear of the women's building. This move has been contemplated for some time, as the former quarters in the poultry annex with the pigeons were too crowded and otherwise unsuitable. No doubt the change will produce a larger entry.
