

The coming Referendum

Vote and Vote "Yes!" on April 18

THE Ontario Temperance Act as a war-time measure was an unqualified success.

On October 25, 1912, the people of Ontario voted by an overwhelming majority in favor of the permanent continuance of the Ontario Temperance Act, prohibiting the sale of intoxicating beverages.

The "Bootlegger" Must Go

On December 31, 1920, came the repeal of the Federal Order-in-Council—which was also a war-time measure—prohibiting importation, manufacture and export of intoxicating beverages.

Thus it became possible for individuals in prohibition provinces to import liquor from the United States into the home; thus the "bootlegger" is able to offer the same for sale contrary to law, and thus the expressed will of the people in this province is being defeated.

Importation Must Cease

Everything that applied in the last vote against the sale of intoxicating beverages within this province applies equally to the use of them, and their importation for beverage purposes should also be prohibited.

Hence arose necessity for further legislation and another Referendum.

Shall the Importation and the bringing of intoxicating Liquors into the Province be Prohibited? **YES!**

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.
