FRIDAY, AUGUST 2, 1850.

Wrigh by Jury. We mentioned a few days ago that an admirable letter had appeared in the Montreal Gazette from the per of Mr. Arantam, in which he had pointed out the invasion of the rights of the subject inted by a Bill-brought in by Mr. Drummond, by which the Court of Queen's Bench is empowered, on application of the Crown, to change the venue in criminal cases from one Judicial District to another, or, in fact, to one in which there may be found a more accountrodating Jury.
Thus it would but suit the views of the Ministeof riot on the 25th of April, '49, to Three Rivers, for trial before a French Jury, or one of the St. Gregoire School obstructionists to Montreal, before an English Jury. It is just as if the Irish trial. Government were to be invested with power, at its pleasure, to send an Orangeman for trial to

of the County Down. In England, the sense is never changed in criminal cases. We recollect, not many yours ago, that two persons, to be tried at the Exeter Assizes, (they had been seconds in a duel wherein one of the principals fell;) applied to the Court for a change of the sease, which was declared to be impossible by the Court, although it was proved that the public mind was frightfully excited on the matter, that the walls were covered with placards of the most violent character, and that there was every reason to fear that an impertial Jury could

not be obtained in that County.

Now if in England it is not thought necessary to give to a Court of Criminal Justice power to change the senue, even on the application of the necessed how much more dangerous would it be in Canada to give the Caown, as Prosecutor, the power to change the senare, knowing that the DROWN here means the Ministry, and that Canadian Ministries entertain towards their political

passion must be prevented for the future, (we vonder if Ministers are quietly contemplating any measure likely to lead to a fresh explosion,) her it be to secure the conviction of ram pageous Montreal British, or obstructive St. Gree Frenchmen, the palladium of British liberty is to be trampled on, and a violation of the liberty of the subject perpetrated, worthy of the worst days of Scroggs and Jefferies, but which even they yould not have dared to attempt.

It is an inherent part of Trial by Jury that the tries distill takes place within the jurisdiction wherein the crime is committed, and it is our firm belief that, as Mr. Assamas says, even should the Parliament pass an Act enabling the Crown to change the venue, as contemplated by this Bill, the Act fiself would be unconstitutional, and so of up affect.

The result, we now know, was a complete triumph in the two first trials to the engine of Perry, owned by Mr. Mule, and sold, we understand, to the Inspectors of the Kingston Penitentiary. We do not profess to be much versed in such matters, but we should say that the engine of Perry far exceeded that of Lepoge in the solidity, as well as besuty, of the

MONTREAL, 1st August, 1850. DRAR SIR, - It is fitting in this note to you t express, at the outsut, my segret that, through a mental abstraction, for which I cannot account, i was led to the commission of an error in my ca-pacity as Judge on your behalf, which resulted, I must say, wrongfully and exceedingly unhandsomely, in the loss of the stakes in the third trial of your Engine with the Montreal yesterday hand unfortunate as the result was to you, and mortifying to me, the very error occurred from the supe riority of your Engine, for, being stationed at the Montreal, I state distinctly that your Engine flowed her over, or, in Fireman's language, flooded the Montreal for some seconds before I struck the bell. Mr. Daniel McNevin, who was standing by me, and Mr. Alfred Perry, who held the

Товенто, July 30, 1850. Mr. Baldwin stated in the House yesterday

that it is intended to protogue on the 8th; thus confirming the information I sent you last week.

The Mayor and Council, and leading citizens of Buffalo, are invited to visit Toronto on the 8th August. Great preparations are to be made for their reception. It is, of course, incumbent on the Torontonians to return the compliment of an invitation to the Buffulonians, who made such great preparations for the reception of the Canaian Governor and Members of the Legislature. A deputation from this city has waited upon the

An anecdote was told of Sir Robert Peel, soon after the French Resolution of February, 1848, which, for the light it throws upon his general course and motive of action, is well worth repre now. On the night the news arrived of that reve lution, a popular manher of the House of Common had occasion to consult him on some parliamentar; und, this finished, made, an allusion (a what had just taken place in France. NALYSIS OF MENERAL WATER OF POINT DU JOUR.—From Mr. Hunt's lysis of the Water of the Mineral Spring at it du Jour, near L'Assountion, I infer that it prove a valuable addition to those already overed in Canada. Canada, be well adapted to cases of scrofula

appears to be well adapted to cases of scrofula, ases of the skin, gout, rheumatism, and dyslic complaints generally. Interal Water to be useful should be taken for a time, and when it seems to lose its effect, from another spring should be substituted; one not agreeing with an individual, another yark kindly and effectually. Weak and delipersons should seek the advice of a physician a regard to the employment of these waters.—rould be a great blessing to society if these fuctions from the laboratory of nature were to ensede the vile and heterogenous compounds, which the world is curied, under the name Patent Mediciones."

Patent Medicines." Wh. NELSON, M. D. eal, 11th March, 1850 certify that I have used the Point du Jour ng Water in my practice, and have found it to he a mild-purgative and alterative. From the hity of Iodine it contains, it will, I deabt not, bund useful in acrofulous diseases and in some a of syphilis, in addition to other remedies.
