Emporium Price List for April.

	Peck.	Bush.	Bush.
BRESEE'S PERLESS—The latest and best of all Mr. Bresee's seedlings; a splendid white variety; grows to a large size, often weighing from 1 to 1 1/2 lbs. and enormously productive.	\$ 50	\$1 50	
BRESEE'S EARLY ROSE—This is a very good and productive potato, and has now become the standard for earlies. For general use, we think it preferable to the King of the Earth.	30	1	
BRESEE'S PROLIFIC—This is an excellent potato; cooks quickly; is very early, of excellent quality; yield very large, and matures three weeks later than the early Rose.	37 1/2	1 25	
CLIMAX—In productiveness this is quite equal to the Early Goderich, while its keeping qualities are as good as the Peach Bl.	50	1 50	
EXCLUSOR—A superior table variety, cooks white and dry, of excellent quality; very productive, and keeps well.	37 1/2	1 25	
CALICO—A large potato, not very large, but yields well, and is a fine sort for early winter use.	25	1 00	
WILLARD'S DUBLING—This is of excellent quality, not liable to rot, and pronounced by Arnold Mitchell and others as one of the best varieties for winter use.	37 1/2	1 25	
HARRISON, GODERICH AND PEACH BLOWS	25	1 00	

MANGEL WURZEL.

LONG RED MANGEL—A large long variety. It stands a good deal out of the ground; color light red; flesh white and rose-colored; leaves green, veined with red. It is early, and sometimes used for the table when young.	lb.	25
YELLOW GLOBE—A large round orange color variety, excellent quality, keeps better than the long red, and produces better crops on shallow soil.	30	
RED GLOBE—Differing from the preceding only in color.	30	

WESTERN CORN.

This is one of the most profitable crops to raise where feed for stock is required; every one who has tried it speaks highly of it; it will yield 20 tons per acre of very superior feed; may be sown in drills or broadcast; it requires good clean rich land; 3 bushels of seed per acre.

HOME ENTERPRISE.—While in Toronto recently we had occasion to call at the pianoforte establishment of Messrs. Heintzman & Co., on King-street; and we were much gratified to see the evidence of a large business done. Time was when we in Canada had to import all such instruments at an exorbitant price; now, however, we are pleased to know that the firm referred to manufacture pianos which are equal in every respect to those brought from Boston or New York, and very considerably lower in price. Let us give our home industries a liberal support.—[Ass'n.]

VERILY IT HATH NO EQUAL.

Would you cure that distressing Cough and bring back that healthy vigor lately planted in your cheek? If you would do not delay for ere you are aware it will be too late!

Allen's Lung Balsam is your hope; it has been tried by thousands such as you, who have been cured; many, in their gratitude, have lent their names to us that suffering humanity can read their evidence and believe. Don't experiment with new and untried mixtures, you cannot afford it, but try at once this invaluable article; it can be found in any drug store and at most general stores. It is warranted to break up the most troublesome Cough in a few hours, if not of too long standing. It is warranted to give entire satisfaction in all cases of Lung and Throat difficulties.

Price \$1 per bottle.

Burlington.
Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the west? The best line is acknowledged the C. & O., joined together with the B. & M. Railroad by the Irish Bridge at Burlington, and called the Burlington Route.

The main line of the Route running to Omaha, connects with the great Pacific roads, and forms to-day the leading route to California. The middle branch, entering Nebraska at Plattsmouth, passes through Lincoln, the state Capital, and will this year be finished to Fort Kearney, forming a direct route across the Continent by over 100 miles.

Another branch of the B. M. diverging at Red Oak falls into a line running down the Missouri through St. Joe and Kansas City, and all Kansas. Passengers by this route to Kansas see Illinois, Southern Iowa, and Missouri, and by a slight divergence, can see Nebraska also.

Lovers of fine views should remember the Burlington Route, for its towns "dichloaming from afar"—its tree-fringed streams—its rough bluffs and quarries—its tree-fringed oceans stretching over the prairies further than eye can reach.

Land-buyers will be sure to remember it, for they have friends among the two thousand who have already bought farms from Geo. S. Harris, the Land Commissioner of the B. & M. R. R. at Burlington, Iowa, or among the four thousand homesteaders and pre-emptors who last year filed claims in the Lincoln land office, where "Uncle Sam is rich enough to give us all a farm."
