Manor Farm Clarkson, Ont.

RIDGEDALE STOCK FARM

Offers for sale several young bulls from high testing dams; one born in February, whose dam, LAKEVIEW DUTCHLAND WAYNE ROSE, is the highest producing cow of her age in the world. At 2 years and 8 months she made 3171 lbs. butter from 5104 lbs. milk, in 7 days. He is sired by King C. Segis, direct blood of King Segis and King of the Pontiacs. We also have a half dozen others of less value.

DR. F. A. HESLOP, PROP., R. R. No. 1, FREEMAN. Chas. Heslop, Manager.

Arthur Peas.

This variety stands to-day among field peas as the earliest in commerce that will give profitable yield. There are earlier field varieties and very early varieties among the garden sorts, but they will not return, when grown for general purposes, a commensurate profit on the labor expended. It has held true, as it does in practically all classes of grain, that the advance has been made at a slight sacrifice in yield, but as the Arthur matures some three to ten days in advance of the Golden Vine and Prussian Blue varieties, depending entirely on the district, this slight loss is a negligible factor in the parts of Canada where, if the Arthur variety were not grown, it would be practically impossible to grow peas with either satisfaction or profit.

The Arthur variety carries its flowers in a cluster or "crown" at the end of the vines, thus differing in habit from the other varieties, Golden Vine and Prussian Blue which bear their flowers distributed at various points over the stems. It is thought that this characteristic renders the Arthur variety somewhat susceptible to injury in districts where very dry heat prevails at time of flowering. The results from our southern prairie stations where it gives a slightly lower yield, especially at Lethbridge, Alta., tend to confirm this opinion.

This variety serves its best purpose in the northern districts, within the fifty-first and fifty-fourth parallels in Western Canada and all the northern districts of the eastern provinces extending up to the fifty-first parallel. Small districts lying within the defined territories, subject to both late spring and early fall frosts, may find even the Arthur variety too late for their peculiar conditions. It must not be assumed that this variety is only suitable where its early maturity offsets its slightly lower yield. In the eastern provinces, in many cases, it yields equally well with the Golden Vine and Prussian Blue varieties and, on account of its superior color and quality, frequently commands a higher price on

Brant County Holsteins

IN THE FIFTH ANNUAL CLUB SALE

THIRTY-SIX FEMALES — FOUR YOUNG BULLS

Selling at Hunt & Colter's Livery Barns, in the City of
Brantford, Ont., Tuesday, April 2, 1918

ONCE more the Holstein Breeders of Brant County and district ask your co-operation in making their annual sale the usual success, having consigned to this sale forty head of as choice cattle as were ever offered in the history of the club. The thirty-six cows catalogued are young, and mostly all freshen around sale time. The four young bulls are all real strong calves and extra well bred.

YOUR PRESENCE AT BRANTFORD IS AGAIN REQUESTED ON APRIL 2nd

For Catalogues Apply to:

N. P. SAGER, ST. GEORGE, ONTARIO

E. C. Chambers, President

W. Almas, Auctioneer

SUMMER HILL HOLSTEINS

A number of choicely-bred bulls. One a real show bull, beautifully marked, dam a 30.76 junior four-year-old; sire's dam 34.60. The three nearest dams average over 100 lbs. milk a day. Can spare a few good heifers.

D. C. FLATT & SON,

R. R. 2,

HAMILTON, ONT.

MAPLE SOIL STOCK FARM OF HOLSTEINS

I am offering a few choice heifers, sired by King Segis Pietertje, that have just been bred to Finnerne King May Fayne; also some heifers and cows due to freshen all the way from February until April. All bred to Finnerne King May Fayne; a few heifer calves sired by Finnerne King. Get some good ones.

Dispersion Sale of

REGISTERED HOLSTEINS

(THE PROPERTY OF COL. JOHN A. GUNN
will be held on

Friday, April 5th, 1918

At the Union Stock Yards, Toronto

Inadequate railway service and scarcity of efficient help compel us to go out of dairying. The herd is being sold in Toronto as train connections for Beaverton are not good for buyers from a distance. Some 30 of the herd are now bred to Echo Segis Champion, whose sire is a full brother of May Echo Sylvia. For Catalogues (Ready March Fifteenth) Apply to:

THE DUNROBIN FARMS, BEAVERTON, ONT.

29.68 lbs. butter, 563.7 lbs. milk

as a junior three-year-old

This is the official record of

Burkeyje Hengerveld May Echo (12658)

Her dam "Burkeyje Hengerveld", is Canada's first 20,000 lb. 4-year-old. Her sire is a son of "May Echo" and a 3/4 brother of the great "May Echo Sylvia" (world's champion).

You can buy her son, sired by "Hillcrest Ormsby Count", a son of "RAUWERD COUNT DEKOL LADY PAULINE," 29,000 lbs. milk, 1,113 lbs. in 1 year, 112 lbs. milk in 1 day. Dam of K. P. Rauwerd, 3,413 lbs. butter as senior 3-year-old, 103 lbs. milk in 1 day.

Where Can You Equal This for Production and Re-Production?
He is largely white in color—a beauty. Write us for Price, etc.

JOS. O'REILLY, R. R. No. 9, PETERBORO, ONTARIO

DUMFRIES FARM HOLSTEINS

Present Offering—A few bull calves.

S. G. & ERLE KITCHEN

ST. GEORGE, ONT.

the markets. The Golden Vine and Prussian Blue varieties are, however, old standard sorts which give high yields and wherever the grower has had success with either of these, untroubled by the problem of maturity, we would not recommend him to change for the Arthur. In the extreme southern parts of Alberta and Saskatchewan, we would recommend these varieties in preference to the earlier sort.

In peas, as in all other classes of grain in Canada, there is a keen need for early, productive varieties. Within certain limits the problem of securing the combination of earliness with a large yield can be solved by plant breeders, and it is not too much to expect that the Arthur variety may some day be replaced with an earlier-maturing field sort that will give an equally large yield. Until that time, the Arthur variety can be recommended universally in Canada to all farmers who find difficulty in ripening field peas before frost, or who are anxious to grow a fairly prolific sort that will produce seed of fine quality and high market value.—Experimental Farm Note

Gossip.

Springhurst Shorthorns.

Of the four bulls advertised in these columns by Harry Smith of Springhurst Farm, Exeter, Ont., all are of serviceable age and all may be called herd sires. Like Mr. Smith's offerings at all times these youngsters have been well grown, but in no way forced, which should add greatly to their worth at the head of a herd. One is got by Blarney Stone consigned to be the best sire ever used at Springhurst, and one is got by his son, Volunteer, the present herd sire at Springhurst. This young sire is following a close second to his sire with every prospect of being equally as famous at maturity. Another of the four calves referred to is also a thick, mellow fellow of the right sort and is got by the noted Roan Lady bull, Reiner, while the fourth is somewhat of plainer breeding although a right good individual. Write at once for full particulars about these bulls and a very limited offering in females.
