RAILWAYS AND ELECTRICITY

"The greatest economic waste in Canada today is that involved in the importation of high-priced coal to operate our transportation systems when there are in the Dominion millions of horse-power of unharnessed water running to waste that could be utilized to haul almost every train moved in Ontario, Quebec, British Columbia, and probably to our claims for compensation with a circulation of The Evening Three or The Evening Three or The Evening Three or The Ukraina, Jan. 1—(By Mail).—

The Ukrainia, Jan. 1—(By Mail).—

The Ukrainia has been long known as Russia's sugar bowl and flour bin, but the sugar bowl has been empty for three or four years and now the flour and cornmeal are so low that it is doubtful whether the Ukrainans will have enough bread to carry themselves and colonization, the Halifax Echo says:

"There is a hint and a suggestion in this interesting bit of information for the maritime provinces. Joint action has already been undertaken with reference bee, British Columbia, and probably to our claims for compensation with

most every train moved in Ontario, Quebec, British Columbia, and probably bec, British Columbia, and probably Manitoba also."

Having made the above statement the Case recently submitted to the Railway Bech undertaken with reference in the case recently submitted to the Railway Commission on freight rates was to divert their power.

The Ukrainians, however, are a fighting, independent lot who have stubborns to divert their food stuffs in large quantities to other parts of Russia.
