

CHEAP SEPARATORS

For various reasons some folks feel they can't afford to buy a NEW IMPROVED DE LAVAL Separator, but recognizing the need of a separator of some kind send \$30.00 or \$50.00 to a Mail-Order House, receiving for their money even less separator value. They might have bought direct from our warehouse a rebuilt DE LAVAL separator of greater capacity and infinitely superior skimming qualities with our guarantee and the protection which our organization affords for the same or less money. These rebuilt machines represent real separator value.

Don't Judge a Roofing By Its Looks

On the surface, most ready roofings look the same.

But the weather finds the hidden weakness.

The weather finds the vegetable fibers in the fabric and rots them.

The weather finds the volatile oils which are concealed below the surface. The sun draws these oils, in globules, to the top of the roofing, where they evaporate in the air.

Where there was a globule of air, there remains a hole. And behind each hole is a tiny channel which lets the weather and water into the very heart of the roofing.

When the sun and the wind and weather have sought out the hidden weaknesses, the roofing is porous, instead of solid; watersoaked, instead of waterproof.

You can't tell by looks, which roofing will last twenty years, and which will go to pieces in a single summer.

Seventeen Years of Service

But you can do this: You can tell the original Ruberoid roofing—the only roofing which has lasted seventeen years—from the 300 substitutes which have proven their unworthiness.

Ruberoid was the first ready roofing. Its basis is the best wool felt impregnated with Ruberoid gum.

It is this wonderful flexible gum which no other maker can duplicate.

It is this gum which gives Ruberoid all the flexibility of rubber without containing an iota of it. It is this gum which withstands wind, weather, sun, fire, acid, gases and fumes, where all other compounds fail.

It is this gum, in the Ruberine cement which accompanies each roll of Ruberoid roofing, which makes ours practically a *one-piece* roofing—sealed against leaks—sealed against the weather.

Ruberoid comes plain and in colors. The attractive Red, Brown and Green Ruberoid are fine enough for the costliest home. And the color feature is exclusive—protected by patents.

In the past twenty years we have had experience not only with all ready roofings, but with other roofings—shingles, tar, tin, iron and other roofings.

We Test All Roofings

Each roofing we have exposed to the weather test, on our roof garden at our factory.

The result of these twenty years of tests we have written into a book which will be gladly sent you free.

This book is a gold mine of roofing information, telling about the advantages and disadvantages of each roofing for each purpose. To secure a copy, address Dept. 973 The Standard Paint Company of Canada, Ltd., Montreal.

RUBEROID

(TRADEMARK REGISTERED)

Be sure to look for this registered trademark which is stamped every four feet on the under side of all genuine Ruberoid. This is your protection against substitutes which many dealers brazenly sell as Ruberoid. Ruberoid is usually sold by but one dealer in a town. We will tell you the name of your Ruberoid dealer when you send for our free book.

We have now a circulation of over 25,000, but we wish to increase it to 35,000 by the end of the year. As a special inducement we offer the FARMER'S ADVOCATE & HOME JOURNAL from now until December 31st for 25 cents. Now we want you to tell your neighbor, who does not take the ADVOCATE, about this generous offer. Help us NOW.

Geo. Bradbury, M.P.

of SELKIRK, Manitoba

upon being interviewed by a reporter of the DAILY NEWS of Nelson, B. C., said :

"I have travelled a good deal, but never have I seen anything to equal the trip down to the Arrow Lakes from Arrowhead to Robson. It really was a revelation to me and I am sure would be to thousands upon thousands of others were the tide of tourist travel directed this way. All that is required is the proper advertising and additional facilities for traffic to make this one of the most popular summer routes on the continent, or, as a matter of fact, anywhere in the world. One of the chief needs, if I may be permitted to make a suggestion, is a first class tourist hotel such as the C. P. R. maintains at other points, and I think Nelson is the place for it."

That is the kind of a country we are inviting you to come and settle in. It is the land that in a magazine article in "The World Today" for October, '09, is described as "Another Play Ground for the World." Any newsdealer can get it for you, or send 15c. to Chicago for it.
