Why Cannot Canadians

make as good Machines as the Americans? is aquestion often asked. They can if they endoses. One Canadian does it. At the Great Paris Exposition in 1889, the Massey Manufacturing Co.'s Machines in a field trial defeated all other competitors, including American machines, and won the highest award. They have also beaten the Americans on other occasions. The Buckeye Mower made by this Co is equal in neatness and perfection to the much vaunted American Buckeye and costs a good deal less money. This Co.'s goods, including Toronto, Massey and Buckeye Mowers Ithaca and Sharp's Rakes and extras for the for sale by

Cough-Cures

Are abundant; but the one best known for tis extraordinary anodyne and expectorant qualities is Ayer's Cherry Pectoral. For nearly half a century this preparation has been in greater demand than any other remedy for colds, coughs, bronchitis, and pulmonary complaints in general.

"I suffered for more thin eight months from a severe cough accompanied with hemorrhage of the lungs and the expectoration of matter. The physicians gave me up, but my druggist prevailed on me to try

Ayer's Cherry Pectoral.

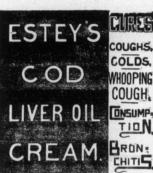

I did so, and soon began to improve; my lungs healed, the cough ceased, and I became stouter and healthler than I have ever been before. I would suggest that the name of Ayer's Cherry Pectoral be changed to Elixir of Life, for it certainly saved my life."

-F. J. Oliden, Saito, Buenos Ayres.

"A few years ago I took a very bad cold, which settled on my lungs. I had night weats, a racking cough, and great soreness. My doctor's medicine did me no good. I tried many remedies, but received no benefit; everybody despaired of my recovery. I was advised to use Ayer's Cherry Pectoral, and, as a last resort, did so. From the first does I obtained relief, and, after using two bottles of it, was completely restored to health."—F. Adams, New Greins, N. J.

The morning is at hand when Germany wakes to the evils of intemperance. Whenever the Teuton mind deals seriously with any problem involving scientific soundings, it is apt to bring truth to the top. When it starts in quest of the effects of alcohol, sociological facts will prompt to physiological research.
