COMMITTEE MEETING

East St. John Water Supply Discussed—More Liberal Terms For Mispec Lease—Half Pay For Veteran Ferry Employee

The city is nearing the time when a show-down will be necessary with regard to the paving policy to be adopted for the future, according to the intimations given at a meeting of the common council committee this morning. Commissioner Fisher asked the members to be prepared to decide on the policy of securing contributions from property owners for permanent pavements and the mayor remarked that it would be necessary either to make this policy general or else return the assessments collected from the property owners in Union street.

Mayor Hayes presided and Commissioners Fisher, Bullock and Hilyard were present.

When the meeting opened A. R. DuPresne, chief engineer for the St. John Dry Dock and Shipbuilding Co., Ltd., asked that steps be taken to ensure an adequate water supply for the Courthouse Bay works during the winter. Since the work was started the water supply has been secured through the pipe laid across the flats by Norton Grimes & Company. Owing to its exposed position, this pipe has frozen up each winter, causing considerable trouble and inconvenience, and he wanted to be sure of a better supply this year.

Commissioner Hilyard explained that the contractors on the excavation for the water main extension out the Red Head road are required to complete their work by the middle of December, and he was satisfied with the progress they were making. The department is laying the pipe as the trench is ready for it, and they will have the main completed practically at the same time as the digging.

Commissioner Fisher announced that he soon would bring in his programme for street paving for next year, and asked the council to be prepared to discuss a paving policy, and to settle the question whether the property owners are to be called upon to pay a portion of the cost.

The mayor said that the city must either refund the money paid by the Union street property owners or else proceed with a policy of levying on other property owners in the same way. Commissioner Hilyard told the committee that the applicant for purchase of a building and lease of land at Mispec, had asked that the lease be made for five years instead of one, and that the period of notice to quit be made six instead of three months. A recommendation to this effect was made.

An application from John Casey, deck-hand on the ferry service for more than twenty-six years, for full pay during an illness of 115 days, with a recommendation from the ferry superintendent for less than half pay, was submitted by Commissioner Bullock. The motion that Mr. Casey be paid \$152.95 at the rate of half pay, was adopted and the committee adjourned.

Lieut. F. X. Jennings Writes of

Pleasant Sensation of Marching

Over Ground Won from Enemy

The overseas mail brings a cheery letter to Mrs. F. X. Jennings of 22 St. John from her son, Lieut. F. X. Jennings, in France, under date of Sept. 23. He speaks of the pleasant sensation of marching mile after mile over ground which only a few hours before was in the hands of the enemy. He writes of the German soldier as an untidy person. "His dugouts which he has occupied," he writes, "sometimes before his bed he had a chance to get cold, and straw and littered with the most chaotic collection of rubbish, empty bottles and tins and, to add to the general untidiness, all the equipment, clothing, blankets, etc., which he sacrificed in preference to his hide."

Speaking of the Allies' success in the war, Lieutenant Jennings expresses the opinion that "this winter and the spring will see us much nearer home." He mentions having received a letter from his brother Ned, recently in the casualty list again, stating that he was feeling much better. He expected to see his brother soon.

CITY UNDER THE ACT

The city, like other employers of labor, comes within the scope of the Workmen's Compensation Act and must contribute its share to the general fund. Commissioner Fisher has received a copy of the employers' payroll statement calling for information regarding the total wages paid per month, accompanied by a letter from J. A. Sinclair, chairman of the board. Mr. Sinclair points out the necessity for co-operation and adds that if the first assessment proves to be too great or too small the difference will be adjusted in the next annual assessment.

DEATH OF MRS. FRANK JORDAN

Many friends will learn with sincere regret of the death of Mrs. Frank Jordan, which is announced today. She had been ill since last March, and the end was not unexpected. She is survived by her husband and one son, Luther. Mrs. Jordan was a daughter of William McMullin and besides her parents there are two brothers, Gilbert and Stanley. She had several close friends. The funeral will take place on Saturday at half-past two, from her parents' residence, 172 Bridge street.
