All persons who were born when either the Sun or Moon held the first degree of either *Leo* or *Scorpio* will be in danger or trouble; the King of Italy being one of the sufferers from this baneful square of the malefic planets. There will be a crop of accidents on railways about the middle of the month, and railway securities will be depreciated in value, for Mars will be in the third house at the moment of new moon. The stationary position of the benefic Jupiter in the first term of the sign *sagittarius* is fortunate for Spain and Hungary; and for all persons who were born when either the Sun, Moon, ascendant or midheaven, held the seventh degree of ♄. The planetary positions at the vernal ingress are very favorable to the prosperity and honor of Great Britain.
