

Get  
**The World's Best  
CREAM SEPARATOR  
In The First Place**

You cannot be satisfied long with an inferior cream separator. If you got an inferior machine, you would continually wish you had the World's Best.

**The  
Sharples Dairy Tubular**

Then why not get a Sharples Dairy Tubular in the first place? Later than and different from all others. Only simple separator. Only modern separator. Built on the only known principle of constructing a simple separator. In world-wide use for many years. Patented. Produces twice the skimming force of common separators. No disks or other complicated contraptions in the bowl. Skims faster and twice as clean as common separators. Many times easier to clean, wears several times longer. Undoubtedly, self-evidently superior to all others.

**GUARANTEED FOREVER**  
Behind that guarantee is the oldest separator concern on this continent. We made the first cream separators manufactured on this continent. Write for catalogue No. 193. See Tubular superiority for yourself.

Two Minute Talks About  
**PANDORA  
RANGE**  
for Coal or Wood

**How  
It  
Will  
Save  
Fuel  
For  
You**

Of course the Pandora Range is a few dollars more than an ordinary range. But it will soon pay for itself in the fuel it will save for you.

The Pandora Flue System and Wide Fire Box, designed by our brainy stove experts, save about half a ton of coal per year, because they supply more air than the flue systems and fire boxes of ordinary ranges, causing better combustion of fuel.

The Steel Oven saves some more fuel, because it heats up more rapidly than a cast iron oven. The heavy Fire Clay Coating on the main bottom of range prevents any heat wasting towards the floor. It drives the heat back into the oven, and thus saves still more fuel.

But the big economizing feature is this: The draft for cooking on top of the range is also the draft for baking in the oven. The heat does double duty and your fuel bill is largely reduced.

Get the Pandora---the range that pays for itself. No other range is high-class enough for you.

This Cylinder Shows Why The  
**"EUREKA" Root Cutter**

is the best on the market. See how it is designed. Grooved knives, with the grooves on one side opposite the teeth on the next. Instead of shredding or pulping, the "Eureka" turns out roots in strips—thin narrow strips—suitable for any kind of feeding.

The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it. In the "Eureka" the feed is kept free from dirt, the feeder bottom being made with iron rods, thus allowing all dirt to drop out before it can reach the shredding cylinder. The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully.

**British Plowmen  
for Canada.**

The Canadian Northern Immigration Department, through its agencies in Great Britain, will furnish plowmen, who are also all-round farm hands, to Canadian farmers.

The men are selected from hundreds of the very best class of land workers who are anxious to come to Canada, but require assistance for the passage, which would be paid by deduction from wages.

For further information write to:  
**THOS. HOWELL,**  
General Immigration Agent,  
Canadian Northern Railway,  
54 King St., East, Toronto, Ont.

**LAND  
FOR THE  
SETTLER**

160 acres of land convenient to railways, for the Ontario's great Clay Belt, ideal settler.

The soil is rich and productive, and covered with timber.

For full particulars as to terms of sale, location, regulations, and special privileges, write to:  
**DONALD SHERLAND,**  
Director of Lands, Ontario, Parliament Buildings, Toronto, Ont.  
The Hon. J. DUFF,  
Minister of Agriculture.
