GOOD THINGS COMING TO THEATRES OF ST. JOHN

WON PERFECT MAN CONTEST
At Opera House You'll See Great Strength Performance and Help Yourself—Last Times Tonight

St. John is favored this week with the presence of the leading exponent of physical fitness in America, S. E. Olmstead, who, under the name of Samsted, is at the Opera House in a decidedly novel feature illustrating the best methods of acquiring good physical condition and muscular perfection. Mr. Olmstead was the prize winner in the perfect man contest held at Madison Square Garden, New York, in October, 1908; was for eight years physical director of the famous Bernarr McFadden Sanatoria at Battle Creek, Mich., where famous men from all parts of the world go to be made over; has been pronounced physically perfect by Dr. J. H. Kellog, an eminent physician and surgeon, and is the holder of four world's records for feats of strength and endurance. For the last eight years Mr. Olmstead has been traveling from coast to coast instructing prominent business and professional men in the art of physical culture and body building.

During his performance at the Opera House he takes a few minutes to illustrate to the audience some simple exercises which he guarantees as the result of his long experience, to make people better fit, physically and mentally, one exercise in particular being especially recommended to the fair sex, for reducing the hips.

Mr. Olmstead's engagement will end tonight. Better see him. He will do you good.

MILLION FOR HOUSING IN NEW BRUNSWICK

Fredericton, Feb. 6.—Hon. Walter E. Foster, premier of New Brunswick, announced here today that one million dollars had been apportioned to the Province of New Brunswick for better housing in 1919. The premier a short time ago communicated with the federal minister of finance relative to this matter, asking what sum would be available for this province and received the reply as given.

The regulations under which the money or any part of it can be obtained are not yet arranged and until they are the legislation which would be necessary to make the grant available cannot be enacted. The amount to be apportioned for use by municipalities in other ways will be determined under that legislation.

No French Speaker.

Ottawa, Feb. 6.—An unusual feature of the opening of the parliamentary session will be the elimination of the use of the French language in connection with the moving and seconding of the address in reply to the speech from the throne.

This unusual situation is due to the fact that Dr. Chabot, junior member for Ottawa, was the only French-Canadian speaker of the Unionist government elected, and he seconded the address last session.

At his residence, 117 Sydney street, last evening, Rev. W. R. Robinson united in marriage Willard E. Cawley, son of Harvey Cawley, of St. George, and Eva M. Hamel, youngest daughter of Mr. and Mrs. John Hamel of West St. John. The newly married pair will make their home in West St. John.

THE PEACE CONFERENCE

Differences With Smaller Nations Are Being Reconciled

Paris, Feb. 6.—(By the Associated Press)—Positive steps for reconciling differences between the greater and lesser nations at the peace conference are being continued today. In addition to winning four additional places on the commission of the Society of Nations, it seems probable that the lesser powers will also be granted adequate representation in the executive body of the society as well as the legislative sections.

The smaller powers are insisting on being given a greater voice in the society, and plans under consideration are being revised to meet this situation.

The American delegation has received numerous petitions from committees, municipalities and representatives of territories under Ottoman rule, asking to be put under the protection of the United States, or at least that America shall be the mandatory country entrusted with their government. More significant still is pressure brought to bear to bring about a decision by which the United States should be entrusted with the duty of looking after Constantinople, the Bosphorus and the Dardanelles, which, it is believed, will be internationalized by the peace conference.

International Labor.
