MR. CHAS. ROBINSON
CONTINUES IN OFFICE
The continuance of the office of
the Returned Soldiers' Aid Commis-
sion under Charles Robinson, secre-
tary, is an announcement which is
received with general satisfaction by
the returned men. They regard it as
especially important to have such
an institution still kept up in St.
John now that the employment offi-
ces and the pensions offices have
been closed, for there is still much
work to be done towards helping
needy or problem cases. Mr. Robin-
son has made himself thoroughly
liked and trusted by returned men
who feel that he is working in their
best interests and he has done much
to help a large number of them.

HELPLESS WITH RHEUMATISM

Until He Took "Fruit-a-tives"
The Fruit Medicine

R. R. No. 1, LORNE, ONT.
"For over three years, I was
confined to bed with Rheumatism.
I treated with doctors, and tried
nearly everything without benefit.
Finally, I tried 'Fruit-a-tives'.
Before I had used half a box I saw
improvement; the pain was easier
and the swelling started to go down.
I continued taking this fruit me-
dicine, improving all the time, and
now I can walk about two miles and
do light chores about the place".

\$56,000,000,000 Represent Paper Money of World

New York, May 9.—In an address
before the Sales Managers' Club of
New York, O. P. Austin, statistician of
the National City Bank, presented the
latest figures of world currency, na-
tional debts, interest charges and
other Governmental expenditures,
showing that the paper money of
the world (exclusive of that issued
by the Bolsheviks) had increased from
\$7,000,000,000 at the beginning of the
war to \$40,000,000,000 at the date of
Armistice, and \$56,000,000,000 at the
present time; also that the national
debts of the world had grown from
\$40,000,000,000 in 1913 to fifty-six bil-
lion in 1920, while world credits, an-
other form of inflation, had also en-
ormously increased.

The ratio of gold to paper cur-
rency of the world, he said, which
stood in 1913 at about 70 per cent.,
was at the close of the war 18 per
cent., and at the present time approx-
imately 12 per cent. Especially
startling was the fact that while the
increase in world paper had been
\$33,000,000,000 during the war period,
the increase since the close of hostili-
ties had been \$16,000,000,000, or about
one-half as much in the 18 months of
after-war peace as in the 51 months
of actual war.

The world budgets are now approx-
imately five times as much as be-
fore the war, and the annual inter-
est charges on world national debts
now over \$9,000,000,000 per annum as
against about \$1,750,000,000 immed-
iately preceding the war.

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages and
that is Catarrh. Catarrh being greatly
influenced by constitutional conditions
requires constitutional treatment.
Hall's Catarrh Medicine is taken in-
ternally and acts thru the Blood on
the Mucous Surfaces of the System,
thereby destroying the foundation of
the disease, giving the patient
strength by building up the constitu-
tion and assisting nature in doing its
work. The proprietors have so much
faith in the curative powers of Hall's
Catarrh Medicine that they offer One
Hundred Dollars for any case that it
fails to cure. Send for list of testi-
monials.

Muscles Mean Nothing
When the nerves fall down
the muscles control the muscles. The
stomach feeds both.

**HAWKER'S
NERVE & STOMACH TONIC**
was so equal as to nerve food,
blood making and invigoration. It
is an excellent remedy for depres-
sion and despondency.

Read what Mr. E. L. Rising, of
the well known St. John firm of
Watson and Rising, has to say:
"I have used Hawker's Nerve
& Stomach Tonic in my family
for years, and consider it has no
equal as a blood builder and appeti-
tizer. It was especially beneficial
to my children when an attack of
fever struck them."
Yours truly,
E. L. RISING.

Potato Merchants In New Brunswick

Potato merchants in New Brunswick
are watch'g with interest the result
of the consumer boycott of potatoes
in various Ontario cities. At Toronto
the dealers have over thirty cars on
the sidings, and are in a quandary as
to what to do about them. If sent to
Montreal they may find that by the
time they have reached there Mon-
treal will be boycotting potatoes. The
fact that some Ontario dealers are
showing a disposition to let the pota-
toes rot rather than reduce prices is
creating feeling among the people.
Demands are being made in the
press that the Government step in and
take charge of the business of mar-
keting farm produce, as is done with
cattle and other produce in Australia.
One result will apparently be to ex-
tend the co-operative movement among
farmers for the disposal of their pro-
ducts, and eliminate some of the mid-
dlemen, who have been proceeding
on the plan of charging all the traffic
will bear.

No One Scoffs Now At Salvation Army

Efforts Universally Appreciated
from the King Down to His
Humblest Subject.

The older generations will remem-
ber the sneers and scoffs with which
the earlier pioneers of The Army
were greeted when they planted
their banners at the street corners.
All that has gone, and the great war
waged by the Salvationists against
the powers of evil and folly, cruelty
and vice is universally appreciated
from the King down to his humblest
subject who comes under the flag.

So true is it that there is hardly a
street or alley in any of our large
towns which had not yielded a bitter
harvest of misery to be cured and of
wrong to be righted. Half a century
—and still the fight goes forward.
In the great work of national recon-
struction and lines of freedom
and self-determination The Salvation
Army has no mean share to under-
take in raising those who have fall-
en by the way in the press of the
struggle for existence.

Like other movements of its kind
The Salvation Army has suffered
from the diversion of financial aid to
the imperative and overshadowing
needs of the greatest war in history.
Now, in the happier dawning days
of peace in celebration of The Army's
Jubilee, which really fell in 1915, but
was postponed till the sound of the
gun had died out, the call is once
more confidently made for help.
There are so many urgent direc-
tions in which The Army's work for
humanity lies, that the appeal for the
fund which its Officers have set out
to raise as the special Jubilee Fund,
should meet with a generous and
ready response from men and women
of all classes and all creeds.

Music Notes

At the recent meeting of the Bar-
rie, Ont., Board of Education the
question of appointing a music teach-
er for schools came up. A commit-
tee was appointed to look into the
matter.

The Toronto, Ont., Separate School
Board has appointed a second music
instructor for its schools.

Stradivarius, monarch of the art
of violin making, had reached the
age of 50 before his hand and eye
had acquired supreme his best instru-
ments when he was between 56 and
60 years of age.

Handel was 48 years old before he
published any of his great works;
and he was 56 when "The Messiah,"
the grandest and most popular of
his oratorios, appeared.

St. Louis, Mo., has formed a Civic
Music League to advance the interests
of music in that city.

Denver, Col., has a municipal music
commission, which controls a munici-
pal auditorium seating 3,600 and a
concert hall seating 10,000; a municip-
al band which gives free daily con-
certs; free organ recitals by a municip-
al organist; and a municipal choir
director who has developed a fine
choral body of 300 voices. The com-
mission intend forming a symphony
orchestra to round out its activities.

The Cambrai Steel Co., of Johnston
Pa., has formed among its employees
a symphony orchestra of 80 men.

All the grammar schools of New
Bedford, Mass., have orchestras made
up of pupils playing music lessons in
some one or other instrument. The
High School also has an orchestra of
advanced pupils, which give concerts
several times throughout the year.

WEATHER PROPHECIES

An exchange says: Local weather
prophecy predict that the cold and
chilly weather of early May will con-
tinue for another three weeks yet or
at least until the moon again changes.
This change takes place on May 18—
following that event, the weather will
be warm and mild. We hope that
their predictions will not adhere to
the literal truth. The winter has
been quite long enough to suit the
wishes of our people. May of
the present year of 1920 has ex-
ceeded the record, that Great Britain
ever took this country from the 15
th century.
