TORONTO, OCTOBER 2nd, 1933

We've had just about enough of capitalistic exploitation and exploitation of the worker...

We much dislike the character of the average Canadian politician...

God is said to help those who help themselves...

There has been a lot of talk about the labor market...

The World's report of the annual output of the Canadian Press Association...

Even a jackass attacked at the end of his career...

It has either come to pass or always has been that the wrong of property...

THE TOILER TO THE TELEGRAM

Our good friend of the Telegram, in an effort to get from under the odious...

It has the nerve to charge this paper with being a strike-breaker...

What we would like to point out to the Telegram is that it is supposed to be an independent paper...

VIEW OF LABOR

Continued From Page 1

the artisan classes, it would be that you should press that view upon your people...

I do not know that I would be warranted in dwelling further upon the question...

I personally appreciate your action to-day, and what you have said, but I do not wish to say too much in that direction...

What the manufacturers see their true interests lie in is to get the government to do something to get their wealth only by the speculation and the political bankruptcy of industry...

When the manufacturers see their true interests lie in is to get the government to do something to get their wealth only by the speculation and the political bankruptcy of industry...

They further recommended that a copy of the following letter be sent to the members of the Committee on Assessment...

Dear Sir:—I have been instructed by the Council to call your attention to the manner in which the present Assessment Act discriminates against industry and in favor of speculation...

Let any man employ on the land make any improvement, either in the clearing of a farm or the erection of a factory or a home, and at once, according to law, the assessment must be increased, while the speculator occupies with a single land tax...

Thus the better a man does for the improvement or prosperity of the country where the country does for him...

In this city the value of the land has risen from nothing till the best sites are now worth from \$2,000 to \$4,000 per acre...

It would be truly a marvellous sight, were the government to stop the progress of this speculation, and to see an legislative assembly meet in the name of the constitution of the country...

I have the honor to be, Sir, yours respectfully,

D. W. Kennedy, Secretary
