TWO STOCKS AT
NEW HIGHS ON
MONTREAL MART

Canada Steamships Pfd and National Breweries Features in Early Morning
MONTREAL, Feb. 22.—Canada Steamships preferred stock and National Breweries common stock were the first to reach new highs during the first half hour's trading on the Montreal Stock Exchange this morning. The former opened at 66 and quickly advanced to the new peak of 68-3/4, for a net gain of 1-5/8, while the latter advanced to the top of 69-1/4, up 3/4. These two issues with Canadian Traction and Consolidated Smelters accounted for most of the business transacted at the opening. The balance of the market was moderately active and strong.

MONTREAL MARKET.

Of Geo. Washington

NEW YORK, Feb. 22.—The New York stock exchange and all other securities markets were closed today in observance of Washington's birthday. As it was a legal holiday, the banks also were not open for business.

GIVES THREE TALKS
TO BOYS ON SUNDAY

L. A. Buckley speaks at morning, afternoon and evening meetings.

L. A. Buckley, national boys' work secretary of the Y. M. C. A., addressed three gatherings of boys and young men yesterday. He spoke on "Courage and Loyalty" at the boys' service in the Y. M. C. A. at 9:45 a.m. when there was the season's record attendance of 88 boys. Ronald Brown presided.

IN WEST END.

In the afternoon Mr. Buckley was the speaker at a gathering of young men and boys from the West Saint John Sunday schools in the Ludlow street Baptist church with R. H. Parsons presiding. Solos were sung by Walter Kierstead and R. J. Rupert. Prayers were offered by Rev. W. A. Robbins, Mr. Cassaboom and C. M. McCulley, local Y. M. C. A. boys' work secretary.

At 8:30 last evening Mr. Buckley was the speaker at a sing song at the Y. M. C. A., and about 100 young men were present. The Y. M. C. A. orchestra of 12 pieces gave a brilliant performance of 12 pieces given by Miss Florence Warwick and Walter Thomas. The theme of Mr. Buckley's evening address was "Influence."

STAKES AWARDED

CLEVELAND, O., Feb. 22.—Awarding of the seventh renewal of the matron and championship stallion stakes, among the richest for three year old fillies on the Grand Circuit, has been announced.

The Matron stake with a \$7,200 value, was awarded to the Toledo Driving Club, over which track it has been raced since 1921. It will be trotted during the July meeting.

North Randall, as usual, gets the championship stallion stake, with value of about \$10,000. It will be decided during the August meeting.

GAME HELD UP

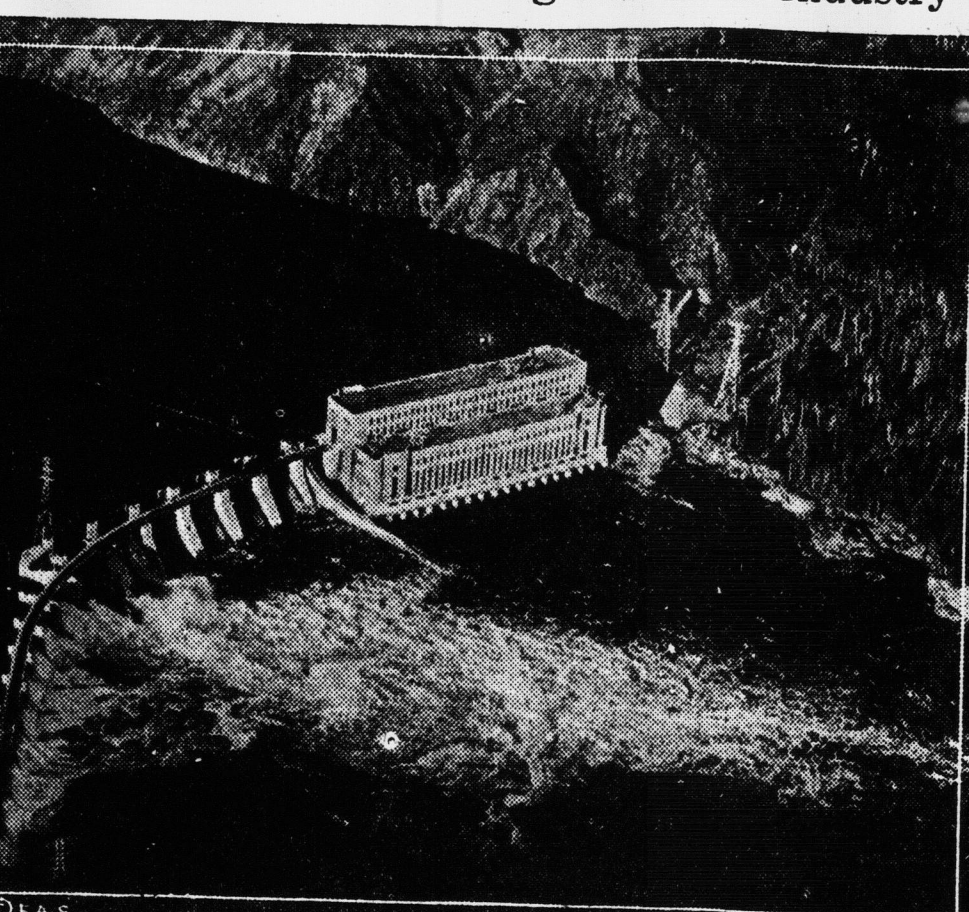

HALIFAX, N. S., Feb. 22.—Owing to the interrupted train schedule on the Canadian National lines, caused by snow and ice on the tracks, the Sydney hockey team will be unable to come to Truro tonight for the second game in their play off in group one of the Maritime Hockey Association semifinals, and the game will be played tomorrow night, it was announced here today.

Canadian Water Power Big Factor In Industry

Hydro-electric power plant at La Gabelle, Quebec, where the St. Maurice river is made to give up 150,000 horse-power. The plant is the property of the Shawinigan Water & Power Co.

By W. M. BRAUCHER
NAGARA FALLS, Ont., Feb. 22.—Eighteen million horsepower is available to drive the wheels of Canadian commerce. These 18,000,000 are tumbling down cascades and waterfalls rushing helter-skelter through narrow gorges or tumbling over rapids in a hundred streams and rivers of Canada.

Three and a quarter million horsepower has already been harnessed by man for his needs and bit by bit the engineer is looking up more streams and turning them into the power that drives big turbines that in their turn make newspaper, supply light and power to cities and do a thousand daily chores in the industrial life of Canada.

Of the three and a quarter million horsepower already developed, about 800,000 horsepower are used in the manufacture of pulp into paper with huge additions to existing plants already planned and with new mills under way that will within the next few months bring the usage of water-power in this industry to over 1,000,000. The balance is used for commercial stations and municipal stations for the generation of light and power, which is distributed to about 70 per cent. of the 8,738,485 people which the last census credits to the dominion.

Rich Murderers' Plea Gets Jolt When Escaped With Woman Bared

PARIS, Feb. 22.—Not in years has the French police been able to secure a conviction for murder where the husband killed the "other man" who had broken up his home.

But now they may succeed in convicting M. Albert Lancel, famous jeweler and silversmith, many times a millionaire and owner of the great establishment on the Boulevard des Capucines.

FINDS WIFE

M. Lancel had been informed that his young wife was in the habit of

paying secret visits to the apartment of Roger Marge, who had a distinguished record as an aviator during the war.

Accompanied by two detectives, M. Lancel went to the Marge apartment in the Rue Chateaux and, finding his wife and M. Marge together, shot and killed the man.

He then gave himself up to the police, pleading the unwritten law.

Public opinion was strongly in his favor until a further inquiry into the affair, was made.

OFFENDER HIMSELF

Then it was discovered that M. Lancel himself had been the offending party in the same kind of an episode that led to the tragedy.

Mme. Lancel before her marriage had been a Mme. Levesque. She was employed in the Lancel store. A warm friendship sprang up between M. Lancel and his beautiful clerk. This finally led to Mme. Levesque's husband making the same discovery in the same fashion that M. Lancel later did.

But M. Levesque, though having the same rights under the unwritten law, did not shoot and kill M. Lancel.

He used his wife for divorce, obtained it and he later married M. Lancel.

Now the question is, can M. Lancel self take away another man's wife, despite the great difference in population she stands second to the United States in total development.

A. J. Cook, Miners' Leader, Says Men Will Not Recede

States Three Points Which He Declares Must Be Cleared Up

By SIDNEY J. WILLIAMS.

LONDON, Feb. 22.—"A conflict in May between the Government and the miners is inevitable," said A. J. Cook, fiery miners' leader, in an interview with the United Press.

"The big government majority," he said, "together with the present stubborn attitude of the mine operators, excludes the possibility of a compromise. The Government is absolutely conversant with the position, and should know that a meeting is hopeless unless the owners withdraw their present proposals."

STATES THREE POINTS

Cook then outlined the three points which he said must be cleared up before a meeting could be considered.

First, abolition of national agreements. "This," said Cook, "would mean that the whole of the coal mining industry would be treated as a single unit, thus eliminating sectional differences and guerrilla warfare. It would certainly eliminate cut-throat competition. The present system creates inefficiency. It is vitally necessary to bring the industry up-to-date or get out."

Second, longer hours.

"To this the miners will never agree," asserted Cook. "At present 300,000 miners are idle. Longer hours would mean that another 100,000 would be walking the streets. If there was a huge demand for coal it would be another matter. It is a fallacy to think that an eight-hour shift instead of the prevailing seven would increase production, because the greater majority of the miners are on piece work. It is not a question of the length of the working day, but the intensity of it. Price lists since the war have not been changed, and naturally each miner wants to earn as much as possible, therefore he is all in at the end of seven hours."

QUESTION OF WAGES.

"This question is one again that nobody knowing the facts would for a moment consider," continued Cook. "During the lock-out of 1921 the miners were beaten in the struggle to maintain conditions, and lost with a bump what all other trade unionists gained. All war conditions were lost. The wages of the miners at present in round figures are about 45 per cent. above pre-war, which is about 30 per cent. below the cost of living. They have been pressing for an increase so as at least to equal 1914 conditions. In relation to other workers, especially in view of the nature of their toil, the miners are dissatisfied. In recent years,

HAVE KIDNEYS
EXAMINED BY
YOUR DOCTOR

TAKE SALTS TO WASH KIDNEYS IF BACK PAINS YOU OR BLADDER BOTHERS

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids with almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the back or sick headache, dizziness, your stomach in a glass of water before breakfast in a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate sluggish kidneys, also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink.

Teacher Spanks A
Pupil; Is Cleared

WHITE PLAINS, N. Y., Feb. 22.—The Westchester County Grand Jury refused to indict Miss Margaret T. Hayes, principal of Main street school, Tuckahoe, on charges of unduly punishing one of her pupils. The charges were made by Augustus Deleppe, who alleged that Miss Hayes inflicted severe corporal punishment on his son, Michael, 11 years old.

Miss Hayes went before the grand jury and maintained that she was within her rights in inflicting punishment, that it was necessary to spank the boy with a small leather strap to maintain discipline in this case. Other witnesses who testified were the school physician, Dr. Harry Stevens, and Miss Alice Caralone, who said the boy had kicked her.

Hairstones in India occasionally are large enough to kill people.

DO THIS AFTER
SEVERE ILLNESS

How to Speedily Gain Strength and Put on Needed Weight.

Nothing like the wonderful vitalizing vitamins extracted from the livers of the common codfish to help convalescing people to quickly get strong and well—everybody knows that.

So nowadays, medical men who keep up with times are ordering a tablet containing the vitamins that give to frail folks vigor, strength and weight—a tablet that is known as McCoy's Cod Liver Extract Tablet—and it surely has proved a blessing to thousands of people who have been sapped of their natural strength after any severe illness.

Skinny men and women take them to speedily put on plenty of good healthy solid flesh and for this purpose they are so extremely good that thin men and women often take on five pounds in 30 days. As a matter of fact, your druggist is authorized to return your money if you don't take on 5 pounds in 30 days.

Great for weak, skinny, backward, run-down children too, and gives them a hearty appetite.

Be sure and ask for McCoy's, the original and genuine Cod Liver Extract Tablet, Wassons Two Stores, Ross Drug Co., Wm. Hawker & Son, and druggists everywhere have a big demand for them and millions are sold monthly all over North and South America. They are sugar coated and as easy to take as candy, 60 Tablets—60 cents.

New Management

This office is now under the personal management and supervision of DR. G. T. MCKNIGHT, assisted by DR. GEO. F. BAMBER.

Dr. Bamber comes highly recommended as a plate, crown and bridge specialist. DR. BAMBER has devoted many years to these branches of the profession in large cities of England and the U. S. A.

No charge for consultation. Teeth extracted without pain. Gas administered.

Hours 9 a. m. to 8:30 p. m.

"Here's How I'm Fixed"—

"If I live to old age I'll be able to enjoy a well-earned rest."

"If I should die earlier my good wife will have an income for life."

"If accident or disease lays me aside permanently before I'm sixty or even for a period of three months or more, I get a monthly cheque until I get better."

"If, later on, I urgently need cash, The London Life will lend me money."

"If my circumstances change I can adjust my policy to suit, without even medical examination."

"How's that for real life insurance protection?"

"The cost? Why, it actually works out at less than 2%, because the premium is only \$202.00 a year for \$10,000 protection and the annual dividends reduce this considerably."

"It certainly is different and I'm glad I've got it!"

When interested in life insurance ask the London Life representative for a Jubilee Policy. It is the kind described above and he is the only man who can give it to you.
