

CONCLUSION.

The Committee hope that the facts submitted in this report—facts, pointing to success as well as to spiritual destitution—will stir the friends of the Society, as well in England as in this country, to continued and increasing exertions in the cause of the poor and the uneducated; and they pray that they may be enabled to follow up with vigour the efforts that have contributed so much to the Mission work of the city, and to the extension amongst the masses of sound scriptural education; and they humbly ascribe to the Triune Jehovah all the glory.
