DR. CLARK SCORES HIS OWN PARTY

Dr. Michael Clark, the noted Red Deer Liberal, whose speech in support of the Government last session attracted national attention, has once again been compelled to repudiate the petty partizanship of his own party. In a great speech before the Toronto Club last week Dr. Clark made withering reference to the "political partizans," and the men who talked of Canada bankrupting herself for the Empire, and proceeded: "Canada has done well. Some people think that she has shown some little signs of faltering. I do not believe that there is faltering. It is true we heard an echo lately, which was only an echo, and died away, as such things deservedly do."

"The question was asked somewhere—and I am sorry that such a question should have been asked: 'Are we going to bankrupt ourselves for England?' I know I am on dangerous ground, I can't help it. I have a habit of saying what I think. That question did not arouse so much indignation in my mind as pity—pity that any young Canadian should have so failed to grasp the magnitude of the issue, and pity in the second place that any young Canadian should have gone over the history of the British in this war and her history of other days and fail to realize that Britain is going near the verge of bankruptcy for the world's freedom."

And after this scathing arraignment of the man whom Sir Wilfrid endorsed as "My dear Lucien" Dr. Clark proceeded to address himself to the mad partizans of the Opposition as follows:

"There are grouchers and grubblers—yes, and there are profiteers and political partizans, and I would send the whole four groups to somewhere they weren't so likely to be run over by steam engines as they would be were they at the mercy of Canadians such as are represented here."

This strong condemnation of the disloyal utterances of men in the Liberal party like Lucien Cannon, and of partizan blatherskites in the same party like the Kytes and the Carvells, does not come from a Conservative. It is the verdict of a sturdy Liberal as this country has known since the days of Cartwright and Blake—a Liberal of the British school, one who has walked by the side of British Liberals like Gladstone and Morley and Asquith and Grey. And it is a verdict that will cause a searching of hearts among the honest, British Liberals of this country.
