## COUNTY CONVENTION OF THE W. C. T. U.

Reports of Different Unions  
Show Exceptional Progress  
for the Year—Officers Elect-  
ed and Other Business.

The county convention of the W. C. T. U., was held yesterday afternoon in the Seamen's Mission. The reports of the different unions were heard and officers elected for the year. Addresses were given on the Dominion Convention at Sherbrooke and on the new W. C. T. U. building in Toronto by Mrs. H. Sprague and Mrs. Bullock respectively.

It was noted that in the Fairville report the union there had assisted materially in the recent local option election by causing cards to be distributed among the voters.

They also distributed several of Bishop Casey's letters among the influential Catholic voters and in this way gained many votes for the temperance cause. The union has also done much good work by sending books, magazines and clothes to the lumbermen.

The St. John North union, reported that their flower mission had done good work last summer by taking flowers to the sick. The organization has also sent books and magazines to the lumbermen in St. John and Kings counties.

The Loyal Legion Lodge of the North union that was organized last April, has progressed favorably and now numbers about 45 members.

The St. John union reported having sent delegates to the associated charities and to the local council of women. It also reported many good works among the poor.

The Waycott "Y" have decided to send baskets to the poor families at Christmas and are hard at work getting them ready. The officers of this organization are, president, Miss Bullock; vice-president, Miss Elsie Creighton; secretary, Miss Wisely; treasurer, Miss Alice Murdoch.

The officers elected for the ensuing year are: president, Mrs. Jane McAvity; vice-president at large, Mrs. Dearborn; secretary-treasurer, Mrs. Lockhart.

The presidents of the local unions are: North End union, Mrs. James McAvity; St. John, Mrs. Dearborn; Fairville, Mrs. Hansen; Carleton, Mrs. Scott; North End, Mrs. W. Smith and Miss Lockhart, St. John.

## AMUSEMENTS.

Wonderful Picture at Nickel.

Clinging to the top of a racing stage coach with six infuriated horses well in hand, the Beauty Co's famous lady driver and horsewoman in general makes "The Stage Coach Driver's Daughter," the most exciting film the country has ever turned out and those who see it at the Nickel today and tomorrow will go through a series of sensations that has never before been their lot before. The camera that caught the pictures is located upon the dashing coach and all the thrilling and swaying of the vehicle is felt by the watcher as well. It is a remarkable picture and well worth the seeing. The other pictures of note are Edison's "Tune of a Kind," a scenic comedy in which a party of players take burros, or little donkeys, and travel for a day through the wondrous scenery of the Garden of the Gods in Colorado. The Vitaphone Co. have arranged of their sweet child, the wonderful My Heart, introducing Home Sweet Home. Mrs. Besette has a couple of good new picture numbers for the next four days.

On Monday next the Nickel will introduce to its patrons the clever little dancer-vocalist, Princess Elizabeth, of Philadelphia, stated to be the cleverest child performer that has worked the eastern "time." On Thursday at 7 o'clock, the Nickel will show "The Song That Reached My Heart," introducing Home Sweet Home. Mrs. Besette has a couple of good new picture numbers for the next four days.

## SPIRIT OF THE PEOPLE IS SECRET OF WEST'S PROGRESS

"What's the secret of the progress in the Canadian west? There's no secret," said Sir John Eardly-Wilmot, who has spent four years ranching and developing a fruit farm in the west, and who arrived at the Royal yesterday on his way to England for Christmas.

"And what supplies the spirit of the west?" asked the reporter. "Well, men go out there with high hopes," said the young Englishman. "And when men have large expectations they put a lot of energy into their performances. Very often they don't find things as they expected, but a hopeful spirit and an optimistic outlook, and they resolutely keep their minds fixed upon the bright side of things. It's largely the mental attitude of the people, the determination to succeed, the serene faith in the future, that is making things boom in the west. No doubt the climate also has something to do with the western spirit. It's a splendid climate, bracing, invigorating."

"In the west men refuse to be discouraged by anything. Their faith in themselves is always surprising and as stimulating as their local patriotism. Every man believes that he lives in the best town or city or on the best homestead in the land; at least he is always boasting his own place. "Canada is the country for me; I like the life out west, and I believe that Canada has a great future, a splendid destiny. No, I would not like to spend all my days in England after the taste of the life of this country which I have had. It's different out here, you know. A man can take off his coat and go to work, and it is all right, you know. I'm trying to develop a fruit farm in the Kootenays. I've been four years at it, and expect it will be four more before I begin to make anything."

"What do you pay for fruit lands out there?" "In many places \$100 an acre for wild land. By the time you have cleared of trees and rocks and planted your trees, it will cost you \$500 an acre or more."

"Do you know an English agriculturist expert who was in St. John some months ago declared that a man could get fruit lands in the St. John River Valley for about \$20 an acre equal to land bringing \$500 or more in British Columbia?"

"That is not saying much for you people in the east, is it?" said Sir John. "Why don't you develop your land? I don't doubt you can raise as good fruit in New Brunswick as you can elsewhere."

"British Columbia is a country very

difficult to open up, owing to its mountainous character, and it has not many districts suitable for fruit raising or farming. Road building is an expensive process. When I want to go to town I have to travel along a lake for a distance of about sixty miles."

"Do you think there is any danger of the boom collapsing?" "I don't see any special danger. There is a good deal of speculation no doubt in the cities, but there is a great deal of solid development work going on. The government is increasing the tax on lands held for speculative purposes, and that is a good thing. One does not have to pay much taxes on improved lands, and if people don't improve and utilize their lands they ought to be taxed to the limit."

**L. O. L. Officers.**  
At a largely attended and enthusiastic meeting of the L. O. L. No. 141, held last evening, the following officers were elected for 1912: Harry Sellin, worshipful master; Walter Logan, deputy master; W. H. McPherson, recording secretary; Geo. E. Chase, financial secretary; Geo. T. Corbett, treasurer; Wm. Cooper, chaplain; W. W. Williamson, lecturer; Silvian Leighton, director of ceremonies; W. Fred Rowley, foreman of committee; Jewishish Howe, 1st committee; Isaac Hutchison, 2nd committee; G. G. McQueen, 4th committee; W. E. Walsh, inside tyler; Robt. McKay, outside tyler. The reports submitted at the meeting showed the lodge in a flourishing condition. The installation of the newly elected officers will take place on the third Tuesday of this month.
