

Joe Page Sees Revival of Interest and Predicts Big Future

JOE PAGE.

far east. The stronger will and the stronger mind of the youthful American, together with the simplicity of the game, were added factors that were bound to bear baseball fruit, equally fast as the American farmer sowed the seed that brought forth all that was best in the senior emigrant folk from Europe.

These same European emigrants—father and son—who a few years back were a pitiable lot to look at in the great majority of cases, are today in great measure the life, sinew and ease of our western Canada in business, farming and athletic sport.

This was, thanks in the first place to Canada's open and broad-minded legislation; secondly, to the sound, healthy and practical policies of the Canadian Pacific Railway Co. When the late Sir William Mackenzie, then president of the company, paved the way for the emigrant family to get settled on his own piece of land; and later Lord Shaughnessy, who has not only had his own place of acres of land, but

**PREDICTS RACING WILL
BE KILLED IN CANADA**

New York, Nov. 30.—Big profits from the Pari Mutual sales are not confined to the State of Maryland, says the Evening Star. Machine betting has become a craze in Canada, where racing is popular. In Montreal, where the Pari Mutual is treated and vicinity, for instance, several race tracks were operated this year. The half-mile track at St. John's, for example, was half a mile in circumference. It was planned to build still another track near Montreal for the purpose of making the first of May the first day of racing until the last of October. Montreal has continuous racing. At the mile track, the first six days of the year are run while nine or ten are run at the half-mile merry-go-rounds. Mutual betting is the excitement, and the pari-mutuel system is the basis. How long Montreal can stand the game remains to be seen. Eight one-mile tracks are operated in the United States, and one at Windsor, one at Hamilton, and one at

Two more race courses probably will be added to the Toronto horse scene this season. All of these tracks draw a large bulk of their patronage from Toronto, Detroit and Buffalo, and the racing season is eight weeks each day, and betting is conducted on a tremendous scale. At Windsor, recently, the machines yielded \$400,000 in one afternoon, and the track sale-off in commissions and "breakage" amounted to 8 per cent, which yielded \$22,000 from the mutuels. So great is the desire for the track that the racing tickets are issued daily by the track managers.

The admission to the half-mile track is free of charge, which further indicates the popularity of the Canadian turf promoters. In time, it is predicted racing in Canada will be killed, either by legislation or because the public will become bankrupt.

**SAYS LES DARGEY NOT
ON WAY TO AMERICA**

**Western Boxer Says Ring Marvel
Has Done Much for Patriotic
Causes—Is Taking a Rest**

Vancouver, Nov. 30.—Still another story has filtered through regarding Les Darcy, crack Australian middleweight fighter. This comes from "Bill" Page, well known among Vancouver boxing fans. Page is now working on the Canadian Australian Liger America, and during the last two years has been fighting and working in different parts of the Commonwealth.

Page says that Les Darcy left Sydney, Australia, on October 26, and half an hour before the liner sailed he was talking to the famous Australian, Fagan, who is now in the States. Fagan told Darcy said he would have time to think it over and would let him know on his return trip to Sydney. In the meantime Darcy said he was going to the States to see his family and to stay for several months' rest, cutting off all

[illegible]

other benefits for the cause, and has placed thousands of pounds in the coffers of these different societies, yet the people of Australia have "turned him down." On his return to Australia this week, Fagan says he will have no trouble in getting in touch with the Australian market, as he is one of his sparring partners and he understands. Darcy has left word where he can reach him.

PRES. E. BARROW PLANS POST SEASON SERIES

New York, Nov. 30.—President Edward Barrow of the International League, announces here that he will advise the owners to play only 112 games next season next year and a post season series.

son series of forty-eight games with the American League. The series will be played in the Middle West. Barrow said he already has talked the situation over with the American Association members and that they are enthusiastic over such a series.

Barrow will recommend to his club owners that they begin the regular season on April 16, and close it on August 9.

In forty-eight game post season series between the American League and the American Association, each American Association city, and vice versa.

If practical, Barrow said, the winners of the regular season would play the champion team of the Pacific Coast League, for the championship of the National Association. Barrow suggested that the winners of the club owners at their annual meeting here December 11.

Cambridge, Mass., Dec. 2.—The Harvard Varsity Football Team, playing ten games and losing three of them, came out of the box office with a bang. The Bruins have brought approximately \$200,000 to the box office.

Harvard divides the net receipts with its big opponents, Yale and Princeton, and guarantees to minor elevens.

The phenomenal gate receipts for 1919 are attributable to numerous causes. The Tufts game, which was the first of the season, is having a lot to do with it. The Cornell game, coming late in October, made the most money ever recorded for a Harvard game. Last year, the Cornell game beat Harvard's last year and was rated as possible champions before they came to Cambridge this season. Princeton's record-breaking game, which was the game was a big financial success, because the Bruins whipped Yale soundly three days before the Harvard game and Saturday before the Harvard game and

Weaver, the most famous brood bitch in America. Other noted ones killed were Dum Dum of Llenhad, which needed only one point to wear a crown of champion; Little Miss Dum Dum and Yu Yu.

While the death of each of them greatly shocked Mrs. Halley it was the loss of Sadie Weaver that determined her to forsake the sport she so keenly loved. Sadie was the best of the bunch, and from three points to a title, but she had been retired from the bench since Mrs. Halley brought her from England four years ago when she was only 18 months old. She paid \$1,000 for her, but has since sold for \$2,500 for her services. Mr. Kennedy, owner of the famous Nanking Kennel at Streatham Hill, London, from whom she had purchased her, in Mrs. Halley's estimation said:

"All the money in the world could hardly buy back Mrs. Halley last night," said Mr. Fei, who was sitting next to her. "I am simply disgusted. I don't want to look at the dog again. I treasure those little dogs, especially Sadie, and their deaths cause me great sorrow."

Mrs. Halley added that she intended to sell the four dogs which were saved, as well as Nankin Wenti Sun and the Peking Fei, which she brought with her from England. Wenti Sun is one of the best English ever bred in England. Wen Fei is a puppy for which Mrs. Halley paid \$1,500. In the opinion of Mrs. Kennedy, one of the best judges of Pekes in England, Wen Fei is the best puppy poked in the world.

Besides West Sutt and the other players, she brought home with her, Mrs. Halley bought ten other Pekes which she took abroad, but when asked what she intended to do with those when she got home, she said she would want to sell them. "If possible I shall sell them on the pier as soon as they are put off the steamer."

The reputation of the Providence league made them a strong box office attraction. The Harvard-Yale game drew 10,000 spectators.

When all the football expenses of the year are met Harvard will still have a large profit. Most of the other athletes teams at Cambridge, with the exception of baseball and hockey, lost money, as football's profits will have to go to make up the deficit of the other teams. The attendance at the ten Harvard-Yale games this year is slightly in excess of 200,000, or an average of 20,000 for each game.

A. P. E. L. Boxer,
Charlottetown, P. E. I., Dec. 8.—Recently James J. Corbett made the prediction that Billy Weeks would be the next world champion. It would be the next 158 lb. world's champion boxer. Corbett persuaded him to box with him in Canada. He is a champion marauder at the Canadian's camp.

Weeks is a Prince Edward Islander, born at Murray Harbour, P. E. I. He is a champion heavy weight thrower and all round athlete, who is quite a boxer also, having met Jack (Twinn) Johnson in a fight at New York City. Weeks, when the latter met Dornan in Seattle several years ago. Pentagaster was on his way to Alaska. He was much heavier than Dornan, being six inches heavier and five inches taller than Weeks, the latter had his opponent going from the start. He was so much heavier that he sent him from severe punishment. This victory put Weeks at the head of his class in the whole North-West. He had an awful "kick" in each hand.

END OF MULBERRY PRECINCT
(New York Times).

Police Commissioner Woods yesterday issued orders abolishing the old Mulberry street precinct, scene of Black-hand affrays, and murders. The precinct was established in Civil War days. At 9 o'clock tonight the precinct will be consolidated with the Elizabeth street station, the combined headquarters being at 17 Elizabeth street. The remodeled precinct will run from the old Post Office to Becker street and from Broadway to 202nd street. The only reason the commissioner advanced for the consolidation was the unsanitary condition of the Mulberry street station at 307 Mulberry street. The building was erected in 1872.

TO GET CONSTANTINOPLE

In an announcement to the Russian Duma on Saturday, Premier Trepoff read a proclamation to the effect that the allied nations had agreed to Russia's right to the straits and Constantinople at the close of the war.

HAD BRONCHIAL ASTHMA

So Badly Man Could Not Lie Down—
Cured by Vinol

For years and years we have been telling the people of St. John that Vinco is a wonderful remedy for asthma. It is, however, a positive proof.

Tilden, Ill.—“For five years I suffered from bronchial asthma. In the winter time it was so bad that I could not go outside as I could not let down my throat without that dreadful choking sensation. I tried nearly every known remedy, but nothing helped me. One day I met the station agent at Willisville, Ill., and he said he had been a sufferer for years, but that Vinco had cured him. He commenced to take it, and the result is my cough is gone, my appetite has improved and I can lie down and sleep all night, and my chest feels better. I believe that Vinco is a certain remedy for bronchial asthma.” John H. Condell, Tilden, Ill.

There are many other cases where such cures are because they are palliative only, while Vinco removes the cause, by inducing a constitutional remedy in which the blood contains iron, phosphorus, tones, iron and manganese peptonates and glycerophosphates. It strengthens and revitalizes the entire system and aids in the elimination of poisons.
