Even more remarkable, from the standpoint of British political controversy, is the attack made on Premier Whitney's government on the ground of its invasion of the rights of private property. This is indeed a wonderful discovery, since historic Liberalism has been an unending foe of private rights of all kinds whenever these the paper got only about \$1000. ## A VALHALLA.

It is creditable to a nation when it respects the graves of its honored dead; it is discreditable to a nation if it allows the consecrated ground to go to rack and ruin, Canada, thru Toronto, has long been guilty of this disrespect. The old fort and its surroundings, including the graveyard to the northwest, have simply been permitted to decay, until its neighborhood has become little better than a slum, with many people aware of its existence but very few caring ever to visit the hal- ers, Caramels and Buttercups.

lowed spot. With the restoration by the city this will be changed, and with the street car line running along the MAIN OFFICE. 83 YONGE STREET. old Simcoe road towards the exhibition, thousands upon thousands will acquire an intimate knowledge of Canadian history that otherwise would have been beyond their reach. It will be a fitting approach or threshold to an institution that aspires to be national both in character and in fact. Visitors will recognize Canadian patriotism in the care of the bones of the heroes of longago. Not only should the fort and its belongings be restored as nearly as possible to their pristine state, but fitting inscriptions, neat and not vulgarly prominent, should be placed upon the various mementoes so that all who run may read, and our children and our children's children become by ocular demonstration familiar with the early beginnings of their native land. There is nothing like an object lesson to inculcate wisdom, knowledge and understanding. If the people of Toronto carry out their contract, as they doubtless will, Canadians will be able to direct the attention of the visitor to the care and regard that they have for those who shed their blood in defence of their country and the empire.

SUN LIFE OF CANADA.

According to figures appearing in a Montreal financial newspaper, the Sun Life of Canada now carries the largest amount of assurances in force in the Dominion. This gives it leading place among Canadian life companies and is a remarkable tribute to the excellence and enterprise attending its administration. How progressive and prosperous the Sun Life is can be seen at a glance in the "Results for 1908," pubished in another column of this issue of The World. Altho this is conspicuous enough from the figures for the year ending Dec. 31 last, as contrasted with those of the previous twelve months, it is much more strikingly ilustrated in the tabulated statement of the company's growth from its estab-lishment in 1872 to 1878, and thereafter by decades down to 1908. The increases are surprising and bear striking testi-
