### MENDLESS SOCKS GUARANTEED

Mendless socks are the latest thing in footwear available to mankind. The other kind, the kind that needs mending is common enough, but the mendless sort is a later creation. They are made particularly to stand the wear and tear of hard use, are built double as thick on the heel and toe, and guaranteed by the makers to wear six months. These socks are made by the Gardiner Connolly Mfg. Co., 546, Somerset Block, Winnipeg. They are sold in boxes of six pairs, a guarantee going with every sock. For the man who doesn't care to wear a sock full of holes, and hasn't an opportunity to have his footwear mended, these socks are a boon. They come in all sizes and colors, six pair to a box, guaranteed for six months, or money refunded. The man who is looking for something really reliable in the sock line has here his opportunity. The price is \$2.00 per box, prepaid.

### GOSSIP

A certain drill sergeant, whose severity had made him unpopular with his company, was putting a squad of recruits through the funeral exercise. Opening the ranks so as to admit the passage of the supposed cortege between them, the instructor by way of practical explanation, walked slowly down the lane formed by the two ranks, saying as he did so:

'Now, I am the corpse. Pay attention.'

Having reached the end of the party, he turned round, regarded them with a scrutinizing eye for a moment or two, then remarked:

'Your 'ands is right, and your 'eads is right, but you 'aven't got that look of regret you ought to 'ave.'

The Gourlay Piano offers you, in the most artistically finished and durable form, an instrument with a resonant singing tone and action responsive to every gradation and it has found favor everywhere with touch. From its general excellence, it has found favour everywhere with musical people.

### FACTS AND FIGURES ABOUT THE WORLD'S HORSE SUPPLY.

The total number of horses in the world is estimated to be about 80,000,000, of which number 40,000,000 are in Europe, 11,000,000 in Asia, 25,000,000 in the American continent, and 1,250,000 in Africa.

According to the returns for 1907 of the Board of Agriculture there are in Great Britain and Ireland just about 2,000,000 horses used for agriculture, unbroken horses and breeding mares. It is estimated that there are also about 950,000 for business or pleasure purposes, and there are nearly 35,000 cavalry horses, making a total of about 3,000,000 horses in the United Kingdom.

Germany possesses, according to a census taken in 1900, 4,184,000, and has to import a small number to complete her requirements, so there is no surplus available for sale.

France has 2,900,000 horses, and wants them all. In Algiers there are 205,000, and in Tunis 35,000. For mobilisation, the number required would be 577,620, and in peace the army uses 122,700. In case of war there would be great difficulty in collecting the necessary number of suitable animals.

Italy has 720,000 horses. About 40,000 are yearly imported, chiefly from Hungary. Great efforts are now being made to increase the production, so as to make the country independent of foreign supplies.

Austria-Hungary has 4,020,000, of which Austria possesses 1,711,000, and Hungary 2,309,000. The Hungarian horses bought for our use in the Boer War proved very unserviceable. To the surprise of our experts.

Russia.—In Russia there are more horses than in all the rest of Europe together. According to official returns there are 21,740,474 in European Russia, 1,316,558 in Russian Poland, 1,273,522 in the Caucasus, and 4,781,230 in Siberia and the Steppes. During the Boer War we used 40,000 Russian horses, and they answered very well for our mounted infantry, especially the half-wild, small animals from the Steppes.

Every six years all horses are examined and registered. Russia can supply eight horses for every man in the army.

Sweden has 525,000 horses, and Norway 151,000. In both countries the breed is being much improved by the importation of English horses.
