BIG MANUFACTURING CONCERN MAY ESTABLISH BUSINESS IN ST. JOHN IN THE NEAR FUTURE

Mr. E. Tiffin, of the Intercolonial Railway Board of Control, paid a brief visit to the city on Saturday, returning to Montreal by the seven o'clock express. Mr. Tiffin has just returned from Montreal, where he spent the past two weeks, and was in attendance at the July meeting of the board on Tuesday last. Asked as to the nature of the business done at the session, Mr. Tiffin said that it was purely routine.

Speaks Business Has Increased. Speaking of the Intercolonial's business, Mr. Tiffin said that the receipts of the passenger department since the first of the year had been largely in advance of those during the corresponding period last year. While the freight end had not been really good since the year began, it had also shown something of an increase during the period.

A New Department. The most radical move which the board has yet made, said Mr. Tiffin, was that of organizing a department to further the commercial interests of the lower provinces by presenting their attractions as an industrial location for large outside concerns. To this end one man was now at work in Nova Scotia. His activities were being directed to gaining information from the boards of trade and like organizations in the towns of the province. The facts thus gained were being attractively presented to those firms whom the board judged would be most likely to be open for offers of

this kind. The provincial towns, Mr. Tiffin thought, would have to treat with them a little, as the manufacturers could not be induced to locate in the provinces unless inducements were offered such as exemption from taxes for a certain period.

One Big Concern is Looking Over Ground. Asked whether the efforts of the railway in this regard had borne any fruit as yet, Mr. Tiffin said that one very large firm from outside the province was now looking over the ground with an idea of locating a branch of their business here. They had not as yet reached a decision, but had gathered extensive information and were now considering the move.

There was a chance that this industry might be secured by St. John, but this town had no natural preference over several others. Whatever town was decided upon, would receive a genuine addition in the manufacturing line.

Would Not Give Particulars. Mr. Tiffin would not divulge the name of the concern, its business, nor the situation of its head office. As a final decision had not yet been made, he thought that such an announcement would be premature. The board he stated, was making no distinction between Upper Canadian and foreign firms, and would be glad to see the business of the provinces increased in any way which would give them more prominence, and add to the business of the Intercolonial.

PATENT LEATHER MORE POPULAR THAN EVER. "Despite the many predictions that patent leather had passed the meridian, the reverse has proved true, and makers of high-grade patent side leather, calfskin and calf are selling in greater quantities with each succeeding season. Shoe manufacturers have and are still placing orders for blocks as large as 5,000 and 10,000 sides, which does not look as if the wearing of the shiny shoe was on the wane. Patent leather has now reached a stage of such excellence that it has become as staple as any other kind of upper leather and everything indicated a still larger sale." CLIFTON POSTMASTER DISMISSED; NO COMPLAINT OF PARTIZANSHIP OR NEGLECT; OFFICE WAS NEEDED

Because he failed to vote "right" at election times, Mr. S. S. Carmichael postmaster at Clifton, has been dismissed by the Federal Government. His office was taken from him on Thursday, July 1st and given to Cleveland Wetmore, a lad of some 21 years, son of Mr. A. P. Wetmore, of Clifton. The news of Mr. Carmichael's dismissal came as a thunder bolt to most of the people there. A painstaking conscientious official, Mr. Carmichael has conducted the affairs of his office in such a way as to win for him the respect and appreciation of the people of the village.

If to be non-partisan in politics, means to not attend political meetings or caucuses to not canvass or try to influence people to vote for any other party, or not show partiality in the work of his office, then Mr. Carmichael was strictly non-partisan. He was a Conservative and so voted. Nothing else. Any dissatisfaction with the management of the Clifton Postoffice has not been named. It is said by Mr. Carmichael's friends to be a move on the part of Dr. McAllister, M. P., and Organizer Carter, to redeem some promise to reward the family of their friend the Kingston healer for the Liberal party.

ATTEMPTED TO KILL HERSELF LAST EVENING

Brunswick street was the scene of a rather unique disturbance last evening, the outcome being that one of the principals, it is said, attempted to commit suicide by drinking carbolic acid, supposedly because of a love affair. Miss Mary Murphy, her sister, who has just recently moved into the Brunswick street apartments, and a few others, were engaged in a domestic squabble.

Dr. J. M. Barry was summoned and when he appeared on the scene about eight o'clock last evening pandemonium reigned supreme and the profanity of the language used by the adversaries was unusual. Dr. Barry could find no symptoms of the poison, having been used, but the woman claimed to be in a slightly condition. The ambulance had been telephoned for before the doctor arrived. It reached the house after Dr. Barry left but Miss Murphy refused to go to the hospital. Whether or not she drank the poison is open to conjecture, but it is generally believed that no carbolic acid had been used, despite the fact that the woman had made threats to commit suicide, and was in a reckless, and despondent mood.

REV. A. A. GRAHAM REVIEWS WORK OF ASSEMBLY

Rev. A. A. Graham, who arrived in the city on Saturday, after spending a month in Ontario, during which time he attended the Presbyterian General Assembly at Hamilton, in an able sermon, which he delivered in St. David's church yesterday morning, reviewed the most salient features of the assembly, and spoke of the principal topics discussed there. The problems considered, he said, were all practical and the whole assembly was the most practical that has ever been held. He touched on the leading moral and religious questions taken up at the assembly, and also spoke on the report on church union, and the decision of the assembly on the report. The project, he said, would be submitted to the people in October of 1910, when the churches would have an opportunity of voting on it.

S. S. PICNIC AT WESTFIELD SATURDAY

Main street Baptist church held its annual Sunday school picnic at Westfield Beach on Saturday. The weather was not what it should be for such a festive occasion, but under the circumstances, the picnic was well attended. Parties of very fair sizes made the trip to the grounds by both the morning and noon-time trains. A list of field sports was to have formed a part of the day's programme, but the softness of the grounds interfered. The events will be run off this evening on the grounds in the rear of Victoria street.

SENT SEVERAL LARGE SALMON TO HIS FRIENDS

Mr. J. S. Kennedy, in his private car taking, reached the city on Saturday and left by the Boston train the same evening.
