DRY CLEANING

The Dry Cleaning Process is one of the most important discoveries of recent years. By means of it dainty fabrics of delicate colors are cleaned without injury and returned to you with practically all their original beauty.

¶ Think of renovating such articles as evening costumes of finest silk, opera cloaks, laces, curtains, blankets, gloves, feathers, slippers, gentlemen's suits, etc., without removing in the slightest the original hang and swagger of the garment. Think of all this and you will understand what works such as these stand for.

¶ Our special processes and long experience are such that you simply cannot know the possibilities of this kind of work without consulting us. Work that your local cleaner knows nothing about.

¶ We have an attractive booklet which tells in detail about our work—its scope and quality—and it suggests ways in which we can help you. We will be glad to send it to you on request. Find out more about our work.
