SUGGESTS TORONTO RESEARCH SCHOOL

Need Great Men in Laboratories, Expert Declares at Canadian Club.

The urgent need of a strongly organized faculty in a school of research at Toronto University was emphasized yesterday by Dr. C. E. K. Kees, director of the Eastman Kodak research laboratory and author of various technical works on photography, etc. in an address before the Canadian Club yesterday.

"I don't know how badly Toronto needs a school of research," said he "or you would go out right now and make sure that one would be established."

Invest in Giving the Bible

Although the Bible, usually distributed in 530 languages, to all parts of the world, which formerly cost only 12c, now costs 40c, there is a greater demand for it than ever.

This important work of the British and Foreign Bible Society must be continued. This is a clear call to all Christians for emergency funds.

DRASTIC RULINGS TO MEET STRIKE

(Continued From Page 1).

The railwaymen strongly favor a strike on the ground that when the railways are taken out of government control a similar situation may arise, and unless they support the miners they cannot expect miners' support should they need it at that time.

Favor Extending Control Limit. Moderate opinion is concentrating in favor of the suggestion offered on Saturday by Alfred Bigland, Coalition Unionist, that the so-called control bill should be rescinded and the time limit for control fixed for May 30 instead of March 31, thereby giving time for discussion and arrangement of the wages question and the education of the miners to the real industrial position at home and abroad.

John Robert Clynes and Arthur Henderson, the most independent of the Liberals, intend to press this suggestion upon the government tomorrow.

It is believed that the government will refuse to accept the suggestion, and that the prime minister will base his position upon the simple proposition that it is impossible for the country in the present stage of its finances to bear any further burden in the shape of a subsidy to the miners. It is not impossible that important political developments may hang upon the triple decision Wednesday.

Accuse Lloyd George. The anti-governmental press openly accuses Mr. Lloyd George of trying to manoeuvre the Labor party into a false position, whereby he could avoid a question concerning the Labor policy of "direct action and Bolshevism."

These newspapers recall the prime minister's recent attack on the revolutionary and socialist tendencies of the Labor party, and they appeal to the Labor leaders, especially the miners, to abandon the extreme policy of wrecking the mines by flooding and striking the country against the owners' proposals. By their present attitude, the papers say, they are only playing into the prime minister's hands.

The British government is most anxious to probe the suggestion in order to see if a solution of the coal strike might be found, the prime minister, Mr. Lloyd George, told the house of commons today in answer to a question concerning the coal crisis.

The prime minister declared he was fully alive to the importance of giving every assistance possible, and said that he hoped within 24 hours the commons would have an opportunity to discuss the question fully. This was the only information growing out of the early session of the house today, although a debate on the coal strike had been expected.

Cabinet Meeting Held. Mr. Lloyd George presided at a cabinet committee meeting tonight, those in attendance including Sir Robert S. Horne, Sir Eric Geddes, Mr. J. Macnamara, to discuss the situation which was also considered by the parliamentary Labor party in consultation with the miners' leaders.

The balance of opinion tonight is that the triple alliance will refrain from the declaration of a general strike until the cabinet has attempted at a peaceful settlement are hopeless. It is announced that the admiralty has cancelled all leave.

The Prince of Wales, on the advice of the government, has cancelled his proposed visit to Norwich Wednesday.

Will Enlist United States Support. New York, April 4.—John L. Jones, British labor leader, declared in a statement issued here today that he intended to enlist support of United States workers in efforts of striking British miners to "nationalize the mines, placing them under the direct control of the miners."
