

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED
Health Fully Restored and the Joy of Life Regained

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: She has been feeling "out of sorts."

For some time, head has ached and back also; has slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart-beats very fast; then that bearing-down feeling, and during her menstrual period she is exceedingly despondent. Nothing pleases her. Her doctor says: "Cheer up, you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES. Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Madame Josephine Riville, Mastai, Que. She writes: "I suffered for four years with female troubles, inflammation of the stomach and intestines which caused me violent pain and often vomited, so much so that I could not walk at times and attend to my daily duties. Life was misery to me. I was so blue and despondent I did not know which way to turn for relief. I had tried the doctors but they did not help me. I was advised to try Lydia E. Pinkham's Vegetable Compound, so I bought a bottle. I am glad that I did so, for I am well and strong to-day and the world looks bright, for I have perfect health, thanks to your medicine."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

A SYMBOL OF PEACE.

The Dove Has Had This Distinction In All Ages Since the Flood.

The dove has been pictured as the bird of peace by writers and artists in all the ages since the time of the flood, for the dove has figured in the symbolism of many races and of countless generations. According to the Century Dictionary, the dove is the bird of peace because of the incident recorded in the eighth chapter of Genesis: "And it came to pass at the end of forty days that Noah opened the window of the ark which he had made, and he sent forth a raven which went to and fro until the waters were dried up from off the earth. And he sent forth a dove from him to see if the waters were abated from off the face of the ground, but the dove found no rest for the sole of her foot, and she returned unto him in the ark. And he stayed yet another seven days, and again he sent forth the dove out of the ark, and the dove came to him in the evening, and in her mouth was an olive leaf plucked off; so Noah knew that the waters were abated from off the earth."

Proper names derived from the dove have always been used in the orient as descriptive of loveliness and were especially applied to beautiful women. The dove was woven into the pagan worship of ancient northern Europe, and it has a great place in early Christian life and symbolism. From immemorial time the dove has always been a type of innocence to the Jews. Elsewhere it has been associated since the Olympian age with the higher idea of Venus as the symbol of natural human affection—the love that goes with purity and simplicity of heart. It had a part in marriage scenes and was naturally introduced by early Christian painters into pictures of the Madonna and child and of female saints. These qualities of gentleness and affection combined with their mournful notes made doves equally appropriate to moods of sorrow, and they were a part of the furniture of most pagan funerals. This passed on into Christian usage and their likeness, generally combined with the olive branch, were carved on the tombs in the catacombs beneath Rome and elsewhere, emblematic of eternal peace.

In the Sporting Magazine for 1825 this appeared: "Pigeons are rarely seen at the table of the Russians, who entertain a superstitious veneration for these birds because the Holy Ghost assumed the form of a dove." Commenting on this, a writer says, "This custom of the abstinence from the flesh of the dove is far older than Christianity, being indeed fitly and probably connected with the same class of feelings as those which marked fit out as the Aryan death bird."

Sir Richard F. Burton remarks: "Ever since Noah's dove every religion seems to consider the pigeon as the sacred bird. For example, every mosque swarms with pigeons, and the same exist in most Italian market places. The Hindoo pundits and the old Assyrian empire also have them."

One Mystery Solved.

Boarding house habitues who have repeatedly complained of the dark, cheerless coloring of the wall paper in their rooms may find something to interest them in the information recently elicited by a curious clerk in a department store.

"I should like to know," said the clerk—"in fact, I have long wanted to know—why it is that you ladies who manage boarding houses always choose such dark paper."

"Well," said the prospective purchaser, "if that is the only thing you want to know you might just as well have got wise long ago. We like dark paper because with that on the walls the pictures don't leave such ghastly scars."

Expired.

The defendant, who was held on the charge of keeping a dog without a license, repeatedly tried to interrupt the evidence, but was hushed each time by the court. Finally the clerk turned to him.

"Do you wish the court to understand," he asked, "that you refuse to renew your dog license?"

"Yes, but."

"You want no 'buts.' You must renew your license or be fined. You know it expired last month."

"Yes, but so did the dog."

Worth While.

Whatever adds in even the smallest way to the world's brightness and cheer is worth while. One who says an encouraging word to a disheartened neighbor, gives a look of love to a lonely one or speaks a sentence which may become strength, guidance and comfort to another does something worth while. It is always worth while to live nobly, victoriously, struggling to do right, showing the world even the smallest fragments of divine beauty.

His New Vocation.

"John's home from college?" "Yes."

"What's he going to do now?" "Well, 'twixt you and me I think he's just about decided to loaf around and be one of these here incomprehensible geniuses!"

Horse Sense.

"Now, he's got what I really call horse sense."

What The Earth Produces.

The earth has nourished us through unknown ages of human existence. Is it not true that the earth supplies us with everything that we really require for existence? Have you ever thought that it is probable that the earth supplies us with the means to keep our bodily vigor, our health, if we only knew it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation, etc. Is it, therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. Y., has such faith in his "Medical Discovery." Years ago, when he was in general and active practice, he found that a combination of certain herbs and roots made into an alternative extract, without the use of alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and put healthy tone into the whole system.

Dr. Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect digestion and assimilation of food from which flesh and strength are made.

"I was all run down, very nervous, and suffered terribly from indigestion, while the doctors pronounced indigestion," writes Mrs. Wm. Moore, of Marshall, Mich. "I doctored for a year without permanent relief. I was advised by a friend to try Dr. Pierce's Golden Medical Discovery, and after the use of nine bottles I was cured. I can heartily recommend the Golden Medical Discovery to any one suffering from stomach trouble, indigestion, or any other ailment connected with the stomach. It is a great benefit to the human race."

An Amended Quotation.

Miss Ida Tarbell's first journalistic experience was as editor of the Chautauqua. Her predecessor on the journal, once editor of the Oil City Derrick, had established the custom of heading with a quotation the column in which he made brief mention of the news of the day. Miss Tarbell followed his habit and bent her mind to the task of supplying suitable quotations. Once upon a time she set down, as plain as pen could set it:

"The meek-eyed morn appears, mother of dew."

Then she went home, pardonably proud of knowing her Thomson so well, and at the head of the column next day she read:

"The weak-eyed worm appears."

A Lack of Firmness.

A very matter of fact Scotchman called to see a neighbor, an old Irish woman, who had been ailing for some time, when the following conversation took place at the door:

"And how do you find yourself today, Bridget?"

"Sure, your honor, I'm mighty bad. This shocking weather'll be the end of me. I'll be a dead woman before long."

"Hoos, toots, woman! Ye've been saying that for the last twenty years! I'll tell ye what it is—ye want firmness o' mind. Fin' a day for yer deeding and stick tae it!"
