Paris—and for 50c to \$10 less than any clothes you made ever cost!

PARIS CLOTHES!—clothes of tantalizing, elusive charm—Paris itself, with a new economy never possible before!

Imagine being able to embody in clothes you make at home the very atmosphere of Paris, of creating frocks with real Parisian finesse, of tailoring into your suits Paris' own perfection of line! And then imagine actually being able to save so much money that your pattern pays for itself and much more in every case!

"Miraculous" you say. Yes, and the most important part is that you—yes, you—can achieve these wonders because of a marvelous new invention enclosed with every new Butterick pattern—the Deltor!—a patented picture guide that means ease of making, Paris, the greatest sewing economy ever known!

The DELTOR

Saves You 50c to \$10 on Materials Alone

- 1 THE first thing that the Deltor does is to give you an individual layout chart (yes, an individual chart—not just a general chart but one for your exact size and for each suitable width of material). You lay out your pattern the expert's way. You use 1/4 to 1 1/2 yards less material—a saving of 50c to \$10 on material for every frock.
- 2 THE Deltor saves you time. Everything the Parisian originator would do if he were making your very own frock, is clearly shown by simple pictures and words. Should your dress embody the irregular hem, the bizarre new sleeves, the Italian neck line, the Deltor shows you just how to achieve the correct effect.
- 3 AND finally you have every last little touch that makes for smartness—ideas for finish that could originate in but one place—Paris. You so instinctively follow the simple explanations that your finished frock must be successful, must be Paris.
