The merry-go-round has reached Petticoat, and will be in Havilock next week.

HAMPTON, Kings Co., Aug. 4.—Yesterday in the probate court, before Judge Gilbert, application was made by the late George Stockton on behalf of the caveator that the will of the late George Stockton might be proved in the ordinary form. This was opposed by Attorney General White, who claimed that under circumstances cited the will must be proved in solemn form. Some fine legal points being involved, the judge took the matter into consideration, and argument will be heard at the next sitting of court.

Today in chambers Judge Wedderburn heard counsel for and against the abandoning of proceedings in the case of William Howard, convicted at the last sitting of the county court, and held in custody under an affidavit of requiring him to pay five cents a week towards the support of his illegitimate child and the costs in the suit, together with two sureties, and in \$250 each for seven years to secure the carrying out of the order of court.

Application had previously been made by Mr. Tweedle, Q. C., to this effect on the ground that the overseers of the poor for the parish of St. John were not legally entitled to bring suit in this case (that only being within the powers conferred upon the commissioners of the alms house), and that the jury were misled by the judge at the close of the trial. Upon his argument on these points counsel would found a demand for the prisoner's discharge or an appeal for a new trial.

Today Dr. Wm. Pugsley, Q. C., submitted separate affidavits from the three overseers of the poor, stating their want of jurisdiction and asking for Howard's discharge.

George W. Fowler opposed the application on the ground that it was an attempt to block the wheels of justice, and that having once entered proceedings it was not in the power of the overseers to call a halt after conviction.

After the case had been pretty thoroughly canvassed the judge expressed his determination to adjourn the case until the day preceding the next sitting of the county court in October, without hearing argument on the other points raised, as the overseers persistently kept away from court although personally summoned to appear before him. At length, however, the judge shortened the time of adjournment to the 18th inst.

Subsequently in court Mr. Tweedle, Q. C., applied for a discharge in the case of Howard, and was successful, and was able to show his inability to comply with the terms of the affidavit order. Counsel read section 17 of chapter 108 of the Consolidated Statutes, empowering the judge in certain circumstances to discharge, and asking that an order of the court issue in that regard.

Mr. Fowler cross-examined the witness and argued against the order for discharge, but without avail, as the judge directed the clerk to enter up the order on the court record.

In the case of Hattie M. Steeves, executrix of the last will and testament of the late Penelope E. Morton v. William T. McLeod, an application was made to sign judgment summarily. Application dismissed. George W. Fowler for plaintiff; Ora P. King for defendant.

A remarkable escape from serious injury or death occurred here this morning. Mr. Sharpe, a builder, living at the village but who is carrying on building operations near the factory, left his little child, about two or three years old, sitting in a wagon on the road while he went to the house. The horse became frightened from some cause and ran away. When approaching the embankment the wagon came in contact with the wheel of a heavy

truck passing on the road and was overturned and thrown under the platform of a house built up from the marsh below. The people who witnessed the smash-up ran to the spot, and for a moment supposed the child was killed. On climbing down, however, the child was discovered under the broken wagon quite unhurt, although terribly frightened. He had alighted on a soft sandy spot, and the body of the truck covered him.

ST. STEPHEN, Aug. 4.—Governor McLean and party arrived in town this afternoon by steamer Arbutus from Grand Manan, where they have been spending the week. They were driven around the four towns this evening, and at nine o'clock a reception was tendered them by the Mayor, McLean, Premier and Mrs. Emmerson at the handsome residence of W. P. Todd, M. P. P. A large number of our citizens were present to meet the distinguished guests, who were introduced by R. R. Rankine, A. D. C., and R. S. Barker, private secretary to his honor. The affair was given in honor of Miss Carrie Murdoch of Calais, who is visiting Mrs. Morrison.

The carriage was overturned and Mr. and Mrs. Marvin thrown out. It was feared that the latter had been seriously injured, but she escaped with only a severe shaking up. The carriage was completely demolished, being broken, bent and twisted.

The early farmers of the lakes are now shipping their green stuff. Their tomatoes are bringing them \$2 a box. John Hudson, who died in the Victoria hospital, was buried on Sunday, near his own home. The Rev. Mr. Bell of the Methodist circuit attended. The poor young man put in a day on the farm unaided that would give the blush to many of the more pretentious farmers on the St. John river, and now there is no one left to hoe the potatoes or cut the hay on the farm.

The farmers in this section of the country have been blessed with very favorable weather this week for hay making. "The harvest truly is great, but the harvesters are few." Emery Briggs, a merchant of Lakeside, is now working at the Connolly wharf, brought up a man from St. John last week to assist in cutting his hay, and we have seen here in Lower Sheffield the preacher thrust into the field from

the profession. It is to be hoped that Senator King or Mr. Hawke of the Moncton Transcript will tell an inquisitive public how long it will take the agitator to come to the Klondyke, the exodus that they have made so much capital of in the canvass in the last dominion election campaign against the much lamented late government, or perhaps the telegraphist historian might throw some light on it.

D. A. Morrison of this city has received a letter from his brother, B. R. Morrison, formerly of St. Stephen, but now in Dawson City. The letter is dated July 1st, and among other things Mr. Morrison says "There is a big stampede south of Cape Nome. It is said they have struck rich diggings there, but I don't believe it is true. Still, there are hundreds leaving here every day. There is a rumor that many of the men have been disappointed and are ready to go anywhere, to see if they can better their condition. They have about two thousand miles to go, and don't know whether they will be any better off when they get there. I suppose there are more disappointed men in here than ever were in any other mining camp in the world. So many claim to be making all they can to get to the Yukon, to claim and their fortune was made. But they were sadly mistaken. It is no trouble to get a claim, but it is almost impossible to get a good one. If you are fortunate enough to stake a good piece of ground the officials are so corrupt that they will beat you out of it. It is a shame for Canada to have such a set in office as they have here. They take a man for everything and give the miners no benefit in any way."

SMASH-UP ON THE I. C. R.

The international station at Moos Park was the scene of a bad railway accident on Monday night, which involves a loss of nearly fifty thousand dollars, probably the death of one man. It appears that a special freight train which left Lewis on Monday afternoon was running at a high rate of speed when it crashed into some cars which had been left standing on the main track instead of on the siding. The engine and twelve cars of the special were demolished and the fireman, a man named Richard, crushed under the debris. It is feared he cannot recover. The wrecking train went out in a short time and a track was laid around the wreck so as to allow trains to pass. The men worked all night to get the line clear and by Tuesday afternoon had succeeded.

THE MARKETS.

Revised Every Monday for the Weekly Sun.

Cheese sold in Montreal on Thursday at 50c to 10c, and on Ontario boards at 50c to 55c. Butter sold at 10c to 15c, and on 20c in Montreal on Thursday last.

Of canned goods, the Montreal Gazette says: "A good inquiry has been experienced for new pack vegetables, and especially so for corn, for which the market continues strong, and packers in some cases note a further advance of 5c per dozen. A buyer here bid 75c for 1,500 cases, which the agent turned down, as 75c was the inside figure he would accept. Other lines are firm, and some fair-sized sales are reported of tomatoes at 75c per bush, and beans at 75c per bush. A fair trade continues to be done, and prices are maintained. Tomatoes, 75c per bush, and beans 75c per bush, 75c per bush."

EXPORT EGG TRADE. (Montreal Witness.)

Up to the present the total shipment of eggs to England has not been over 1,000 cases, against 15,000 for the same period last year. This is due to the fact that the English market being flooded with cheap continental eggs, the price in Canada being too high to allow of competition, but the short season in Europe has now commenced, and the falling off of shipments from Russia and other sources will have to be made up by importations from Canada. It is stated that the English market is already being supplied by English dealers, and there is every prospect of a unusually high price for eggs from the beginning to end of the season, which prices are looked for than have ruled for some years, and the prospects of the season are said to be most promising. The latest quotation for finest Canadian eggs from Manchester, Liverpool and Glasgow is 50c to 55c.

ST. JOHN MARKETS.

In the country market new vegetables are cheap and also poultry are getting scarce and higher other berries earlier. The market is glutted with dairy butter. Cheese is in short supply. The change in other groceries, or in flour, meal, provisions and grains.

Lord Minto and Members of the Cabinet Invited to Visit Chicago.

Sir Wilfrid Laurier Says it Would be Undignified on His Part to Accept in Face of the Existing Misunderstanding Over Boundary Matters.

WASHINGTON, Aug. 4.—F. W. Fitzpatrick of the treasury department has just returned to Washington from Ottawa, where he went at the instance of the committee of citizens of Chicago in charge of the ceremonies of laying the corner stone of that city's great post office building next October by President McKinley, to arrange for the formal invitation, and expected acceptance, of the government general and ministers of Canada to participate in these festivities.

Mr. Fitzpatrick admitted that his official reception was slightly chilly, Sir Wilfrid Laurier cautiously telling him that under the present conditions it would be impossible for him to accept, or even to consider social invitations to this side of the border.

Mr. Fitzpatrick says that in substance Sir Wilfrid's statements and answer to queries were as follows: "As a friend, in whom I am deeply interested, I am very glad to see you, but, frankly, as a representative of the federal or any local government in the United States, your visit could not have been more untimely. When I received your first letter I took up the matter with his excellency, the governor general, and he expressed a sincere desire to visit Chicago, and seemed as anxious to accept the invitation as I was. We were looking forward to the day with anticipation. But since then the tone of your press has become so harsh in dealing with the Alaskan boundary question, such misrepresentations have been made about our government, and particularly about me, that it would be undignified for us to visit you, and I cannot advise his excellency to go."

Mr. Fitzpatrick said Sir Wilfrid intimated that, in the present state of public feeling in the United States, it would be inadvisable for him to be entirely safe for the governor general and himself to visit Chicago, as he feared that they might in a great gathering at Chicago be subjected to some unpleasantness or indignity by thoughtless persons.

Mr. Fitzpatrick secured Sir Wilfrid's promise, however, to reconsider the matter of going to Chicago. Sir Wilfrid expressed himself strongly in favor of arbitrating the Alaskan boundary dispute.

OTTAWA, Aug. 5.

Just before the house closed at midnight, Mr. Davin asked the premier about the statement reported in the press as made by F. W. Fitzpatrick, of the United States treasury department, who said he had been at Ottawa on behalf of Chicago citizens to invite the governor general and Premier Laurier to assist at the corner stone laying of the great post office building in Chicago in October. Fitzpatrick is reported to have said that he had a chilly reception from the ministers, that Laurier told him that the tone of the United States press dealing with the Alaska question "was so harsh and so unfair that it would be undignified for us to visit you, and I cannot advise his excellency to go."

Laurier also expressed fear that Lord Minto "would be subjected to some unpleasantness or indignity" if he went to Chicago. Mr. Davin asked if the above statements of Fitzpatrick were correct.

"Sir Wilfrid Laurier—I have nothing to say. I move the adjournment of the house."
