Association of New England Passed Resolution to Dissolve.

BOSTON, Jan. 11 .- At the annual meeting of the New England Mill Producers' Association today at the American House, a vote was passed to dissolve the organization, but the minority of the members do not regard this action as legal, and it is possible that ceived in deposits \$440,000. the courts may be appealed to. The majority are members of a recen ganized rival organization, the Boston Co-operative Milk Producers' Company. Henry E. Bullard of Holliston, the president, was chairman of today's meeting, which was exciting throughout. The meeting lost its harmony as soon as serve as secretary or to make report. After an hour's discussion, Luther Robbins was appointed secretary temporarily. It appeared then that the members who were really desirous that the old organization should continue were in the minority. These delegates insisted that all who wished to vote delegates were in possession of these, or if the delegates had them they did not show them. Practically all were debarred from voting on that account by President Bullard, who is strongly in favor of retaining the old organization. After fruitless attempts to order an adjournment, the resolution for disbandment vas presented and declared to be carried. The members then separated. About 35 farmers present voted for dissolution and ten against.

BANANAS AND REVOLUTIONS.

G. H. Allen Tells of the Attractions of Panama.

He is a Nova Scotia Boy Who is Doing Well in the New Republic -No Ganal Yet.

C. H. Allen, a citizen of Panama, the most recently created republic on reord, was at the Royal Wednesday, Mr. Allen is a native of Liverpool, N. S., and for the past couple of months has

been visiting at his old home. He had his share of misfortune since oming home too. When he landed at Halifax on his way home he was taken ill with a particularly malignant type of fever, and for four weeks lay at death's door. The past month he has been trying to enjoy himself and recuperate from the effects of the se

vere illness. Mr. Allen is a lean young man, and during his residence in the tropics has acquired a nice brown complexion. He went to Panama about two years ago, and entered the employ of the United Fruit Company, and now occupies the important position of paymaster for

that immense concern. The chief industry of the country is the cultivation of bananas, and of course the principal amusement is re-

volutions. M1. Allen says the revolution germ seems to be in the blood of the native of Panama, and one never knows when to look for trouble of that kind. When Mr. Allen left Boca del Toro gentleman named Aires was president of the new republic, but he could not

speak authoritatively as to the present incumbent of that office, as he had not had a letter for a couple of weeks. The firm with which Mr. Allen is connected own nine banana plantations of from one thousand to eight thousand acres each. They load four teamers each week with this succu-

lent fruit and send them to United States ports. Mr. Allen says the natives are inclined to be languid and take life quite easily. The only occasions upon which they grow animated is when a revolu-

tion is being planned. Work has not yet been commenced on the Isthmian canal, but Colon and Panama are being put in a better sanitary condition preparatory to the inauguration of active construction operations. Hospitals are being erected, and in other respects these cities are being put in a position to accommodate the thousands of workmen who will be engaged in work on the canal. The receipt of \$10,000,000 from the United States government has placed the Panama government in a good financial position, enabling the members to fit themselves with Panama hats. United States gold is legal tender in crowd pressed so hard against the iron | Panama, and one gold dollar will buy two of the Panama gold dollars. Mr. Allan pays out \$100,000 monthly in United States gold to the employes on the pay rolls of the United Fruit Co. The climate is good and the girls pretty and gay, so that life is quite endurable, especially as the salaries

> paid are ab ut double those received for similar work in Canada. Mr. Allen left last night by the C. P. R. for New York. He will go from there to Mobile, and sail to Boca del Toro on one of the United Fruit Co.'s steamers.

74 Years of Age and Cured of Rheumatism by "Sun" Kidney Pills

Hampstead, N.B., Aug. 13th, 1904.

"I am 74 years of age, and have suffered for years with Rheumatism. My left leg shrank in size, and at times with my foot, was much swollen from the inflammation. Since taking "Sun" Kidney Pills, the pain has left my arms, the swelling has disappeared from my foot, and my leg has improved so much that now I can, at times, walk short distances without support, a thing impossible before. As a remedy for urinary weakness, I cannot steak highly enough regarding "Sun" Kidney Pills. I now retire to rest in comfort without having to arise during the night."

Think of the disadvantages of treating a case like this. Mr. Palmer was 74 years old. He had suffered for years. His kidneys were badly diseased. His whole system was filled with uric acid which caused the swelling. Yet "Sun' Kidney Pills cured him just as easily and as quickly as though it was a simple touch of
